DELTRON Professional Phono and DIN Connectors

PROFESSIONAL RCA PHONO PLUGS AND LINE JACKS

A range of high quality UK manufactured phono plugs and line sockets made from machined brass with various plating options

Specifications:

- Center contact: brass with silver or gold plate
- Ground contact and cable clamp: brass with nickel or gold plate
- Body and spring strain relief: brass with nickel, gold, or black chrome plate
- Current rating: 5A @ 200VDC/150VAC
- Insulation: Noryl SE1
- Insulation resistance: 100MΩ @ 500VDC
- Maximum cable size: .22"

Cable Jacks

- Spring center contact for secure cable connection

MOUSER STOCK NO.	Plating		Price Each		
	Center Contact	Body	1	10	100
164-3400	Silver	Nickel	1.93	1.76	1.60

COLOURED CAP PHONO PLUGS

A range of high quality UK manufactured phono plugs made from machined brass with various plating options. The aluminum housing is anodized in various colors for easy identification.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collet: brass with flash gold plate
- Body: anodized aluminum
- Spring: brass with black chrome plate
- Insulator: PTFE

Features:

- "T" shape ground contact for maximum contact area
- Accepts cable diameters up to .216"
- collect for cable gripping and dual grounding

MOUSER STOCK NO.	Cap Plating	Price Each		
		1	10	100
174-3461	Black anodized	3.43	3.12	2.84
174-3462	Blue anodized	3.43	3.12	2.84
174-3465	Red anodized	3.43	3.12	2.84
174-3467	Yellow anodized	3.43	3.12	2.84

PROFESSIONAL PHONO PLUGS

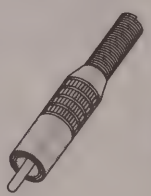
Designed and manufactured in the UK to the highest quality standards for use with Professional Audio Equipment.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collet: 0.5 micron gold plated brass
- Insulator: PTFE for high dielectric constant

Features:

- Ground contact with "T" shaped slot for effective spring contact retention
- Solid brass body provides 100% shielding



MOUSER STOCK NO.	Cap and Spring	Color Band	Price Each		
			1	10	100

DELTRON Color Coded XLR/DIN Connectors

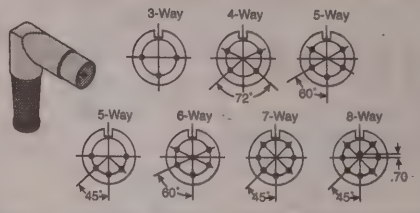
COLOR CODED XLR CONNECTORS/DIN CONNECTORS

t Angle DIN Connectors

shielded robust range of 90 deg. DIN Connectors for use in nentation and audio applications. Available in bright nickel. A construction incorporating cable grip and strain relief.

ifications:

erial Housing: Zinc Alloy heavy nickel plated over copper tacts: brass, silver plated



For quantities of 1000 and up, call for quote.

CHANNEL IDENTIFICATION SYSTEM

nique color coded system gives you durable, bright identification for both free cable or panel plugs and sockets, making the marking of panel mounted connectors foolproof.
0 available colored collars are numbered 0-9 using the standard industry resistor color code system.

or Coded Connector Collars

ures:

circular ring prevents ring from falling off
ars numbered with corresponding
r for easy identification
s required for complete collar assembly

crewless assembly,
lf-locking cable clamping collet

Latching
Illustrated

Specifications:

- Current rating per contact: 3C = 16A, 4C = 10A, 5C = 7.5A
- Maximum wire gauge: 3C = 12AWG, 4C = 16AWG, 5C = 18AWG
- Contact resistance: < 3mΩ
- Voltage rating: 250VAC

Features:

- Screwless assembly
- Die-Cast body parts (no plastic)
- Flexible colour coding systems
- Unique "squeeze" clip
- Assembly and disassembly is a quick few turns of the barrel: No fiddle screws. Inside there are generous sized solder buckets and a clever collet to ensure a very positive cable grip over a wide range of cable sizes.
- The female panel socket employs a unique squeeze clip which is very easy to use -- just squeeze down and pull back.

NON-REFLECTIVE NICKEL FINISH

"Q-G" QUICK GROUND XLR AUDIO CONNECTORS

"Q-G" connectors feature a separate ground terminal integral with the connector shell. The high-impact thermoplastic insert is retained by a loss preventing captive design screw, female connectors have positive latch lock system.

Specifications:

- Current Rating: 3C = 15A, 4C = 10A, 5C = 7.5A
- Cable Size: .21" to .30" O.D.
- Wire Size: 3 contact-12 AWG solid, 14 AWG stranded; 4 contact-14 AWG solid, 16 AWG stranded;
- 5 contact-18 AWG solid, 20 AWG stranded
- Pin and Socket Contact: Silver-plated copper alloy
- Housing Material: Die-Cast zinc with satin nickel or black velvet finish

Cord End Plugs

For quantities of 100 and up, call for quote.

TINI "Q-G" QUICK GROUND XLR AUDIO CONNECTORS

Miniature XLR connectors, ideal for use with slim lavaliere microphones and instrumentation using shielded or unshielded cables. Positive latch locking system and molded thermo plastic strain relief.

Specifications:

- Current Rating: Plug or Panel 3-4C = 5A, 5C = 4A; PCB Receptacle 3-5C = 5A
- Maximum Cable: .115" O.D. for flex relief versions; .170" O.D. for "L" version (omitted flex relief).
- Wire Size: 22 AWG solid; 24 AWG stranded
- Contacts: Pin and Socket-Silver-plated copper alloy; PCB Receptacle-Tin-plated brass
- Housing Material: Plugs and Male Receptable-Nickel-plated copper alloy, Female Receptable-Nickel-plated die cast zinc; PCB Receptable-Thermoplastic

EASYCON® XLR SERIES STRAIGHT CABLE CONNECTORS

Specifications:

- Current rating per contact: 6A
- Contact: Female: CuSn6/Male: CuZn36Pb1.5
- Maximum wire gauge: 22-26 AWG
- Cable OD range: 5.5 - 7.0 mm
- Contact Plating: Au

Features:

- Available in solder or IDC termination
- 3 piece construction reduces assembly time
- No set screw assembly
- Self adjusting cam lock cable clamp

KOBICONN PCB INSULATED BANANA PLUG SOCKETS

These new sockets mount directly onto printed circuit boards and accept standard banana plugs. They incorpor alignment grooves in the outer housing which allows close mounting. A double height socket permits two test or feed points to be mounted to a PCB. Both single and double sockets are constructed of durable acetal plastic a are rated at 10 amps. Available in red or black.

AMP BNC Connectors

BNC PLUGS

- Bayonet lock coupling for quick connect/disconnect
- Fully intermateable with comparable BNC UG/U connectors
- Single crimp connectors offer one crimping operation
- UL approved: File No. E81956
- CSA approved: File No. LR 7189

Specifications:
- Center contact plating: Gold

Dielectric: is either polyethylene (PE), polymethylpentene (PM), polypropylene (PP), or TEFLON (T).

For quantities of 500 and up, call for quote.

AMPHENOL BETWEEN SERIES ADAPTERS

Amphenol Between Series Adapters are used to join two connectors of different series. They are designed to offer the lowest VSWR rating of the two series involved. For Reverse Polarized connectors, RP is added to the end of the part number.

For quantities of 100 and up, call for quote.

INI SMB 75 OHM CONNECTORS

3 connectors feature quick connect/disconnect snap-on mating . Mini 75 ohm connectors are matched-impedance SMB connectors to be used with 75 ohm miniature x cables. The connectors are the same size as, and intermateable with, standard 50 ohm connectors.

npedance: 75 ohm • Finish: Gold, unless part number is noted with * = Nickel • Frequency range: 0-4 GHz
ody Material: Brass • Center Contact: 30µ" Gold • Insulation: Teflon

For quantities of 500 and up, call for quote.

MA SERIES FOR LMR AND SEMI-RIGID CABLES

ese SMA connectors offer a compact size and mechanically give outstanding durability.

mpedance: 50 ohm • Finish: Gold • Frequency Range: 0-18GHz (semi-rigid); 0-12.4GHz (flexible cable)
ody Material: Brass • Center Contact: Gold • Insulation: Teflon

For quantities of 500 and up, call for quote.

REVERSE POLARITY SMA CONNECTORS

leverse Polarity connectors employ female contacts in the plug connector and male contacts in the jack connector. SMA-RP will not mate with standard SMA Connectors.

Impedance: 50 ohm • Body Material: Brass
Frequency Range: 0-6 GHz • Finish: Gold

For quantities of 500 and up, call for quote.

N SERIES FOR LMR AND SEMI-RIGID CABLES

The Connex N connectors with screw coupling are fully interchangeable with N connectors made to the MIL-C-39012 specification. Designed for use in all systems where good R.F. and mechanical performance is critical, whether it be at low or high frequencies.

- Impedance: 50 ohm
- Finish: Nickel
- Frequency Range: 0-11GHz
- Body Material: Brass
- Center Contact: 3µ" Gold
- Insulation: Teflon

For quantities of 500 and up, call for quote.

TNC SERIES FOR LMR AND SEMI-RIGID CABLES

The Connex TNC connector is a medium size coaxial connector with thread coupling made to a high quality level. All 50Ω TNC connectors are intermatable with 75Ω TNC connectors.

- Impedance: 50 ohm
- Body Material: Brass
- Insulation: Delrin (or Teflon*)
- Frequency Range: 0-11 GHz
- Finish: Nickel
- Center Contact: 3µ" Gold

SMA BRASS BODY RF CONNECTORS

- Freq. Range: 0-18GHz Semi-Rigid cable, 0-12.4GHz Flexible cable
- Insulators: TFE fluorocarbon
- Connector Durability: 100 matings
- Impedance: 50 Ohm
- Center Contact: gold plated
- RFX: Low cost commercial version
- Mating Coupling: .250-36 threaded coupling

For quantities of 500 and up, call for quote.

MPHENOL AMC CONNECTORS

nnectors for use in applications with 50Ω impedance requirements. AMC connectors are low profile (2.5mm off the board) and offer an extremely small board otprint (3mm x 3mm).

atures:
- Easy snap-on / snap-off mating
- Ultra low-profile (2.5mm mating height)
- Small footprint (3mm x 3mm)
- 100% Compatible with Hirose U.FL series **

Specifications:
- Impedance: 50 Ohm
- Frequency Range: 0-6 GHz
- V.S.W.R.: 1.3 max DC to 3 GHz, 1.4 max 3 to 6 GHz
- Temperature Range: - 40°C to +90°C
- Durability: 30 cycles
- Mating Female contact holding force: 0.15 N min
- Body Material: Silver over Phosphor Bronze

Applications:
- WLAN
- Bluetooth
- PDA
- Notebook computers
- GPS
- Portable Devices
- Remote Measuring Equipment

* Hirose and U.FL are registered trademarks of Hirose Electric U.S.A. Hirose is not in any way affiliated with the AMC product. **For quantities of 1000 and up, call for quote.**

AMPHENOL QMA CONNECTORS

MA is a quick disconnect version of the SMA connector. Instead of using a threaded coupling mechanism, a new snap-lock mechanism is used.

eatures:
- Operates at the same electrical performance as SMA
- Snap-on interface for quick and easy installation (can be installed 10x faster that SMA)
- Snap-Lock mechanism removes requirement for wrench clearance, allowing for denser packaging
- Rotatable 360° after connection

Specifications:
- Impedance: 50 Ohm
- Frequency Range: 0-6 GHz
- V.S.W.R.: 1.05 max DC to 3 GHz, 1.12 max 3 to 6 GHz
- Temperature Range: - 40°C to +80°C
- Body Material: White Bronze over Brass
- Durability: 100 cycles
- Power Handling: 125W at 40°C

Applications:
- Base Stations
- Instrumentation
- Process Controls
- Cable Assemblies
- Mil/Aero
- Telecom
- Components
- PC/LAN

For quantities of 500 and up, call for quote.

AMPHENOL SMP CONNECTORS

The SMP interface is a subminiature interface in the same scale as MMCX connectors but offers a frequency range of DC to 40GHz. It is commonly used in miniaturized high frequency coaxial modules and is offered in both push-on and snap-on mating styles.

Features:
- RF performance DC to 40GHz
- Designed to accommodate both radical and axial misalignment
- Push-on and Snap-on mating styles for quick installation

Specifications:
- Impedance: 50 Ω
- V.S.W.R: 1.50 max 0-20 GHz
- Temperature Range -65°C to +155°C
- Contacts: Gold-plated brass, Gold plated beryllium copper
- Mating Cycles: 100 with full detent, 500 with limited detent
- Body Material: Gold plated brass, Gold Plated beryllium copper

Applications:
- Aerospace
- Routers
- Broadband
- Board to Board Interconnect
- Telecom
- Instrumentation
- Phased array antennas

For quantities of 100 and up, call for quote.

TWIN-AXIAL WEATHER PROOF CONNECTORS

- Frequency Range: 0-200 MHz
- Impedance: 78 amd 95 Ohm Cables
- RFX: Low cost commercial version
- Weatherproof: When mated
- Mating Coupling: 3/4-20 Threaded keyway polarization

For quantities of 500 and up, call for quote.

. BOMAR Between Series Adapters and Kits

Between series adapters solve a variety of connection problems where connectors of different types could ordinarily not be mated together. Each adapter has a different type coupling at each end allowing for a wide variety of interconnections to fit almost all interconnection situations. All adapters are constructed of machined brass and are nickel plated.

Type N Adapters

For quantities of 100 and up, call for quote.

UE 75 OHM BNC PLUGS

cifications:
ntrolled 75 Ohm impedance
quency range: 0-3GHz
rking voltage: 500volts RMS

- Temperature range: -65°C to 165°C
- Dual Crimp 3 piece assembly

Material:
- Body: Brass, nickel plated over copper plated
- Contact: Brass, gold plated over nickel over copper plated
- Crimp Sleeve: Copper, nickel plate over copper plated
- Insulator: Teflon

For quantities of 200 and up, call for quote.

MOUSER ELECTRONICS a tti company

JOHNSON COMPONENTS RF Connectors

MA QUICK-CONNECT

e Johnson SMA Quick-Connect plug can quickly mate to a standard, threaded SMA Jack receptacle allowing id test connections to devices utilizing SMA threaded jacks. Full Mil-C-39012 electrical compatibility is obtained n a push and twist motion. The knurled thumbnut requires only one half to one full turn to create a solid nnection. Rapid disconnect is accomplished with a twist and pull motion.
e SMA Quick-Connect plug adapter converts a standard SMA plug test cable into a Quick-Connect cable.

PRODUCT NEW

Coupling Hardware: Nickel plated
Frequency Range: 0-12.4 GHz Plugs, 0-18GHz Adapter
VSWR: 1.15 +.02f(GHz) Plugs, 1.05 +.005f(GHz) Adapter
Contact Plating: Gold

For quantities of 200 and up, call for quote.

SMA CABLE CONNECTORS

- Impedance: 50Ω
- Body: Brass
- Contact Plating: Gold
- Insulator: PTFE Flourocarbon
- Temperature Range: -65° to +165°C
- Durability: 500 Cycles minimum
- Frequency Range: 0-12.4 GHz for Flexible Cable Types
  0-26.5 GHz for Semi-Rigid Cable Types
  0-28 GHz for Plugs with Semi-Rigid cable and Captivated Solderless Contact;
  0-25 GHz for Jacks with Semi-Rigid cable and Captivated Solderless Contact

For quantities of 200 and up, call for quote.

SMK (2.92MM) 40 GHZ CONNECTORS

Precision SMK connector provides an excellent solution for demanding applications requiring high frequency transmission. Although similar to a SMA connector, a smaller internal body diameter and air dielectric provide a higher cutoff frequency.

- Connector Mating: per MIL-STD-348
- Impedance: 50 Ohm
- Connector Body: Stainless Steel
- Temperature Range: -65° to 165°C
- Frequency Range: 0-40GHz
- Contacts: Gold Plated
- Durability: 500 Cycles Minimum

For quantities of 100 and up, call for quote.

BNC CONNECTORS

These are small, lightweight, weatherproof miniature connectors. The two stud bayonet coupling system of the BNC yields an easy-to-use, quick connecting/disconnecting device.

Features:
- Miniature
- Bayonet lock coupling
- Weatherproof

Specifications:
- Frequency Range: dc-4 GHz
- Voltage Rating: 500 Vrms
- Contract Plating: Gold
- Temperature: -65 to +165°C
- Mounting: PCB

BNC PCB Jacks

SMA CONNECTORS

SMA Connectors are high performance subminiature connectors for the microwave frequencies. These connectors are typically specified to operate up to 18GHz but will function mode free to 25GHz. The screw threaded coupling insures uniform contact of the outer conductors, which enables the SMA to minimize reflections and attenuation at higher frequencies while providing a high degree of mechanical strength and durability.

Features:
- Subminiature
- Threaded coupling

Specifications:
- Frequency Range: dc - 18 GHz
- Voltage Rating: 335 Vrms
- Temperature: -65 to +165°C
- Contact Plating: Gold
- Impedance: 50 ohm

SMB CONNECTORS

These are a subminiature connector series designed for applications operating to 4 GHz. This series includes a snap on interface that is controlled by industry standard specifications and is easy to connect and disconnect.

Features:
- Subminiature
- Snap-on coupling
- Body Material: Brass
- Plating: Gold

Specifications:
- Frequency Rating: dc-4 GHz
- Voltage Rating: 500 Vrms
- Temperature: -65 to +165°C

Plugs

- Center contact solder termination
- Crimp braid termination

For quantities of 100 and up, call for quote.

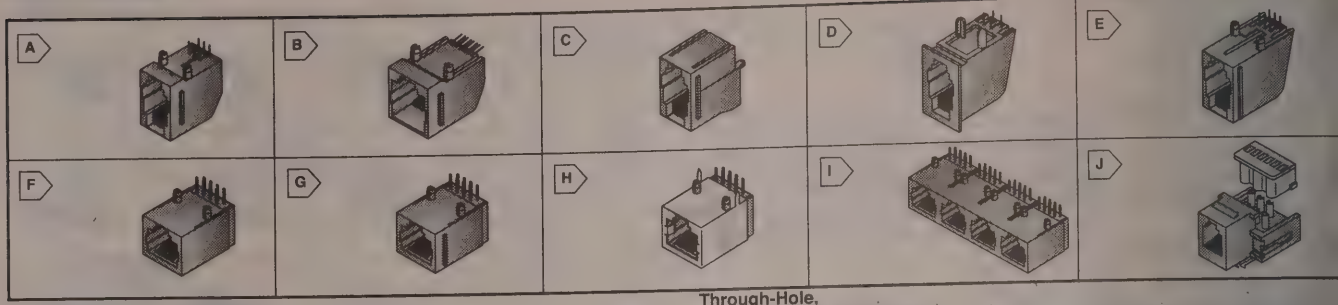
AMP Modular Jacks



PCB MODULAR JACKS

This series is designed for direct mounting onto a printed circuit board and are available in two profile heights; low and standard for through-hole, low only for surface mount and shielded through-hole applications.

Specifications:
- Color: Black
- Current Rating: 1.5 amp max.
- Voltage Rating: 150 volts ac max.
- Durability: 750 mating cycles
- Housing: Through-Hole: Polyester, UL 94V-0 rated
- Housing: Surface Mount: Polyphenylene Sulfide, UL 94V-0 rated
- Contact: .014 (0.36) thk. Phosphor bronze; plated .000050 (0.00127) gold in contact area and .000150 (0.00381) tin-lead on solder tails, over .000050 (0.00127) nickel underplate

Features:
- Meets or exceeds FCC Part 68 rules and regulations
- Meets 1000 volt dielectric requirement
- Designed for ease of soldering and board cleaning
- Designed for direct mounting on pc boards
- Surface mount jacks compatible with vapor phase & IR reflow soldering
- UL: File No. E81956
- Terminal No. 1 is the terminal to the extreme left as you face the jack opening, tab notch down

Through Hole, Side Entry, Low Profile

For quantities of 250 and up, call for quote.

Multi-Ports - Unshielded

Specifications:
- Current Rating: 1.5 amp max. @ 25°C
- Voltage Rating: 150 VAC max.
- Durability: 750 mating cycles
- Operating Temperature: -40°C to 70°C
- Housing: Polysulfone, black UL 94V-0
- Contact: .013 (0.33) phosphor bronze; plated .000050 (0.00127) gold in localized area and .000150 (0.00381) tin-lead on solder tails, over .000050(0.00127) nickel underplate
- Shield: .010 (0.25) copper alloy tin-lead plated

Features:
- Meets or exceeds FCC Part 68 rules and regulatio with industry standard pc board footprints
- Low profile and narrow width allow more ports to b packed into less space
- Center mounting leg standard on 8 port versions
- Available with two grounding paths; pc board and panel

* Keyed

For quantities of 250 and up, call for quo

High Performance PCB Modular Jacks - Side Entry

Specifications:
- Current Rating: 1.5 amperes maximum at 25°C
- Voltage Rating: 150 VAC maximum
- Operating Temperature: -40°C to 70°C
- Mating/Unmating Forces: 5 pounds maximum
- Durability: 750 minimum mating cycles
- Housing: Polyester, black UL 94V-0
- Contact: Phosphor bronze, gold over nickel plated in contact area, tin-lead over nickel in solder area
- Shield: Brass, bright tin-lead plated

Features:
- Performance exceeds Near End Crosstalk (NEXT requirements of -40dB at 100 MHz per EIA/TIA 56
- Meets all dimensional, tolerance and metallic plat requirements of FCC Part 68
- Available in single port or multiple port configurations, shielded or unshielded

For quantities of 250 and up, call for qu

Modular Telephone Keystone Kits

These jacks are specially designed to snap into wallplates, panels and undercarpet fittings.

Features:
- Stuffer Cap: Clear polycarbonate
- AMP-BARREL Terminal: Tin plated phosphor bronze
- Label: Adhesive backed polyester
- Contacts: Nickel plated high strength copper alloy having selective gold plating in contact area and selective tin plating in AMP-BARREL terminal area
- Housing: Black thermoplastic, UL 94V-0
- All Keystone jacks are wired one-to-one

For quantities of 250 and up, call for qu

STANDARD MODULAR PLUGS

ecifications:
lectrical: Applications- 150 VAC max. at 1.5A @ 25°C,
erated to .2A @ 70°C
urability: 750 mating cycles
emperature Rating: -40°C to +60°C
ousing: Polycarbonate, UL 94V-0

** Long Body

- Terminal: .014 (.36) thick, phosphor bronze; underplated with 100µin Nickel and plated with 50µin Gold in contact region and gold flash on remainder of terminal.
- Terminal No. 1 is the terminal to the extreme left as you face the cable opening, latch tab down.

Features:
- One-piece construction with preloaded contacts
- FCC and EIA/TIA industry standard size and performance

For quantities of 250 and up, call for quote.

CATEGORY 5" MODULAR PLUGS - HIGH PERFORMANCE

tures:
xceeds EIA/TIA 568A and TSB-40A requirements for Category 5, 4-Pair (RJ45) UTP applications

- Utilizes a load bar for easier cable preparation and termination
- Load bar aids in maintaining 1/2" twist requirements

For quantities of 250 and up, call for quote.

AMPHENOL® FILTERED AND SHIELDED MODULAR JACKS

Features:
- Effective EMC control with a standard RJ-45 jack
- Drop in replacement for non-filtered RJ-45 jacks
- Ferrite Block for filtering
- UL File #: E135615
- CSA File #: LR68598

Specifications:
- Contacts: Flat Phosphor Bronze with 50µ" Au Plating
- Current Rating: 1.5A
- Voltage Rating: 125V
- 8 position - 8 contact

For quantities of 500 and up, call for quote.

FCI MODULAR JACKS

FCI

Features:
- Thru-hole, solder to board configuration
- Press-fit design eliminates hot and cold staking
- Mate with modular plugs conforming to FCC Part 68, Subpart F
- Housing: thermoplastic resin, UL94V-0 rating

For quantities of 2000 and up, call for quote.

KOBICONN MODULAR TELEPHONE GANGED JACKS

The ganged jack, originally developed as a labor and space saving jack for OEM use, now has found extensive use in many new product designs. Modems, answering machines, and office equipment are but a few of the many potential applications.

Features:

- Western Electric 623/RJ11 PCB type
- 4 or 6 contacts
- 2-4 gang assemblies
- Color: gray
- Meets the requirements of FCC/CFR 47 part 68

Specifications:

- 50 micron gold plated contacts
- UL 94V-0 (25% glass filled nylon 66)

PULSE PulseJack™ Filtered Connectors

RJ45 SURFACE MOUNT JACKS

10/100 Base-TX surface mount RJ45 single port (1x1) Tab-UP/DOWN with or without LEDs Integrated Magnetics Connector, designed to support applications such as: Set Top Box and Network Interface Cards (NIC).

Features:
- High performance for maximum EMI suppression
- J3 SMT - Available with or without LEDs
- J0C SMT - Reduced size and low cost alternative to JV Series
- Internal Magnetics: 100% electrically tested for HI-POT & Continuity

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 10/100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- Minimum 1500Vrms isolation per IEEE 802.3 requirement
- Insertion Loss TX/RX (dB Max.): -1
- Hipot (Vrms Min.) @ 60Hz for 1 minute: 1500

RJ45 TAB-DOWN JACKS

10/100 Base-TX RJ45 1x1 Tab-DOWN with LEDs 8-pin (J0 Series) Integrated Magnetics Connector (ICM), designed to support applications such as: SOHO (ADSL Modems), LAN-on-Motherboard (LOM), Hub and Switches.

Features:
- High performance for maximum EMI suppression
- 1x1 Tab-DOWN RJ45 with integral magnetics
- Available with or without LEDs
- Suitable for CAT 5 & 6 fast ethernet cable or better UTP
- Internal Magnetics: 100% electrically tested for HI-POT & Functionality

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- 350μH minimum OCL with 8mA bias current
- Minimum 1500Vrms isolation per IEEE 802.3 requirement

RJ45 TAB-UP JACKS

10/100 Base-TX RJ45 1x1 Tab-UP with LEDs 8-pin (J1 Series) and 6-pin (JP Series) Integrated Magnetics Connector (ICM), designed to support applications such as: SOHO (ADSL Modems), LAN-on-Motherboard (LOM), Hub and Switches.

Features:
- High performance for maximum EMI suppression
- 1x1 Tab-UP RJ45 with integral magnetics
- 8 or 6-pin signal versions available
- Available with LEDs
- Suitable for CAT 5 & 6 fast ethernet cable or better UTP
- Internal Magnetics: 100% electrically tested for HI-POT & Functionality

Electrical Specifications:
- Meets or exceeds IEEE 802.3 standards for 100 Base-T
- Both transmit and receive channels meet IEEE 802.3 specifications
- 350μH minimum OCL with 8mA bias current
- Minimum 1500Vrms isolation per IEEE 802.3 requirement

For quantities of 500 and up, call fo

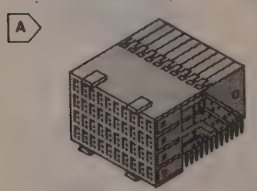
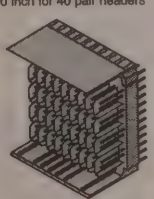
tyco Electronics AMP Z-PACK HM-ZD

Specifications:

- Designed for high speed differential applications
- Modular connector system with a standard module size of 25mm
- 4 signal contact pairs per column compatible with 8 row HM
- Contact pitch is 1.55mm within a pair; 3.0mm pair to pair
- Column to column pitch is 2.5mm
- Card pitch is 1.0 inch for 40 pair headers





For quantities of 25 and up, call for quote.

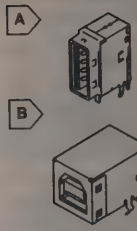
molex USB RECEPTACLES



Electrical:

- Voltage: 30V
- Current: 1.0A

Features:

- Metal shell provides RFI/EMI protection
- Staked-housing provides excellent solder-tail alignment facilitating PCB mounting
- Kinked boardlocks provide strong board retention

Physical:

- Housing: thermoplastic, UL94V-0 • Color: black
- Contact: phosphor bronze
- Temperature: 0° to 40°C (operating)

For quantities of 500 and up, call for q

molex IEEE 1394B FIREWIRE CABLE ASSEMBLIES

Features:

- Easily visible orientation and polarization
- Insulated and recessed plug shield
- Three stage contact mating: Cable ground, Power and signal ground, Signal pairs
- Rugged gold plated contacts to withstand 1000 cycles

Specifications:

- Pitch: 0.65mm (.026")
- Gender: Male-to-Male
- Positions: 9
- Cable Length: 2.0m (6.56 ft)
- Shielded
- Contact: Copper Alloy
- Plating Contact: Gold
- Under Plating: Nickel
- Plating other: Solder Tails and Shell: Tin/Lead
- Cable Type: Jacketed, PVC, Round
- Color: Gray
- Current Max: 1.5A
- Voltage Max: 30V
- Impedance: 110 ohms
- Waterproof/Dustproof: IP54, IP65, IP67, NEMA 6P

ELPHI ection Systems — MINI USB RECEPTACLES

fications:
g Cycles: 5000
ng Color: Black
Material: Nickel over Brass
ring Process: IR, Vapor Phase, Wave

Features:
- Meets USB 2.0 and USB OTG requirements
- SMT and through hole styles available
- Full metal shield helps protect contacts from ESD
- UL Approved

For quantities of 250 and up, call for quote.

P USB RECEPTACLES

ications:
tacle housing: UL 94V-0 rated thermoplastic
: Copper alloy, plated bright tin
Contacts: Brass, plated gold over palladium nickel
e rating: 30VAC (rms)
nt rating: Signal application only, 1A per contact
erature rating: -55°C to +85°C (unless limited by cable or overmold)

Features:
- Plug and play capability
- Hot pluggable
- Compatible with asynchronous and isochromous data transfer methods
- Compatible with Windows operating systems

tyco Electronics

For quantities of 250 and up, call for quote.

EDAC RJ45, USB, IEEE, DVI & Telecom Connectors

RJ45 MODULAR JACKS

- Meets RJ45 Category 5 Specifications
- FCC Compliance: Part 68 SubPart F
- Conforms to ISDN Standards
- Operating Temperature: -40°C to +80°C
- Insulator Housing: Black Plastic PBT/Nylon, UL94V-0
- Contact Material: Phosphor Bronze
- Voltage Rating: 120VAC Max.

For quantities of 500 and up, call for quote.

RJ45 MODULAR JACKS WITH LEDS

- LEDs are available as either a single color with a matching colored lens, or as a bi-color variant that utilizes a clear lens.
- Bi-color LEDs can be made to change color simply by reversing the voltage.
- UL File Number: E138872
- Insulator Housing: Black Plastic PBT/Nylon, UL94V-0
- Reverse Voltage: 5.0 Volts @ <100mA
- LED Voltage: 2.1 Volts Typ. @ 20mA
- Voltage Rating: 120 VAC Max.
- FCC Compliance: Part 68 SubPart F

For quantities of 500 and up, call for quote.

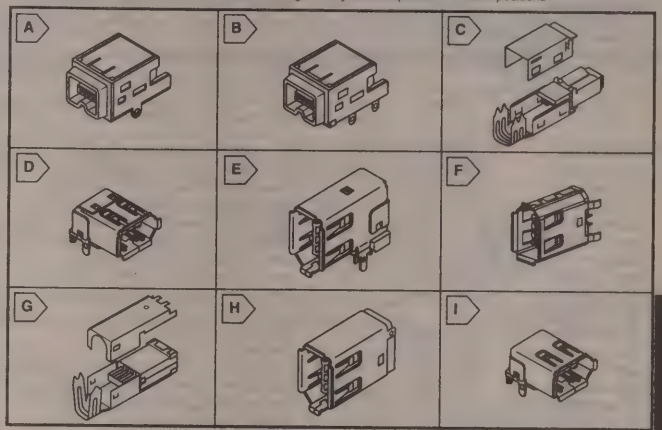
IEEE 1394 FIREWIRE RECEPTACLES AND PLUGS

Features:
- The 4-pin and 6-pin I/O connectors are available in both plugs and receptacles.
- Receptacles are offered with high temperature plastic for true SMT processing.
- Fully shielded metal frame of the receptacle is for ESD protection.
- Rugged gold plated terminals withstand up to 1500 mating cycles with less than 30 milliohms.

Specification:
- Mating cycles: 1500 cycles minimum
- Contact Resistance: 30mΩ
- Vibration: NO discontinuity at 1 micro-second during 3-axis vibration(Peak 30G Random vibration)
- Withstanding Voltage: 500V DC ±50V DC minimum
- Insulation Resistance: 100MΩ minimum
- Electrostatic Discharge: NO evidence of discharge to any of the 6 positions & the 4 positions



For quantities 1000 and up, call for quote.

RJF 544 ETHERNET CONNECTION SYSTEM

RJField allows you to use an Ethernet Class D / Cat. 5e connection for 10 BaseT, 100 BaseTX or 1000 BaseT networks in harsh environments.

- IP67, Sealed against fluids and dusts
- Shock, Vibration, and Traction resistant
- Improved EMI protection
- Quick Push-Pull coupling
- No tools required
- You can use a standard RJ45 cordset

For quantities of 25 and up, call for quote.

FW FIELD IEEE 1394 CONNECTION SYSTEM

FW Field allows you to use a standard IEEE 1394 connection in harsh environments.

- IP67, Sealed against fluids and dusts
- Shock, Vibration, and Traction resistant
- No Tools required
- You can use most standard IEEE1394 cordsets
- Tri-Start Thread coupling mechanism (MIL-DTL-38999 series III type) with anti-decoupling device.
- Data Rate: 400Mbits/second over 4.5 meters

For quantities of 25 and up, call for quote.

SELF CLOSING CAPS

These Self Closing Caps automatically protect the RJ Field square flang receptacles (MIL-C-26482 type), the FW Field IEEE 1394, and the USB Field receptacles from dust and water projections. A spring automatically closes the upper part of the cap when any of their counter plugs are removed from the receptacle.

For quantities of 25 and up, call for quote.

MP Industrial Ethernet - Circular Sealed RJ-45 Connectors

tyco Electronics

mon Features:
vides for reliable performance in electrically noisy conditions found on most factory floors
patible with Cat5e Cable
y intermateable with unshielded product
eaded outer connection contributes to: Environmental sealing (IP67 rated); vibration resistance; and secure, robust connections

PUNCHDOWN BLOCK RECEPTACLE

termination via Insulation Displacement Connections (IDC) with the use of commonly available 110 punchdown tool. Ideal for premises wiring applications.
eptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS) • TIA/EIA Rating: Category 5e compliant
ing: Nitrile Rubber • Use with cordsets, field-attachable plug and/or caps

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each 1	10	25	50
1546404-1	1546404-1	A	110 receptacle, 568A and 568B wiring, backside locking conduit nut	41.40	37.26	35.20	33.12

1583608-1	1583608-1	----	110 Punchdown Tool	48.00	42.00

ECT PCB MOUNT RECEPTACLE

ofile receptacle that solders directly to a printed circuit board (PCB) - intended for customers who wish to incorporate a robust, sealed connection into their field equipment.
r customers who wish to incorporate a sealed RJ-45 in the smallest possible package.
eptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS) • TIA/EIA Rating: Category 5 compliant
ng: Vition Rubber • Use with receptacles, adapters, cordsets, and/or field-attachable plug

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each 1	10	25	50
1546405-1	1546405-1	B	8 pin through-hole receptacle, front coupling hex nut	25.96	23.36	22.07	20.77

NDARD PCB BOARD RECEPTACLES

lexible solution that enables an end-user to solder a cable lead to an internal Ethernet connection.
eptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
ng: Nitrile Rubber • Use with cordsets, field-attachable plug and/or caps

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each 1	10	25	50
1546409-1	1546409-1	C	With PC Board	28.70	25.83	24.40	22.97

LKHEAD PASSTHROUGH RECEPTACLES

rfect solution to bring Ethernet into a cabinet or control box. Simply mount bulkhead product in a panel
mate a sealed connector on the outside of the enclosure, and run a commercial patch cord from the
e RJ-45 jack to your PLC, I/O, or Ethernet control board. No conduit entry is required.

Backside RJ-45 Jack Specifications:
- Base Material: Copper alloy w/30u-inches gold alloy
- Underplating: 2.54 microns of nickel
- Mating Cycles: 250 min.
- Current Rating: 1.5A
- Voltage Rating: 125 V DC

ptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS) • Shock/Vibration: Per IEC 60068-2-6
ng: Nitrile Rubber • Environmental Rating: IEC IP67
ating Temperature: -20° to +80°C • TIA/EIA Rating: Category 5e compliant
n Loss: 5 dB @ 100 MHz • Knockout Hole for Receptacle: 1.031 (26.19)

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each 1	10	25	50

HARTING HAN® MAX ETHERNET CONNECTORS

Approved by the ODVA (Open DeviceNet Vendors Association) EtherNet/IP.

The Ethernet connector Han® Max connects ethernet cables via RJ45 very easily and quickly. One of its main features is a high degree of protection due to a robust metal housing so it can be used directly in industrial environments. Thus reducing the termination time to set up industrial networks.

Features:
- High degree of protection
- Robust metal housing
- Plug & Play installation
- Bayonet nut connector

Specifications:
- Housing: Zinc Die Cast Metal Housing, Nickel Plated
- Connector: RJ45 according to IEC 60 603-7
- Number of used contacts: 8 contacts
- Wire Gage: 26-24 AWG
- Cable Gland: PG 9
- Operating Temperature: -25°C up to +85°C

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	HARTING Part No.	Fig.	Description	Price Each 1	5	10

HARTING HARAX® CIRCULAR SHIELDED M12-L CONNECTORS

Approved by the ODVA (Open DeviceNet Vendors Association). In accordance with PROFInet® guidelines.

- Transmission characteristics in accordance with DIN 50 173-1
- D-Coding for Ethernet
- Wire gauge: 22-24 AWG stranded
- Conductor insulation material: PVC
- Working temperature: -25°C to +85°C
- Temperature during connection: -5°C to +50°C
- Protection level: IP 67

For quantities of 25 and up, call for quote.

HARTING RJ INDUSTRIAL® SERIES - CAT 5e

In accordance with PROFInet® guidelines

- Transmission properties in accordance with Category 5 ISO/IEC 11 801:2002 and EN 50173-1
- Sealed to IP 67
- Temperature range: -40°C to +70°C
- Fast Assembly - no special tools required
- IDC Termination
- Housing material: Black Thermoplastic, UL 94V-0

IP 67 Push Pull Connectors

- RJ 45 interface in Accordance with IEC 60603-7
- Minimum 750 mating Cycles
- Cable Plug: Wire gauge: 22-24 AWG stranded; 22-23 AWG solid
- Panel Feed Through: Panel cut out: 21 x 27mm

For quantities of 25 and up, call for quote.

HARTING RJ INDUSTRIAL GIGALINK SERIES - CAT 6

- Transmission properties in accordance with Category 6 ISO/IEC 11 801:2002 and EN 50173-1
- Cable standard in accordance with ISO/IEC 11 801
- Sealed to IP 67
- Housing material: Black Thermoplastic, UL 94V-0
- Fast assembly using crimp termination
- Temperature range: -40°C to +70°C

For quantities of 25 and up, call for quote.

Industrial Ethernet Connectors and Cat 5E / 6 Cables

INDUSTRIAL ETHERNET PLUGS AND JACKS, CATEGORY 5E

es (84702-0006/0008):

ry 5E specified for high data transmission speeds
nd NEMA 6p ratings - water and dust tight for
nal integrity
t style latch receptacle for quick and easy connection
pper mating depth ensured
ailing surface for less likelihood of failure
nd is potted for extra durability (84702-0008 only)

s (84700-0001/0002/0003):

d construction provides protection to terminals and
nds harsh environments
Category 5E performance for fast ethernet industry
d

Specifications (All):

- Contact: Phosphor Bronze (CwSn)
- Plating Contact: 1.3µm Gold (Au)
- Under Plating: Nickel (Ni)
- Housing Material: PA Polyamide (Nylon) PBT Polyester, TPE Thermo Plastic Elastomer
- Color: Black
- Flammability: UL 94V-0
- Durability (mating cycles): 500 cycles min.
- Current: 1.5A max.
- Voltage: 125V max.
- Withstanding Voltage: 1000VAC
- Contact Resistance: 20mΩ max.
- Insulation Resistance: 500MΩ Min.

PHOENIX CONTACT INDUSTRIAL DATA CONNECTORS

VARIOSUB RJ45

Industrial ethernet connection for CAT 5 and CAT 6

Features:

- Patented VARIOSUB housing with push/pull locking system
- IP67 rated connections for protection from dust, dirt, water
- PCB mount or panel feed thru connections
- Fully shielded inserts

For quantities of 50 and up, call for quote.

VARIOSUB USB

Provides connection of peripherals for industrial PC's and control systems.

Features:

- Compatible with USB 2.0
- Transmission rate 480Mbp/s
- IP67 and IP20 rated connections for protection from dust, dirt, water
- Mates with Phoenix Contact VARIOSUB USB Patch Cables

For quantities of 50 and up, call for quote.

VARIOSUB FireWire

Provides connection of peripherals for industrial PC's when high data transmission for "real time" is required.

Features:

- Transmission rate 480Mbp/s
- Meets specifications of IEEE 1394
- IP67 rated connection for protection from dust, dirt, water
- Mates with Phoenix Contact VARIOSUB FireWire Patch Cables

For quantities of 50 and up, call for quote.

PHOENIX CONTACT FL COM SERVER RS-232

Ethernet has been highly accepted in industrial applications. However, not all automation devices are network-compatible. The "Serial Device Server" FL COM SERVER RS232 solves this problem. It allows the easy integration of RS232 based end devices in 10/100 BASE-T(X) networks.

Features:

- DIN-RAIL Mounted
- 22.5mm Housing width
- Integrated Surge Voltage Protection
- 10/100 Base T (X) Auto Detect
- Support of all common Network Protocols
- Diagnostic Displays

For quantities of 5 and up, call for quote.

KOBICONN FLAT MODULAR TELEPHONE AND DATA CABLE

This modular telephone cable is available in 4, 6, and 8 conductor in three colors: silver satin, black and white. It is sold in 1000' spools.

Features:
- Available in black, white or silver satin
- Tinned copper conductors prevent corrosion
- Compatible with all USOC modular plugs

Specifications:
- 26 AWG, 7 x 34 stranding
- Conductors are USOC color coded
- PVC jacket

microGIGaCN HIGH SPEED I/O CONNECTORS

Designed for high speed differential signal applications such as 10G Ethernet, CX4, SAS, and SATA-2 applications.

Features:

- Matched Impedance: 100 ohms ±10%
- Low insertion loss and low cross talk
- Adopted by InfinBand as 4x (4 channel) and 12x (12 channel) I/O Interface
- Meets Bellcor 1217
- Insulator Material: LCP Resin (UL94V-0)
- Conductor Material: Copper Alloy
- Contact Plating: Gold Plated

Specifications:

- Operating Temperature Range: -55°C to +105°C
- Current Rating: AC 0.5A (signal) AC 1A (ground)
- Voltage Rating: AC 30V
- Contact Resistance: 80 m ohms max. (signal) 35 m ohms max. (ground)
- Insulation Resistance: 1000M ohms minimum

Socket Connectors

TRIAD™ DIFFERENTIAL PAIR CONNECTORS

Achieve bandwidths up to 5.0 Gbps and beyond with TDP. The innovative TDP (Triad Differential Pair) family uses the Triad design of differential signal and ground lines to achieve optimal bandwidths for cable-to-board interconnections. The shielded, dual row interface offers high-speed and 100-ohm controlled impedance. The TDP family is comprised of a fully shielded receptacle and plug to provide maximum EMI/RFI protection.

Electrical Specifications:

- Voltage: 40V
- Current: 1.5A per contact
- Contact Resistance: 20 milliohm max.
- Dielectric Withstanding Voltage: 500V
- Insulation Resistance: 100 Megohm min.
- Differential Impedance:
  2.5Gbps: 100 ± 10 ohm @ 150psec risetime
  5.0Gbps: 100 ± 18 ohm @ 75psec risetime

Physical Specifications:

- Housing: Black glass-filled polymer, UL 94V-0
- Contact: Copper Alloy
- Plating: Selective Gold 0.76µm (30µ") min.
- Shield: Deep-drawn Steel

Applications:

- LVDS servers, displays, hubs, routers, RAIDS, switches, storage devices, and network products
- InfiniBand interfaces to support one, two or four channels
- TMDS digital displays supporting one, two, or four channel with side channels to support USB, serial ATA, digital audio, IEEE 1394-1995 or other multi-media applications
- Portable DVI devices
- HDTV and other entertainment displays
- Automotive displays

Features and Benefits:

Board Mount Receptacle (74960):

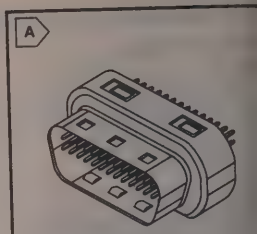
- Inline SMT leads on 0.64mm (.025") pitch provide direct PCB routing
- High cycle LFH shrouded contact system provides two points of contact for optimal signal integrity

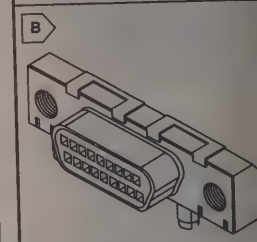
Cable Plug Connector (75000):

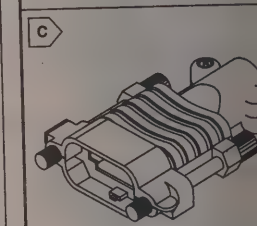
- LFH contact design provides shallow mating angle, reducing insertion forces
- Terminates to 24 to 32 AWG high-performance wire through soldering or resistance welding
- Available with or without terminal carrier strip for flexibility in various termination processes

Cable Plug Kit (75115):

- Kit contains two-piece die cast shell and two threaded jackscrews for use with TDP Cable Plug Connector
- Die-cast shell reduces overall labor costs by eliminating internal shielding and overmolding processes
- User-friendly strain relief eliminates secondary operations
- Ergonomic die-cast shell thumb grip and thumb rest for ease of mating and unmating







For quantities of 100 and up, call for quote.

SMALL FORM-FACTOR PLUGGABLE (SFP) PRODUCTS

The SFP system follows the function of the standard Gigabit Interface Converter (GBIC) products, with reduced size and increased data-transfer rates at and beyond two Gigabits per second (Gbps). A multi-sourced, industry-standard product line, our SFP products feature a common design interface for use with multiple data transfer protocols, including Fibre Channel, Gigabit Ethernet, InfiniBand and proprietary links. The system consists of a 20-position SMT connector mounted on the host PCB, enclosed by a low-profile metal cage, engineered to guide and secure a variety of industry-standard mating modules. The pluggable modules include hot-swappable duplex LC optical and HSSDC copper transceivers, along with copper patch cables. Other products in the family include the duplex LC optical cable assemblies and a wide selection of HSSDC2 cable assemblies.

Features and Benefits:

HSSDC2 Copper Pluggable Modules (74720)

- Industry standard HSSDC2 interface in pluggable module
- Provides data transmission rates up to 2.5Gbps
- Active and passive versions available
- User-friendly latch for easy installation and replacement

Copper Patch Cables (73929):

- Cable directly terminated to module for economical pluggable solution
- Provides data transmission rates up to 2.5Gbps
- Cable assemblies available in various lengths
- User-friendly latch for easy installation and replacement

HSSDC2 Copper Cable Assemblies (73939):

- Industry standard HSSDC2 plug interface
- Provides data transmission rates up to 2.5Gbps
- Cable assemblies available in various lengths
- User-friendly latch for easy installation and replacement

Cages (73927):

- All metal construction for EMI protection
- Two-point spring contacts for optimal EMI grounding
- Chamfered edges on cover facilitate assembly
- Design allows cages to be mounted on opposite sides of PCB for "belly-to-belly" applications

SMT Receptacle (74441):

- Alignment posts provide stability for placement on the PCB
- Standoffs allow easy PCB cleaning after soldering
- SMT design provides option for placement on both sides of PCB

Applications:

- Network Switches
- Routers
- Servers
- Storage Devices
- Network Interface Cards (NICs)
- Host Bus Adapter Cards(HBAs)

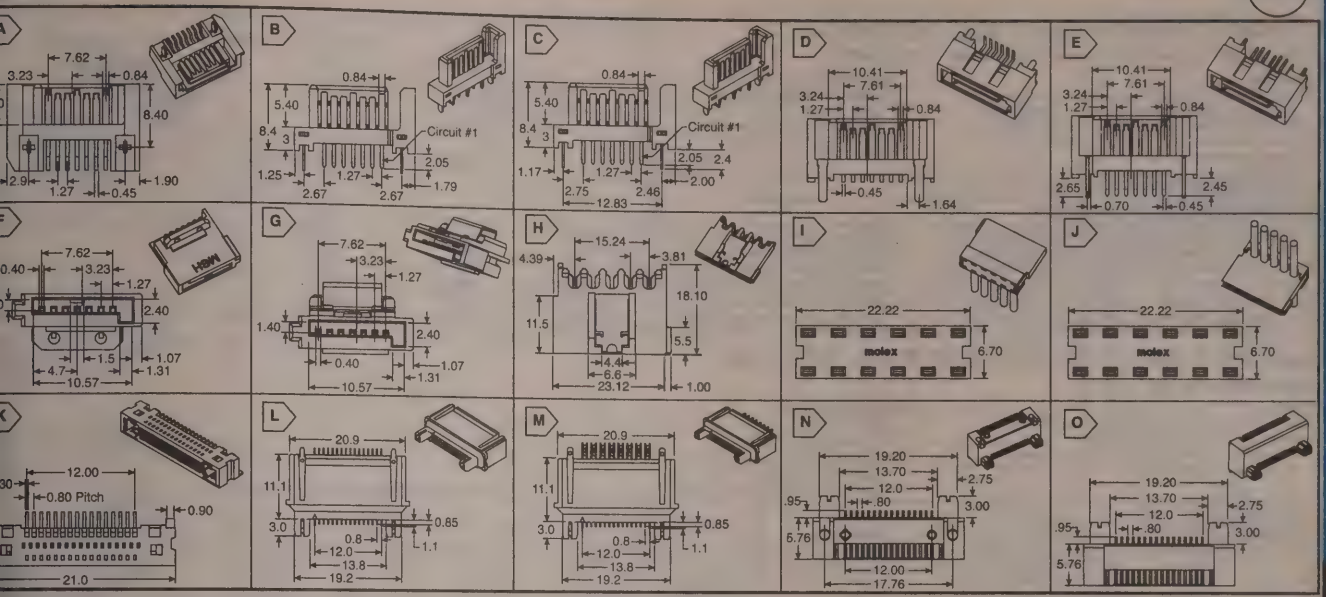
MOLEX Serial ATA and HandyLink™ Connectors

MENSIONS In.



ERIAL ATA CONNECTORS

ng with the digital revolution, the ability to create, store and distribute vast amounts of music data and games is continually driving demand for higher speed, higher capacity storage drives with increasingly smaller form factors. This has aned up new storage applications for Serial ATA as hard disk drives are increasingly being designed into a growing number of HDD-DVD recorders, home servers, multimedia hubs, LCD TVs, digital jukeboxes, HDD-enabled game soles, audio players and automobile audio visual products.

king latches for signal cables have recently been approved by the Serial ATA Working Group. Positive locking latches ensure cables will stay connected. Latching cable receptacles come in both straight and right angle versions. This ures an easy transition when converting existing designs from Parallel ATA to Serial ATA.

atures:
irst-mate/last-break contacts support hot plugging • Lead-free product

Specifications:
• Current: 1.5A max. • Voltage: 15V max. • Withstanding Voltage: 500V AC

ANDYLINK™ CONNECTORS

olex's new 0.80mm (.031") pitch HandyLink™ product family of connectors, cable assemblies and accessories offers a perfect solution to any hand-held device, design or application. e HandyLink family includes a right-angle SMT receptacle, a wire and PCB version of the plug and a perpendicular and parallel mounted cradle connectors for docking applications.

eatures:

ceptacle (44828 Series)
- High-temperature thermoplastic housing withstands Lead-free processing
- SMT leads allow population to both sides of PCB
- Low profile height and compact width minimizes size of customer's product
- Insert-molded "sealed" design support various ingress protection requirements
- Overmolded voiding capability provides design flexibility
- 20,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

rge (45593 and 45339 Series)
- PCB version optimal when used as a mask for overmolding of boot and strain relief
- Wire-version plug incorporates a shelf feature on the solder tails which assists operator in placement and hand soldering of wires
- Integrated latch design inside alignment posts provides protection to latch and prevents wire entanglement during shipment or processing
- First-mate, last break (pins #1 and #16) prevents damage to electrical circuitry when "hot plug" mating
- 2 AWG maximum provides mechanical and electrical cable flexibility
- 0,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

Cradle (45560 Series)
- SMT leads and high-temperature thermoplastic housing withstands Lead-free processing
- Latches are integrated into mating alignment posts which provide protection to latch during handling and processing
- Screw mount hold down to PCB provides additional mechanical stability to PCB
- 20,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

Specifications:
- Voltage: 30 Volts AC/DC max.
- Current: 1.5A continuous (up to 3.0A dependent on circuit configuration)
- Contact Resistance: 50 milliohms
- Dielectric Withstanding Voltage: <5mA
- Insulation Resistance: 100 MΩ min.
- USB 2.0 Compatible

3M™ SDR and SATA Cable Assemblies and Connectors

SHRUNK D RIBBON (SDR) CABLE ASSEMBLIES

.80mm High Speed Digital Data Transmission, 26 position

Features:
- Supports new AIA Industrial Camera Link® Standard for new Mini C/L camera to new frame grabber applications
- 11 shielded, twisted twinax pairs with four drain wires
- Double overall shield with inner foil and outer braid
- Rugged ribbon contact type

Specifications:
- Connector Contact Plating: 30µ" Min Gold
- Color: Beige
- Material: Polyvinyl Chloride (PVC)
- Flammability: AWM VW-1
- Voltage Rating: 30 V
- Current Rating: 0.5 A
- Temperature Rating: 0°C to +70°C

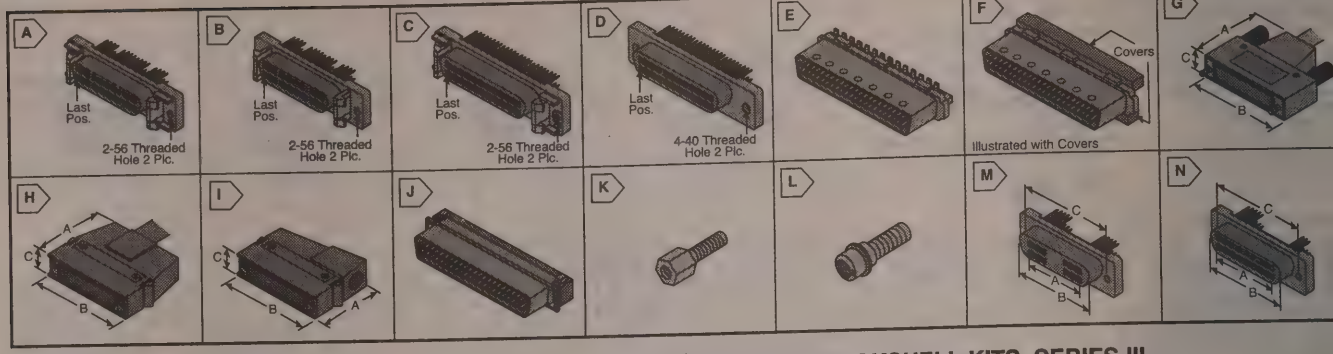
AMP AMPLIMITE .050 Connectors



Description:

- Compatible with SCSI-2, EIA RS-232, HIPPI and IPI-2 standards
- High-density D type interface
- Shields mate before contacts, with ground mating first and breaking last
- Recognized under the Component Program of Underwriters Laboratories, Inc. File No. E28476
- Certified by Canadian Standards Association, File No. LR 7189A-207
- Series I - will intermate with 50, 68 and 96 position connectors in Series II and Series III
- Series III - will intermate with all Series II positions and the 50, 68, and 96 position Series I

VERTICAL RECEPTACLE HEADERS, SERIES III

.125 (3.18) Solder Tail Length

Material and Finish:

- Housing: Thermoplastic, UL94V-0 rated, black, SMT compatible
- Shell: Steel, plated .000200 (0.00508) min. bright tin over .000050 (0.00127) min. copper
- Bracket: Zinc, plated nickel over copper
- Contacts: Phosphor bronze, duplex plated .000030 (0.00076) min. gold on mating end
- .000120 (0.00304) min. tin-lead on solder end all underplated .000050 (0.00127) min. nickel

For quantities of 500 and up, call for quote.

ALL-PLASTIC BOARD-TO-BOARD HEADERS, SERIES I

Receptacle Header Vertical Mount with Thru-holes for Board Mounting

Materials and Finish:

- Housing: Thermoplastic, UL94V-0 rated, black
- Contacts: Phosphor bronze, duplex plated .000008 (0.0002) min. or .000030 (0.00076) min. gold on contact area. .0254 (0.001) min. soldering tin-lead on area, with entire contact underplated .000050 (0.00127) min. nickel

Features:

- To mount connector to pc use M2 screws and nuts, ordered separately

For quantities of 500 and up, call fo

IXED MACHINED CONTACT PCB MOUNT

aterials:
Shells: Steel yellow chromate over zinc
Contact: Brass
Contact Plating: Gold
nsulator: Black Thermoplastic, UL94V0

Specifications:
- Temperature Range: -67°F to 185°F
- Current Rating: 7.5A
- Voltage Rating: 300V
- PCB Pins: .024" Dia. and .124" Length

Standards:
- UL File: E119881
- MIL C24308

For quantities of 250 and up, call for quote.

KL SERIES STRAIGHT 0.109" DENSITY METAL SHELL

ures:
B mount
al Shell provides grounding and shielding capability
es with industry compatible connectors
Recognized: File E130965 (UL1863)
A Approved: File LR97981
nomy Version
th grounding indents.

Specifications:
- Socket contact material: Phosphor bronze (stamped)
- Plug contact material: Brass (stamped)
- Insulator Material: Glass-filled polyester (black)
- Contact plating: Gold flash over Nickel plating in mating area and tin/lead on tails
- Operating temperature: -55°C to +125°C
- Withstanding voltage: minimum AC 1000V RMS @ sea level

For quantities of 200 and up, call for quote.

DEEP STRAIGHT CLAMP JUNCTION SHELL

Materials:

- Shell Material: Zinc plated low carbon steel with yellow chromate finish
- Clamp & Screw: Zinc-plated steel with yellow chromate finish
- Stop Nut: Zinc-plated brass with yellow chromate finish

For quantities of 100 and up, call for quote.

COMMERCIAL SCREW LOCK ASSEMBLIES

Two screwlocks are required per connector. Female screwlocks consist of one #4-40 screw, two flat washers, one lockwasher, and one #4-40 nut. Male screwlocks consists of one #4-40 slotted screw and a spring tension clip.

* Indicates Use With Junction Shells (P = Plug; S= Socket)

For quantities of 100 and up, call for quote.

SLIDE LOCK ASSEMBLIES

Consists of the lock retainer plate, two screws, 2 washers, and two nuts. Two lock posts, part # D-53018, are required to fit into the mounting holes of the mating connectors, must be ordered separately. Compatible with all Cinch metal shell D-sub connectors Compatible with all Cinch Backshells, Hoods, and Junction Shells except D*H Series, SDH Series, and Phenolic hood.

For quantities of 100 and up, call for quote.

STRAIGHT BACKSHELLS - TWO-PIECE D*H SERIES

Fits Standard and High Density D-Subminiature Connectors. Backshell includes hardware: 4-40 screws, hex nuts 4-40 mounting bracket and grommets to accommodate most cable sizes and function as strain reliefs. Backshells are individually bagged. Slide locks may not be used with these backshells. Optional thumbscrew for backshells must be ordered separately if required.

Two-Piece Plastic and Metalized Backshells

For quantities of 100 and up, call for quote.

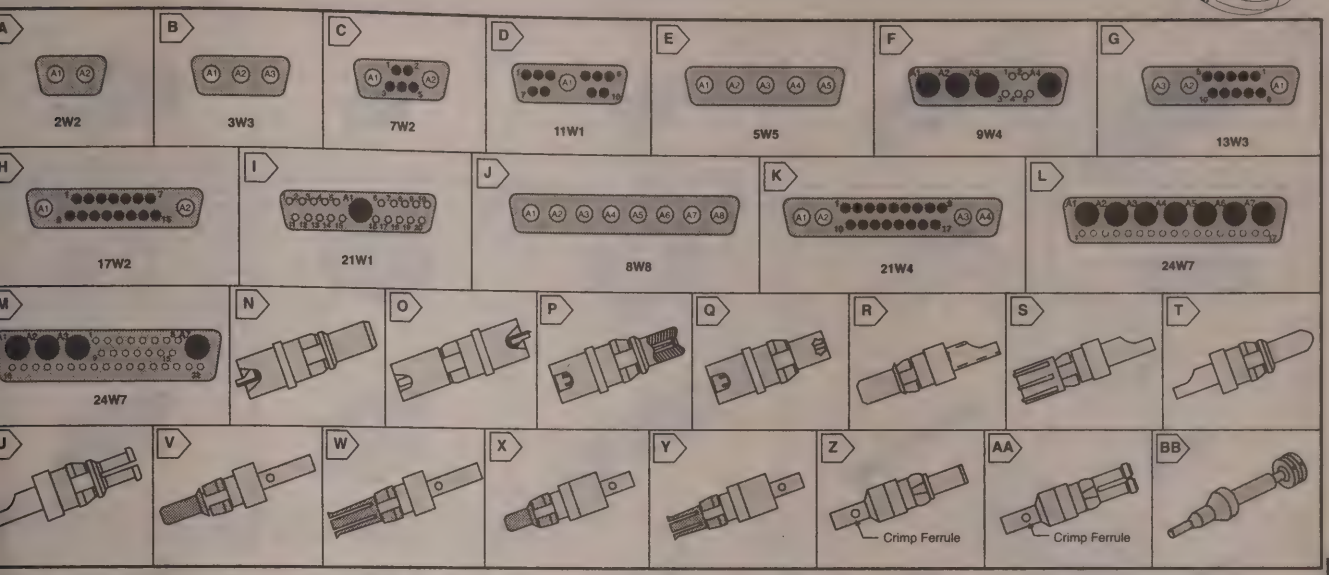
MOUSER ELECTRONICS a tti company (800) 346-6873

FCT ELECTRONICS Mixed D-Subminiature Connectors



-SUB MIXED CONTACT CONNECTOR HOUSINGS

ese D-subminiature connectors have added versatility and nvenience of mixed contact arrangements. This allows coaxial and/or wer contacts to be combined with standard signal contacts in a single using. These connectors have non-removable, size 20 signal ntacts. They are available in nine contact configurations,male and nale, and four shell sizes. To order, select the shell size and contact angement that best suits your application from the layouts. Order the ional 50 ohm or 75 ohm coaxial contacts for your high speed data or high voltage or high power contacts for your power requirements. mbinations can be created using all three contacts resulting in a stom designed connector unique to your application.

Contact Arrangements

atures:
- Standard D-sub shell
- Housings plug with grounding indents
- Non-removable size 20 signal contacts
- Choice of standard signal contacts and/or power contacts

Specifications:
- Flammability rating: UL 94V-0
- Temperature rating: -55°C to +155°C
- Contact/contact resistance: 500 megohm
- Plating: tin

For quantities of 1000 and up, call for quote.

HARTING High Density D-Sub Connectors

HIGH DENSITY D-SUB CONNECTORS

Specifications:

- Plug and Receptacle versions 15, 26, 44, 62, 78 pos
- PCB Terminations (straight and right angle)
- Crimp Terminations
- Working Current: 2A max
- 4 - 40 UNC hardware
- Temperature Range: - 55°C to +105°C
- Performance level 3 >/= 50 mating cycles according to DIN41652

Features:

- Metal Shell - tinned steel
- Right Angle versions include board lock
- Straight versions w/without board lock
- Crimp Contacts AWG 26-24
- UL recognized
- Increased density up to 70% vs standard D Sub

Crimp - Through Hole

- Housing only, order pin or socket contacts separately.

For quantities of 500 and up, call for quote.

HARTING Filtered D-Sub Connectors

FILTERED D-SUB CONNECTORS

Specifications:

Plug and Receptacle versions 9, 15, 25, 37 pos
PCB Terminations (straight and right angle)
Solder bucket Terminations
Working Current: 7.5A max
4 - 40 UNC hardware
Temperature Range: - 55°C to +125°C
Max Temperature: +230°C (for 60 seconds) during reflow soldering
Meets & complies with FCC-part 15, IEC 1000 and EN 5502 Specifications
Selective gold plating over nickel = 200 mating cycles

Features:

- Unique multi-layer pcb design, utilizing surface mount capacitors within standard size D shell
- Directly interchangeable with existing D Sub connector - same standard footprint
- Type C Filter, 1,000 pF
- UL recognized

IDC FLAT CABLE CARD EDGE CONNECTORS

Features:
- Insulator: PBT glass reinforced, rated UL 94V-0
- Contacts: Brass tin plated
- Current Rating: 1A max per contact
- Color: Black
- Contact Resistance: 30milli ohm max.
- Operating Temperature: -40°C to +105°C

For quantities of 1000 and up, call for quote.

KYCON Ferrite Filtered D-Subminiature Connectors

KYCON KF22 SERIES - RIGHT ANGLE, .318" FOOTPRINT

LR78160 E140125

Specifications:

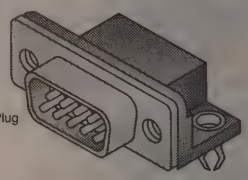
- PCB Mount - .318" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact Tin/Lead over Nickel on termination end
- Current Rating: 5A
- Voltage Rating: 300VDC
- Insulation Resistance: more than 1000 Megohms
- Operating Temperature: -55°C to +105°C

Features:

- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space that a standard D-Sub

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30 MHz.

Ferrite Specifications		
Test Frequency	Edge Hole	Inner Hole
30 MHz	17-27 Ohms	22-30 Ohms
50 MHz	22-30 Ohms	29-37 Ohms
100 MHz	29-34 Ohms	35-40 Ohms



Plug

For quantities of 500 and up, call for quote.

KYCON KF66 VESA SERIES - RIGHT ANGLE HIGH DENSITY, .350" FOOTPRINT

LR78160 E14

Specifications:

- PCB Mount - .350" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact Tin/Lead over Nickel on termination end
- Current Rating: 5A
- Voltage Rating: 300VDC
- Insulation Resistance: more than 1000 Megohms
- Operating Temperature: -55°C to +105°C

Features:

- Pin# 9 recessed 0.050" for last mate/first break on 5V supply voltage
- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space that a standard D-Sub

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30 MHz.

NORCOMP D-Subminiature Connectors

NORCOMP
A DIVISION OF EDAC (AMERICA) LIMITED

ERIES 170 CRIMP AND POKE D-SUB CONNECTORS

ecifications:
hell: Steel, nickel plated
sulator: Glass-filled thermoplastic. U.L. rated 94V-O

Features:
- RoHS Compliance per NorComp documentation (Low Temperature Material)
- Allows for easy loading of only the positions required using Crimp and Snap-in contacts (sold separately)
- Contact current rating: 5 amps

For quantities of 250 and up, call for quote.

NORCOMP D-Subminiature Connectors

NORCOM
A DIVISION OF EDAC (AMERICA) LIM

SERIES 171 STAMPED CONTACT D-SUB CONNECTORS - SOLDER CUP

Specifications:
- Nickel Shell
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contacts: Male - Brass Pins, Female - Phosphor Bronze Pins
- Plating: Gold flash on the entire contact

Features:
- Low cost economy series
- Non-removable contacts
- Male nickel shells have indents to provide grounding and additional retention
- High performance, stamped contacts

For quantities of 500 and up, call for quote.

SERIES 180 STAMPED CONTACT D-SUB CONNECTORS - SOLDER CUP HIGH DENSITY

Specifications:
- Shell: Nickel Plated Steel
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contacts: Male - Brass Pins, Female - Phosphor Bronze Pins
- Plating: Gold flash on the entire contact

Features:
- Interfaces with IBM PS/2
- Approximately 65% higher density than standard D-Subs
- Connectors will fit in standard D-sub backshells

For quantities of 500 and up, call for quote.

SERIES 172 MACHINED CONTACT D-SUB CONNECTORS

Solder Cup

Specifications:
Insulator: Glass-filled thermoplastic, UL94V-0.
Shell: Steel, plated with bright tin over nickel.
Machined Contacts: Brass male and female pins.
Plating: Gold flash over entire contact area.

Features:
- Non-removable contacts.
- Tin shells have indents to provide grounding and additional retention.
- Screw machine contacts offer high reliability.

For quantities of 500 and up, call for quote.

SERIES 172 MACHINED CONTACT D-SUB CONNECTORS

Dip Solder - PCB Mount

Specifications:
Insulator: Glass-filled thermoplastic, UL94V-0.
Shell: Steel, plated with bright tin over nickel.
Machined Contacts: Brass male and female pins.
Plating: Gold flash over entire contact area.

Features:
- Non-removable contacts.
- Tin shells have indents to provide grounding and additional retention.
- Screw machine contacts offer high reliability.

For quantities of 500 and up, call for quote.

-SUB BACKSHELLS

- Perimeter sealing lips for secure assembly.
- Die Cast Material: Lightweight zinc
- Die Cast Plating: Nickel over copper or black chromate
- Metalized Plastic Material: High temperature plastic UL94V-0
- Metalized Plastic Plating: Nickel over copper
- Plastic Material: High temperature plastic UL94V-2

70 and 971 Series Backshells

Kit includes: (2) Backshell Halves, (2) 4-40 Thumbscrews, (2) Housing Screws, 2 pc. Grommet - Various sizes
Fully tapped assembly holes allow easy assembly.

For quantities of 500 and up, call for quote.

D-SUB BACKSHELLS

Straight/Top Entry Backshells - 978 Series

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (2) Housing Screws, (2) 4-40 Housing Nuts, (1) Strain Relief Threaded Rod
- Metalized plastic provides up to 60 dB shielding.
- Metalized Plastic Material: High temperature - UL94H-B
- Plastic: High temperature plastic - UL94H-B
- Strain Relief design ensures secure fit no matter what cable diameter is used.
- Metalized Plastic Plating: Chrome
- Perimeter sealing lips for secure assembly.

For quantities of 500 and up, call for quote.

SUBCON D-SUB CONNECTORS

Phoenix Contact's SUBCON products provides a means to make D-SUB assemblies without the hassle of soldering or crimping. The SUBCON product provides connection from the ins of a D-SUB connector to individual screw actuated terminal blocks all in a D-SUB clamshell housing. This means that the only tool required to configure a cable is a screwdriver.

Features:

EMI/RFI Shielded, secure connection of cable assembly to mating receptacle.
Cable feed-in is designed for one cable.

For quantities of 50 and up, call for quote.

SUBCON-PLUS D-SUB CONNECTORS

Features:

SUBCON-PLUS is for applications where 2 cable feed-ins are required.
SUBCON-PLUS-PROFIB is designed for use in Profibus systems up to 12 Mbit/s.

- Number of Contacts: 9
- PROFIBUS-Terminating resistor is already integrated in all versions.

For quantities of 50 and up, call for quote.

VARIOSUB D-SUB CONNECTORS

VARIOSUB-D-SUB is the IP67 protected plug connector range with commercially available D-SUB contact inserts.

Features:

Male and female insert format enable 9,15, or 25 data lines and cable shields to be connected.
VARIOSUB housings offer space and time-saving Push-Pull locking which snaps with noticeable click.

For quantities of 50 and up, call for quote.

SERIES E (ESD / EFT) TRANSIENT PROTECTED D-SUB CONNECTORS

Fully integrated connectors and adapters provide protection from Electro Static Discharge (ESD) and Electronically Fast Transients (EFT) that can damage or even destroy your equipment.

Features:
- Meet various IEC 61000-4 standards
- Have integrated ESD transient voltage suppressors from Littelfuse®
- Drop In replacements for unprotected connectors
- ESD/EFT protection at the I/O ports
- Low ground impedance
- Removal of ground traces from the board
- Efficient space utilization
- All lines, including ground lines, have bi-directional protection.

Specifications:
- Front Shell: Steel, tin plated
- Housing: UL94V-0 rated thermoplastic, black
- Eyelets: Brass, tin plated
- Pin Contacts: Brass
- Socket Contacts: Phosphor Bronze
- Contact Plating: Duplex plated as follows: 15μ" gold on mating end with entire contact 50μ" min. nickel underplated

SERIES 100 CHIP-CAP FILTERED D-SUB CONNECTORS

Features:
- High performance EMI/RFI protection
- Drop In replacements for unprotected connectors
- Chip capacitors on a PC board

Specifications:
- Front Shell: Steel, tin plated
- Housing: UL94V-0 rated thermoplastic, black
- Eyelets: Brass, tin plated
- Pin Contacts: Brass
- Socket Contacts: Phosphor Bronze
- Current Rating: 5 Amps
- Contact Resistance: 8 Milliohms max.
- Insulator Resistance: 500 Megohms min.
- Working Voltage: 200 VDC

For quantities of 100 and up, call for quote.

SPECTRUM CONTROL Ferrite Filtered D-Sub Connectors

SPECTRUM CONTROL INC

SERIES 400 FERRITE FILTERED CONNECTORS

The Series 400 ferrite filtered connector is designed as a low cost EMI solution for high frequency interference. The space saving connectors incorporate a solid slab of ferrite material as the filtering element.

Features:

- Prevents common-mode noise in signal lines of data communication terminals and digital devices
- Drop in replacements for standard .318" d-sub connectors
- Replaces individual ferrite beads, saving cost and space
- Effective in helping meet requirements of FCC, VDE, EN55022 and Japan's VCCI

Specifications:

- Operating Temperature: –40°C to +105°C
- Frequency Range: 10 – 300 MHz
- Current Rating: 5 Amps
- Dielectric Withstand Voltage: 1000 VAC for one min
- Shell: Steel (Tin Plated)
- Plug Contacts: Brass
- Recept. Contacts: Phosphor Bronze
- Contact Plated: Gold Flash

For quantities of 100 and up, call for quote.

SERIES 700 HIGH PERFORMANCE FILTERED CONNECTORS

Spectrum Control Series 700 Connectors offer the highest performance filtering for all types of professional applications.

Features:

- One piece diecast housing design
- Tubular capacitor filtering provides effective performance through 10 GHz
- UL Recognized: File #E149046

Specifications:

- Shell: Zinc diecast, nickel plated
- Contacts: Copper alloy
- Plug Contacts: 15µ" Gold plated over nickel
- Receptacle Contacts: 30µ" Gold plated over nickel
- Temperature: -55°C to +125°C
- Current Rating: 5 Amps
- Contact Resistance: 10 milliohms maximum

For quantities of 100 and up, call for quote.

WAVED METAL GASKETS

Waved metal gaskets adjust for mounting surface irregularities, resulting in optimum filtering performance.

Specifications:

- Material: Beryllium Copper
- Finish: Electro Tin Plate
- Material Thickness: .005" Compresses
- Wave Length: .030"

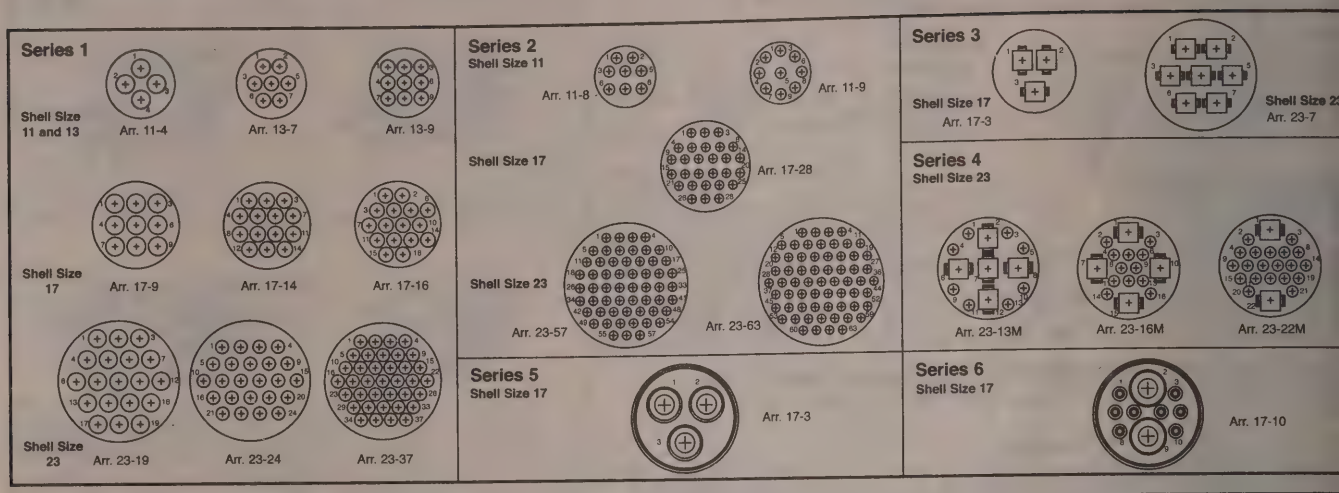
AMP CPC Connectors
(SERIES 1-SIZE 16 CONTACTS)

CPC CONTACT ARRANGEMENTS



"SERIES 1" (SIZE 16 CONTACTS)

Standard density, signal and low-current applications using Multimate contacts.

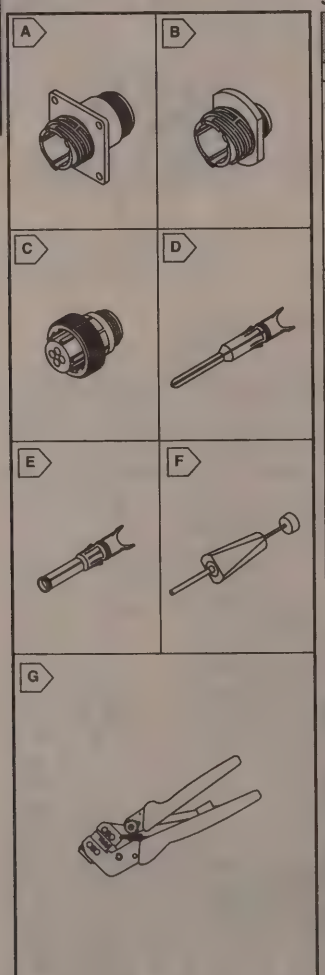
Features:
- Housing Material: Black thermoplastic
- Flammability rating: UL94V-0
- .062" pin diameter

Connectors
- Molded-in keying: standard configuration: 5 keys.
- Sealed connectors are with pre-installed, bonded peripheral seal, two piece.

*** STD. Gender= Pin contacts in receptacle housings, socket contacts in plug housings**
*** REV. Gender= Socket contacts in receptacle housings, pin contacts in plug housings**
Pins and sockets must be ordered separately.

E28476 LR71

Contacts
Plating:
(a) Bright tin-lead.
(b) Gold flash over nickel with additional gold on mating end.
(c) Nickel with gold on mating end.
(d) Gold gradient over nickel with additional gold on mating end.



Standard Sex Connectors

"SERIES 2" (SIZE 20 CONTACTS) - HIGH DENSITY

High density applications using size 20 DM (screw machined) and 20 DF (precision formed) contacts.

Features:
- Housing Material: Black thermoplastic
- Flammability rating: UL94V-0

* STD. Gender= Pin contacts in receptacle housings, socket contacts in plug housings
* REV. Gender= Socket contacts in receptacle housings, pin contacts in plug housings
Pins and sockets must be ordered separately.

For quantities of 100 and up, call for quote.

ICRO CPC

eal for medical, instrumentation and industrial applications where size, contact density and durability are primary concerns. The nylon housings offer good sistance to a wide range of chemical agents while the IP65 sealing helps prevent ingress of dirt or fluids that would have an adverse effect on the contact interface.

atures:

- Squeeze-to-release coupling mechanism offers positive latch or optional breakaway locking feature
- Panel mount receptacle offers jam nut mounting
- Keyed and polarized
- Sealed to IP65
- No assembly required
- No application tooling required
- Ink marked positive alignment indicators

Electrical:

- Carrying capacity: 2-3 Amps
- Operating voltage: 250 VAC min.
- Operating temp.: -67°F to +221°F
- Dielectric withstanding volt.:1500 VAC min
- Wire size: 24-30 AWG
- Housing: single piece design, nylon

Available in wire-to-wire, wire-to-board, and wire-to-panel configurations

For quantities of 500 and up, call for quote.

MINIATURE CPC

eal for medical, instrumentation and industrial applications where size, contact density and durability are primary concerns. The nylon housings offer good sistance to a wide range of chemical agents while the IP67 sealing helps prevent ingress of dirt or fluids that would have an adverse effect on the contact interface.

atures:

- Sealed to IP67
- Pre-positioned 1/4 turn coupling ring with positive lock and alignment features
- Unique contact pattern for each position size helps prevent accidental mating with other position sizes
- Front or rear jam nut mounting
- Field repairable contacts

Available in wire-to-wire, wire-to-board and wire-to-panel configurations

Electrical:

- Operating temperature: -67°F to 221°F
- Dielectric withstanding voltage: 2200 VAC minimum
- Wire termination: Crimp
- Housing: single piece design, plastic

For quantities of 500 and up, call for quote.

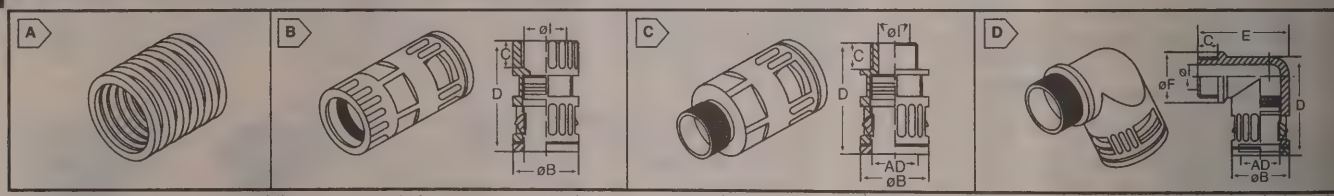
FLEXA CORRUGATED TUBING AND CONNECTORS



PA6 Flexa Tubing

Temperature range: From approximately -40°C up to approx +115°C; temporarily withstands temperatures up to approximately +150°C

Features:

- Air and liquid tight
- Oil resistant up to +80°C
- Highly resistant to acids and solvents
- Ozone and Benzine resistant
- Free of silicone, cadmium, and halogen
- Self-extinguishing and flame retarding

97 SERIES SOLDER TYPE (MIL-C-5015 STYLE)

The Amphenol 97 series connectors are a general duty standard cylindrical connector, MIL-C-5015 style. The 97 series is a widely used connector for the automotive, robotics, machine tool and welding industries, as well as numerous other commercial applications. Shell components are fabricated from high grade aluminum alloy. A complete connector assembly consists of a shell with an installed insert.

Features:
- Medium to heavy weight cylindrical
- Durable, field-proven design
- Single key/keyway polarization
- Threaded coupling, hard dielectric inserts
- Operating temperatures from -55°C to +125°C
- Intermateable and intermountable with existing 97 series and MIL-C-5015 connectors
- All connectors shipped assembled and individually packaged

Materials:
- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment.
- Inserts: Hard Blue Diallyl-phthalate
- Contacts: Silver plated with pre-tinned solder cups

Recognition File #E115497

Certification File # LR 69183

Receptacle Mounting Holes:
.173" (4.394) Diameter for shell sizes 32 and 36
.147" (3.734) Diameter for shell sizes 24 and 28
.120" (3.048) Diameter for all other shell sizes

Panel Opening

Quick selection guide for the standard Amphenol 97 series.

1. **How many wires are you going to connect and what gauge?**
   Use the insert arrangement table on the following page for selecting insert configuration .
2. **What kind of receptacle shell do you need?**
   Wall Mounting: 3100 Shell Series, Box Mounting: 3102 Shell Series, Cable Mounting: 3101 Shell Series
3. **What kind of plug shell do you need?**
   Straight Cable : 3106 Shell Series, Right Angle Cable : 3108 Shell Series
4. **Do you need a plug with a solid or split back shell?**
   The solid shell (A Type) has greater strength and saves space. The split shell (B Type) allows for quick inspection of solder terminals.
5. **Which connector shell gets the socket insert? The receptacle or the plug shell?**
   Either pin or socket inserts can be used with plug or receptacles shell. The rule of thumb is use the socket insert for the connector on the "hot" side of the circuit.
6. **Which accessories are needed?**
   Cable clamps and protection caps are available and are shown at the end of this product section.

How to build a standard Amphenol 97 series part number:

97 - 3101 A - 28 - 21 P

- **97-** Like MS but Amphenol®
- **Shell Type**: 3100 Wall receptacle; 3101 Cable receptacle; 3102 Box receptacle; 3106 Straight plug; 3108 Angle plug
- **Shell Construction**: A- Solid Backshell; B- Split Backshell
- **Shell Size**: 10SL, 12S, 14S, 14, 16S, 16, 18, 20, 22, 24, 28, 32
- **Insert Arrangement**: Numerical designation for insert configurations. (See insert chart section for availability)
- **Contact Type**: P=Pin; S=Socket

97 SERIES SOLDER TYPE (MIL-C-5015 STYLE) (CONT.)

How to build a standard Amphenol 97 series part number:

Combine the shell part number with insert arrangement number to complete the Amphenol part number. For Example: From the table below combine a wall mount shell number (**97-3100A-**) with an insert number (**18-16P**) to create a complete Amphenol part number (**97-3100A-18-16P**). The standard Amphenol 97 series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The blue diallyl-phthalate inserts have pre-installed silver plated contacts with solder cups. **All connectors are shipped fully assembled, labeled and individually packaged.** For complete connector specifications and descriptions see the 2 previous pages.

To make a mating receptacle - plug connection:

From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **97-3100A-18-16P** wall mount receptacle will mate with any of the plugs with the **18-16S** insert. **Receptacles only mate with plugs on the same line.**

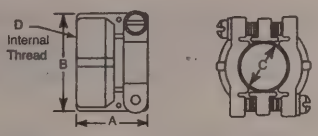
ACCESSORIES FOR AMPHENOL 97 SERIES CONNECTORS

Cable Clamp MS 3057A Type and Bushing

For quantities of 250 and up, call for q

Cable Clamp MS3057A Type

For jacketed cable or wires protected by tubing. Both clamping halves float for maximum strain relief. For unjacketed cable or wires, use corresponding MS3420 bushing. Clamp and bushing can be ordered together.



Bushing MS3420

Rubber bushing specifically designed for MS3057A type cable clamp. Can also be used as a reducing bushing. Order separately or with cable clamp.

9767 Cable Clamp

MIL-C-5015 TYPE CIRCULAR CONNECTORS, SOLDER CONTACTS

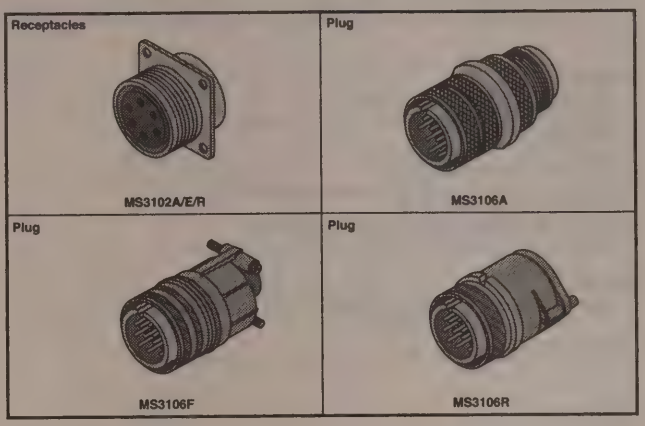
Features:
- Threaded couplings with single key/keyway polarization
- Durable, field-proven design
- Black resilient neoprene insert material
- All connectors shipped assembled and individually packaged

Materials:
- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy with a silver plated finish
- Inserts: Black resilient neoprene

Connector Class:
- A-Type: Solid shell for general, non-environmental applications.
- E-Type: Environmental resisting, designed for applications where the connector will be exposed to moisture, vibration, and rapid changes in pressure and temperature.
- F-Type: Environmental resisting with strain relief, designed for applications where the connector will be exposed to moisture, vibration, and rapid changes in pressure and temperature.
- R-Type: Lightweight environmental resisting, shorter in length and lighter in weight than the E and F types.

Insert Arrangements:
See the insert arrangement table in the 97 series catalog section.

Mating Information:
Receptacles mate with plugs on the same line.



Box Mount Receptacles — Mating Plugs

For quantities of 100 and up, call for quote.

PT SERIES SOLDER TYPE (MIL-C-26482, SERIES 1)

Amphenol Miniature Cylindrical connectors offer twice the number of contacts in just half the size of a standard connector. The PT series offers quick positive three point bayonet lock coupling. A complete connector assembly consists o a shell with an installed insert. **All connectors shipped fully assembled, labeled and individually packaged.**

Features:
- Medium size, widely used cylindrical connector
- Corrosion resistant cadmium plate with an olive drab chromate finish
- Five key/keyway polarization
- Quick positive three point bayonet lock coupling
- Visual confirmation of complete coupling
- Spring tension provided by a wave washer ensures maintenance of interfacial seal between mating halves
- Resilient neoprene insert and main joint gasket provides excellent moisture sealing and superior electrical contact isolation

Materials:
- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment.
- Inserts: Black resilient neoprene
- Contacts: Gold plated copper alloy. Socket contacts are a closed entry design.

Recognition
File #E115497

Quick selection guide for the standard Amphenol PT series.

1. **How many wires are you going to connect and what guage?**
   Use the insert arrangement table on the following page for selecting insert configuration.
2. **What kind of receptacle shell do you need? The plug only mates with receptacles.**
   Box Mount: PT02, Jam Nut: PT07, Wall Mount: PT00
3. **Which connector shell gets the socket insert? The receptacle or the plug shell?**
   Either pin or socket inserts can be used with plug or receptacle shells. The rule of thumb is use the socket insert for the connector on the "hot" side of circuit.

PT Service Classes:

A General Duty; back shell is threaded for conduit attachment of MS3057 cable clamp†
A (SR) General Duty; with strain relief clamp for cable or wire bundle support
E Environmental resistant connectors - supplied with a multi-holed grommet and clamping nut for moisture-proofing individual open wires
E (SR) Environmental resistant strain relief clamp and grommet for moisture proofing individual wires; provides added wire bundle support

† PT02 Shells do not have a threaded back shell

PT SERIES SOLDER TYPE (MIL-C-26482, SERIES 1) (CONT.)

How to build a standard Amphenol PT series part number:
Combine the shell part number with insert arrangement number to complete the Amphenol part number. **Receptacle Example:** From the table below combine a box mount shell number **(PT02A-)** with an insert number **(8-2P)** to create a complete Amphenol part number **(PT02A-8-2P)**. Plug Example: From the table below combine a plug shell number **(PT06A-SR)** with an insert number **(8-2S)** to create a complete Amphenol part number **(PT06A-8-2S-SR)**. The standard Amphenol PT series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The black resilient neoprene inserts have pre-installed gold plated contacts with solder cups. **All connectors are shipped fully assembled, labeled and individually packaged.** For complete connector specifications and descriptions see the previous pages.

To make a mating receptacle - plug connection:
From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **PT02A-8-2P** box mount receptacle will mate with any of the plugs with the **8-2S** insert.
Receptacles only mate with plugs on the same line.

PT SERIES CRIMP TYPE (MIL-C-26482, SERIES 1)

Amphenol SE crimp type miniature connectors provide performance and versatility needed for applications demanding high reliability and crimp removable contacts. These crimp contacts are rear insertable/front release and are held in position by an MS approved spring tower retention system. Crimp contacts are supplied with connectors. Product specifications are comparable and are intermateable and intermountable to the PT solder series **(See above text for ordering information).**

MOUSER ELECTRONICS a tti company (800) 346-6873

S TYPE ENVIRONMENTAL MINIATURE BAYONET CONNECTORS (MIL-C-26482, SERIES 1)

atures:
- Bayonet couplings with 5 key/keyway polarization
- Visual confirmation of complete mating
- Durable, field-proven design
- Solder Contacts
- All connectors shipped assembled and individually packaged

Specifications:
- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy
- Inserts: Black resilient neoprene with white printing

Mating Information:
- Receptacles mate with plugs on the same line.

AMPHE-LITE® COMMERCIAL 38999, SERIES III TYPE COMPOSITE CONNECTORS

COMMERCIAL 38999, SERIES III TYPE COMPOSITE CONNECTORS
The Amphe-Lite Connector Series is designed for communications equipment manufacturers with signal, power, RF or fiber optic interconnect requirements in harsh environments such as communication towers, outdoor and roof-top applications. This commercial 38999, Series III type composite connector series is ideal for communications equipment, manufacturing process control, and medical equipment. The Amphe-Lite offers the highest performance capabilities for severe environment applications, and yet is cost effective enough for general duty, and non-environmental applications.

Features:

- Nickel finish connectors provide EMI shielding capability which exceeds MIL-DLT-38999 Series III requirement
- Lightweight composite shells resist severe corrosion
- Completely mates in one 360° turn of the coupling nut
- Recessed pins minimize potential contact damage in this scoop-proof connector
- All connectors shipped assembled and loose crimp contacts

Specifications:

- 22D contact size rated at 5A
- Operating temperatures from -55°C to 125°C
- Gold plated crimp contacts (50u")
- Suggested operating voltage for 22D contacts is 400 VAC (RMS) and 550VDC

Receptacle Shells

For quantities of 100 and up, call for quote.

AMPHENOL RADSOK® Power Bus Connectors

Amphenol
Industrial

e difference is in the RADSOK® (Radial Socket) design. The socket cylinder within the female contact has several equally spaced longitudinal beams twisted
a shape. As the male pin is inserted, axial members in the female half deflect, imparting high current flow across the connection with minimal voltage loss.
s twisted hyperbolic grid ensures the greatest possible contact area on the mating pin. This technology is ideal for crimp termination applications requiring
eated mating cycles and high current with low milli-volt drop and features higher ampacity, lower insertion force, high cycle durability, and high reliability.

phenol now offers RADSOK® technology in their MIL-C-5015 cylindrical connectors for high current applications. Because they now feature the flat stamped,
erbolic twisted contact grid in the socket, a 50% increase in current rating is achieved.

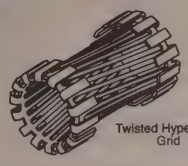
AMPHENOL RADSOK® Power Bus Connectors

The difference is in the RADSOK® (Radial Socket) design. The socket cylinder within the female contact has several equally spaced longitudinal beams twisted into a shape. As the male pin is inserted, axial members in the female half deflect, imparting high current flow across the connection with minimal voltage loss. This twisted hyperbolic grid ensures the greatest possible contact area on the mating pin. This technology features higher ampacity, lower insertion force, high cycle durability, and high reliability.

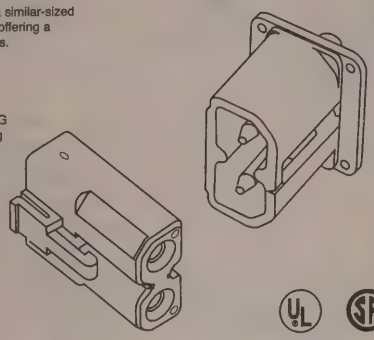


Twisted Hyperbolic Grid

RADSOK® Contact

AMPHE-PD™ WITH RADSOK® TECHNOLOGY

The Amphe-PD™ connector generates more processing power with less heat than a similar-sized connector. The series produces greater amperage without wasting valuable space, offering a compact solution for datacom applications that require small, yet powerful connectors.



Features:

- 2 Position DC Power interconnect in about 1 square inch
- UL94V-0 molded thermoplastic
- Integrated latching mechanism
- Easy tool-less assembly
- Proven metal clip contact retention on receptacles
- TUV finger proof
- Tactile and audible locking
- Plug is designed to accept Superflex 6 AWG
- TPA device on plug to insure socket locking
- RoHS Compliant

Specifications:

- Current rating: 69 Amps UL rated, 55 Amps CSA rated
- 6 AWG

Applications:

- Battery Connection
- Busbar Connection
- Power Supply Connection
- Telecom
- Data Storage
- Controls

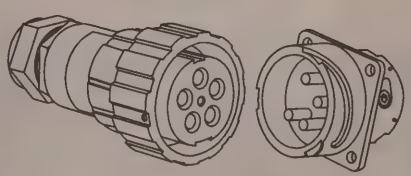
AMPHE®-GTR WITH RADSOK® TECHNOLOGY

Amphe®-GTR Connectors use RADSOK® technology inside a composite reverse bayonet housing that is already proven in the power server industry. This combination of utilizing the existing connector footprint and the increase in power offered by using the RADSOK® sockets makes the Amphe®-GTR second to none.



Features:

- Quick positive coupling
- Audible, tactile and visual indication of coupling
- High shock and vibration capabilities
- Pressure wire termination
- FMLB ground contact
- High performance composite shell and hardware
- UL / CUL 2238 Listed
- Field repairable

Specifications:

- Contact Plating: Silver
- Contact: #4
- IP67 rating
- Termination Type: Compression set screw
- Dielectric Withstanding Voltage: 2000VAC (RMS)
- Insulation Resistance: 1000MΩ
- Flammability: UL94V-0
- Mating Cycles: 25 min

Applications:

- High power process control
- Server applications

ERIES C091A CIRCULAR DIN CONNECTORS

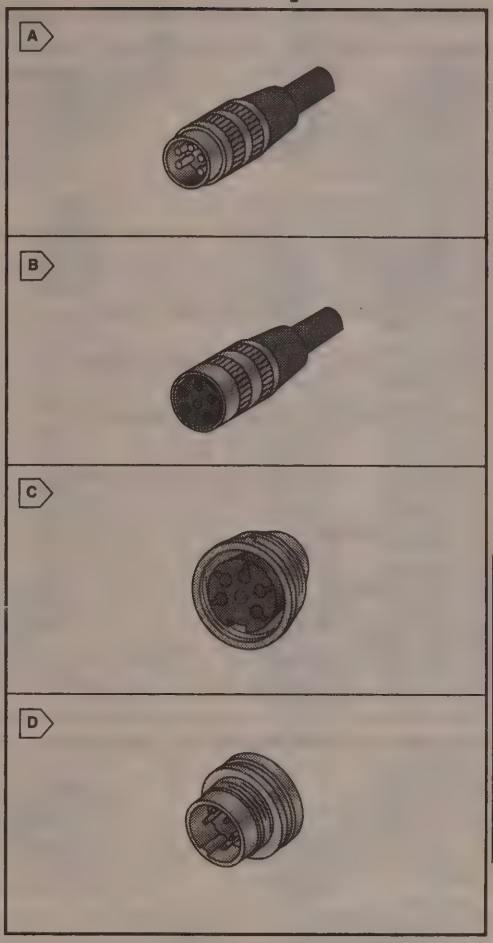
cular connectors with metal screw coupling and plastic back shell that provides EMI shielding.

atures:

- Metal threaded coupling acc. to IEC 130-9
- nternal metal strain relief with half shell construction and snap-in latching
- JL Approval File # E63093
- Complete EMI Shielding in fully mated and locked position
- Solder Termination
- Cable Connector Length: 2.658 In.
- Cable Connector Diameter: .670 In.

Specifications:

- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- IP-Degree: IP 40 (IEC 60529)
- Contact Plating: Silver
- Mating Cycles: 500
- Flammability: UL94 V0
- Dielectric material: Thermoplastic



For quantities of 100 and up, call for quote.

ERIES C091D IP67 RATED CIRCULAR DIN CONNECTORS

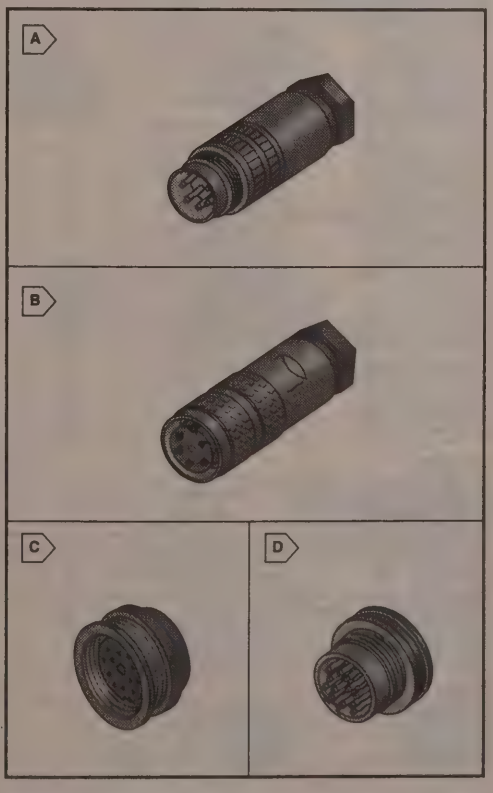
ular connectors with metal screw coupling and back shell designed for harsh environmental conditions

tures:

- tal threaded coupling acc. to IEC 130-9
- ecision metal construction
- ernal metal strain relief
- Approval File # E63093
- mplete EMI Shielding in fully mated and locked position
- lder Termination
- ble Connector Length: 2.244 In.
- ble Connector Diameter: .709 In.

Specifications:

- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- IP-Degree: IP 67 (IEC 60529)
- Contact Plating: Silver
- Mating Cycles: 500
- Flammability: UL94 V0
- Dielectric material: Thermoplastic



For quantities of 100 and up, call for quote.

SERIES C16-1 IP67 RATED CIRCULAR CONNECTORS

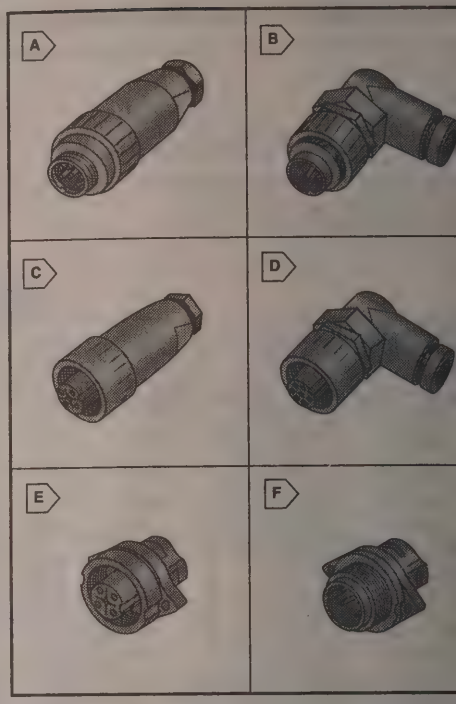
High grade plastic circular connectors designed for harsh environmental conditions

Features:

- Screw lock mating
- Plastic housings are pollution and chemical resistant
- Internal strain relief provides a safe cable restrain
- Housings are made from high grade plastic material
- Protected against unlocking by threaded coupling
- UL Approval File # E63093
- Solder termination
- 4 Contact version has screw termination
- 7 Contact version has solder termination

Specifications:

- Temperature Range: -40° F to + 212°F (IEC 60068-1)
- IP-Degree: IP 67 (IEC 60529)
- Contact Plating: Silver
- Flammability: UL94 V0
- Dielectric material: Polyamid 6.6
- Housing material: Polyamid 6.6



For quantities of 100 and up, call for quote.

SERIES 44 ENVIRONMENTAL CIRCULAR CONNECTORS

Amphenol 44 series offer high performance at a low cost

Features:

- Poke-Home crimp contacts
- One piece water resistant design (IP65)
- Housings made from santoprene thermoplastic rubber
- Silver plated contacts
- Contacts sold separate from housings

Specifications:

- Temperature Range: -40ºC to +125ºC
- Voltage Rating: 250V AC RMS
- Current Rating: 8A
- AWG Size: 14-18
- Wire Outer Diameter: .080" to .130"
- Mated Length: 2.174"

Housings

BULGIN Sealed Plugs and Sockets

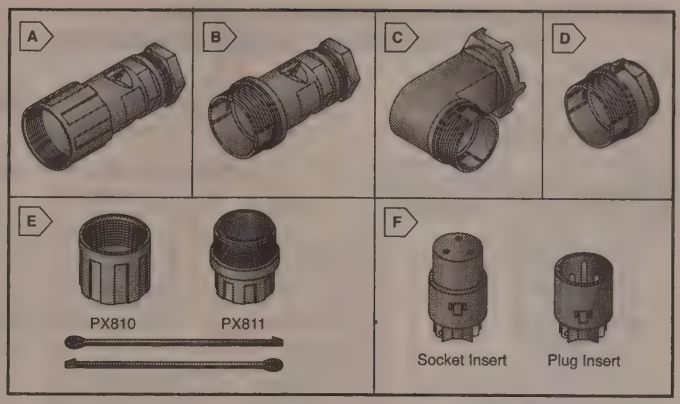
BULGIN

MINI BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

Specifications:

Sealed To IP68 When Mated
Overall Diameter 26mm
Screw Terminals
UL Approved
Connector body and inserts supplied Separately

- 2 & 3 pole 10A, 250VAC, 4 pole 6A, 250VAC, 6 pole 3A, 150VAC
- Positive Locating Keyways - Cannot Be Mis-connected
- Cable Diameter 5-7mm
- Flammability Rating UL94V-0



Connectors

BULGIN 900 SERIES LARGE BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

Specifications:

- Sealed to IP68 when mated
- Overall diameter 58mm
- Screw terminals
- No special tools required for assembly
- UL, CSA, VDE approved
- 32A, 600V AC/DC current rating
- Positive Locating Keyways - cannot be mis-connected
- Cable diameter 13-15mm
- Gland pack available for cable diameter 7-13mm

✻ Mates with PX0911

For quantities of 250 and up, call for quote.

IELD INSTALLABLE CONNECTORS

w cost Standard connectors for Industrial and Marine Applications

e all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would herwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

eatures:

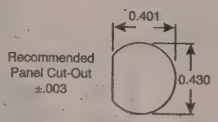
Solder Cup Termination
Corrosion resistant and non-conductive connectors
Suitable for use in hostile environments
Coupling rings have overriding locking feature to prevent loosening or separation of connector

- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V

pecifications:

Connector body & Backshell: Black Nylon
Connector: Gold over Nickel
Grommet: Black Santoprene Rubber
Voltage: 600V
Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure

- Temperature Rating: -55°C to +125°C (-67°F to +257°F)
- Watertight: Up to IP67/NEMA 6P



DIMENSIONS: IN

icro-Con-X® Subminiature Series

ntact size #20; #20-24 AWG

FIELD INSTALLABLE CONNECTORS

Low cost Standard connectors for Industrial and Marine Applications

The all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would otherwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

Features:

- Solder Cup Termination
- Corrosion resistant and non-conductive connectors
- Suitable for use in hostile environments
- Coupling rings have overriding locking feature to prevent loosening or separation of connector
- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V

Specifications:

- Connector body & Backshell: Black Nylon
- Connector: Gold over Nickel
- Grommet: Black Santoprene Rubber
- Voltage: 600V
- Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure
- Temperature Rating: -55°C to +125°C (-67°F to +257°F)
- Watertight: Up to IP67/NEMA 6P

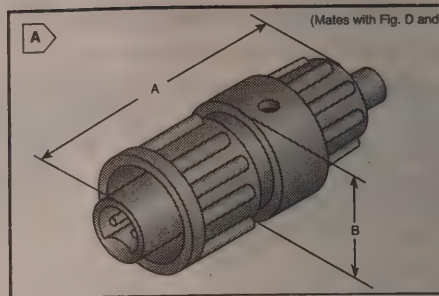
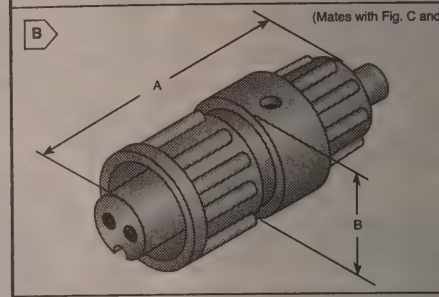
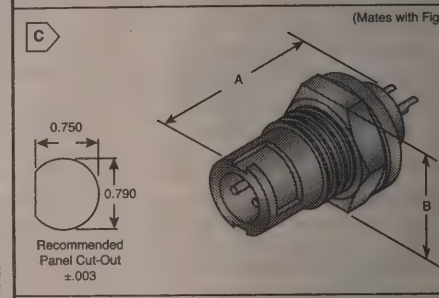
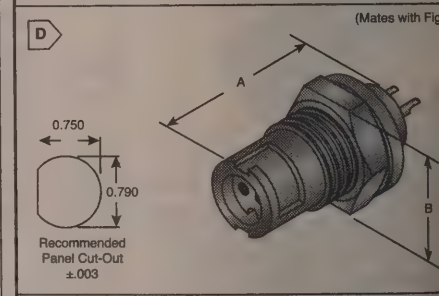
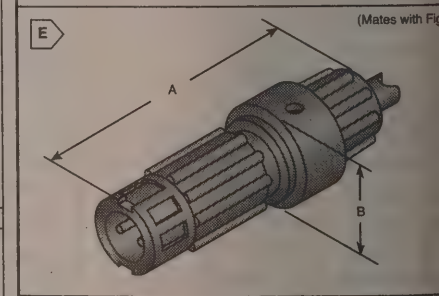
3DC=Daisy chain grommet with 3 I.D.'s (.125, .188, .250)

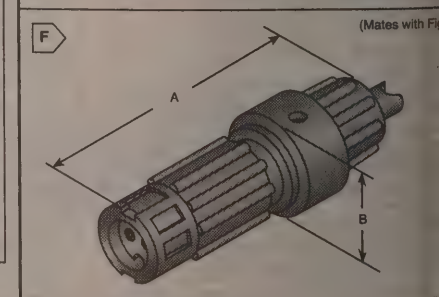












JB5 SERIES GENERAL PURPOSE WATERPROOF CIRCULAR CONNECTORS

his I/O connector features a secure push-pull mating system and is suitable for use in devices such as handheld PC's, scanners, ortable instruments, medical monitors, and any other device used in outdoor or splash-prone environments. Metal micro-circular onnector. Waterproof seal to IP68. Series operates at speeds up to 20 Mbps (based on USB1.1)

NEW FROM SUPPLIER

pecifications:

Current rating: 2A per contact
Dielectric withstanding voltage: 200VAC for one minute
Operating temperature: -55°C to +85°C

- Insulator: Glass-filled LCP
- Shell/Coupling Nut/Assembly Nut/Gland Nut: Copper/Chromium plated
- Shield Sleeve/Clamp/Spacer/Spring: Copper/Nickel plated
- Contact plating: 30µin Au over Ni
- Barrel: Zinc/Nickel plated
- RoHS Compliance per JAE documentation

N1 SERIES GENERAL PURPOSE WATERPROOF MINIATURE CONNECTORS

plastic, waterproof to IP67. Twisting locking mechanism. Right angle plug can be mated in 4 different directions by rotating the connector 90 degrees

pecifications:

Current rating: 5 amps (4 Pin) or 3 amps (10 Pin) per contact
Dielectric withstanding voltage: 2000VAC (4 Pin) or 900VAC (10 Pin) r.m.s. for one minute
Insulation resistance: 1000 megohms min.
Operating temperature: -20°C to +125°C
Applicable wire size: # 20, # 21-25, # 26-28
RoHS Compliance per JAE documentation

Receptacle:
- Pin Insulator: Synthetic resin
- Pin Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)

Plug:
- Front & Rear Insulator: Synthetic resin
- Spring & Spring Pin: Stainless Steel
- Socket Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)

K24 / TX25 SERIES 1.27MM OC BOARD TO PC BOARD CONNECTORS

connections between parallel boards spaced between 12 to 24mm (2mm increments). Rugged with mating guide suitable for mounting on rack or panel. bon type contacts ensures reliable electrical continuity, resisting twisting force of coupling. Suitable for applications such as: computers, OA equipment, mmunications equipment, measuring instruments, factory automation equipment, etc...

ecifications:

urrent rating: 1 Amp
lating side contact finish: Gold over nickel
ithstanding voltage: 500VAC r.m.s. (for 1 minute) (initial)
250VAC r.m.s. (for 1 minute) (after stress)

- Operating temperature: -40°C to +80°C
- Insulation resistance: 100 megaohms min. (initial) or 10 megaohms min. (after stress)
- Contact resistance: 40 milliohms max. (initial) or 60 milliohms max. (after stress)
- RoHS Compliance per JAE documentation

A01A SERIES 0.50MM (.020") CONTACT SPACING PCB TO PCB SMT CONNECTORS

2 row SMT board to board connector. Low profile 1.5mm mating height. Guide on insulator mates connector automatically by assembly machine. For cations such as PDA's, cell phones, and other compact equipment. Unique design prevents solder wicking. Locking mechanism in each contact.

cifications:

rent rating: 0.2 amp per contact
ulator: Heat resistant plastic (UL94V-0)
tact: Copper alloy with Gold plating; contact area: 0.1µm min.
standing Voltage: 250VAC r.m.s. (for one minute)

- Contact resistance: 70 milliohms max.
- Operating temperature: -40°C to +85°C
- Hold down: Copper alloy with tin plating
- Insulation resistance: 100 megaohms min.
- RoHS Compliance per JAE documentation

tyco Electronics — AMP MINI-DIN CONNECTORS SHIELDED

Features:
- Choice of plating
- Compact size
- Choice of 4, 5, 6, or 8 pin
- Integral one piece shield
- Free hanging not available

Specifications:
- Housing: 94V-0 thermoplastic
- Contacts: phosphor bronze plated with:
  a.) gold flash nickel underplate
  b.) 30µ" nickel underplate
  c.) 15µ" nickel underplate
- Recommended PC board thickness: .062"

KOBICONN — MINI-DIN CONNECTORS SHIELDED / UNSHIELDED

Features:
- Compact miniature design
- Ideal for I/O connector applications
- Versatile right angle PCB mounting
- Available 3-9 contact positions

Specifications:
- Voltage rating: 100VAC
- Current rating: 1A
- Insulation resistance: 50MΩ
- Breakdown voltage: 250VAC
- Contact resistance: 30mΩ

PHOENIX CONTACT SPEEDCON Connectors and Sensor Boxes

PHOENIX CONTACT
INSPIRING INNOVATIONS

M12 SPEEDCON CORD SETS

Features:

- Simple 1/2 turn connection
- Compatible with all M12 standard threading
- 90% time savings over standard M12
- No special adapters required

Specifications:

- Current Rating: 4A
- Temperature Range: -25° to 90° C
- IP-Degree: IP65 & IP67
- Voltage Rating: 300V/125V(5 pos)
- Cable Diameter: 5.2mm

For quantities of 100 and up, call for quote.

M12 SPEEDCON QUICKON-ONE PLUG CONNECTORS

Features:

- QUICKON-ONE design allows rapid connector termination
- No individual wire stripping is required
- SPEEDCON wire termination

Specifications:

- Current Rating: 4A
- Voltage Rating: 125V
- IP-Degree: IP65 & IP67
- Cable Diameter Range: 4 to 7.5mm

For quantities of 100 and up, call for quote.

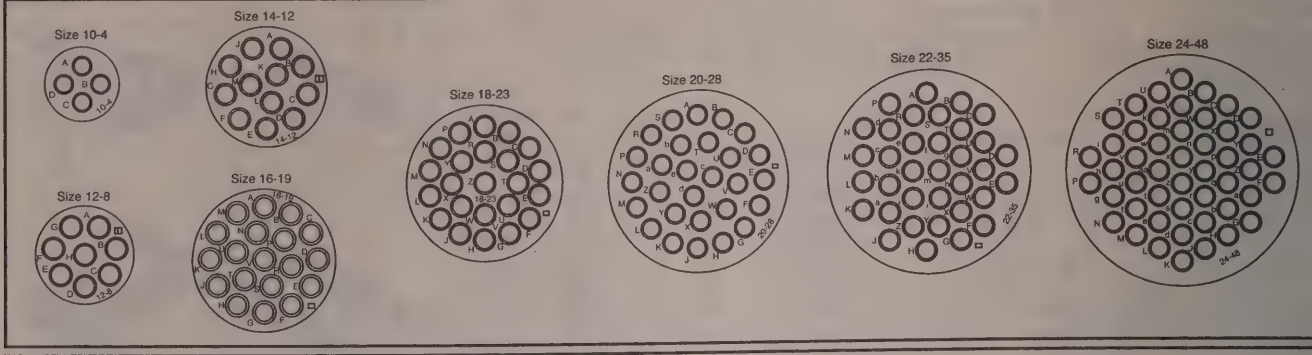
SOURIAU TRIM TRIO™ Circular Connectors

TRIM TRIO™ INSERT ARRANGEMENTS



TRIM TRIO™ CIRCULAR CONNECTORS

Plastic Circular Trim Trio™ Connectors with Metal Coupling System
"UTG" Metalok Bantam plastic industrial circular connectors with metal coupling are a range of multiway connectors to provide the complete answer to the need for light weight, robust circular connectors.

Features:
- Accepts TRIM-TRIO removeable snap lock contacts; sold separately
- UL approved-file Nr.: E31151
- Metal bayonet ring:
  - Metal wave spring loaded
  - Locks with audible positive "click"
  - Assures 500 matings and unmatings
- Intermateable, interchangeable and intermountable with Trim Trio "UTO" and "UTP" industrial connector families

Materials:
- Body: Glass filled thermoplastic UL94V-0
- Color: Black
- Coupling Ring: Nickel plated brass
- Tri-locking pins: Stainless steel
- Coupling spring: Spring steel

Specifications:
- IP Degree: IP67
- Operating temperature: -55 ° C to +125 °
- Test potential: 2000 VAC
- Durability: 500 matings and unmatings

Cable Plugs (for Pin Contacts)

SOURIAU TRIM TRIO™ Contacts and Tooling

SOURIAU
Connection Technology

RIM TRIO™ SIZE 16 FORMED CONTACTS

16 - 1.6mm (.063") diameter contacts are two piece formed crimp snap-in pin and sockets. Any TRIM TRIO™ contact can be used in any contact postion in connector in the TRIM TRIO™ Interconnection system.

tures:
- lade from high conductive copper alloy with gold or tin over nickel plate finish
- wo piece construction with dual purpose spring which serves for contact tention and protects the body against damage
- uitable for high volumes and lower installation cost

Specifications:
- Contact body: High conductive copper alloy
- Outer spring: Stainless steel
- Current rating: 13 amp

rmed Pin Contacts

For quantities of 100 and up, call for quote.

RIM TRIO™ SIZE 16 MACHINED CONTACTS

tures:
- ade from high conductive copper alloy with gold or tin over nickel plate finish
- ny TRIM TRIO™ contact can be used in any contact postion in any connector the TRIM TRIO™ interconnection system.
- eat-treated beryllium copper locking springs assure proper locking and alignment contacts in the housing
- osed entry design on RC socket contact to prevent probe damage

Specifications:
- Contact body: High conductive copper alloy
- Outer spring: Tempered, heat-treated, beryllium copper
- Inner spring socket: Tempered, heat-treated, plated beryllium copper
- Current rating: 13 amp

chined Pin Contacts

For quantities of 100 and up, call for quote.

IM TRIO™ SIZE 16 MONOCRIMP SUBMINIATURE COAXIAL CONTACTS

Piece Contacts for Subminiature Coaxial Cables

ures:
- e monocrimp one-piece coaxial contacts offer reliability plus the economic advantage a 95% reduction in installation time over conventional assembly methods.
- y TRIM TRIO™ contact can be used in any contact postion in any connector in the IM TRIO™ Interconnection system.

ng:
- taining spring plating: Nickel plated
- er and outer contacts: 0.75µ" Gold min. over Nickel

Materials:
- Inner and outer contacts: High conductive copper alloy
- Retaining spring: Beryllium copper
- Insulating bushing: Polyamide 6.6

Specifications:
- Operating temperature: -55°C + 125°C
- Isolation @ 30MHZ: 140db

For quantities of 100 and up, call for quote.

Circular Connectors

Souriau

JBX MINIATURE PUSH/PULL CONNECTORS

Designed to provide quick, reliable, high density interconnections of wire and cable.

Features:

- Mechanically keyed to ensure correct polarization and alignment
- High contact density in a small space
- Contact termination in crimp or solder contacts
- Removable contacts
- Fully compatible and intermateable with Lemo's B series

Specifications:

- Shell Material: Brass
- Socket Contact Material: Cupro-nickel
- Socket Plating Material: Gold
- Pin Contact Material: Brass
- Pin Plating Material: Gold
- Insulator Material: Fortron
- Shielded from 55dB up to 100 MHz
- Endurance: >1000 cycles per MIL-STD1344AD
- Temperature Range: -50°C; +125°C
- Protection Index: IP 40

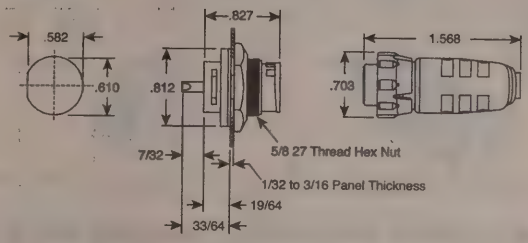
  Salt Spray: Mil-Std 202 Method 101D condition B
  Exceeds Coast Guard specifications for water tightness (CRF 46 Part 110.20)
- Ratings: 1P16/1P18, 1P66/1P68, NEMA 250 (6P) CFR 46 Part 110.20, UL 94V-O
- Termination: Solder cup
  9C-18C have staggered solder cups for easier soldering



Dimensions (IN.)

ures:

ble-sealed for moisture & chemical resistance
gral O-ring and gasket is molded onto panel
ing to prevent leakage and eliminate need for
tional O-rings and gaskets
el Connector shell has a positioning keyway to prevent
lignments and a polarizing single "D" design for proper
el mounting and prevents rotational movement
sion-resistant thermoplastic boot provides strain relief and
pts cable diameter .195" to .265".

Applications:

- Process Control
- Marine Electronics
- Medical Instrumentation
- Geothermal Instrumentation
- Communication
- General Industrial Electronics

2MM METPAK™ CP2 PRESS-FIT HEADERS AND SOCKETS

Specifications:

- Designed according to IEC 61076-4-101 and IEC 917 standards
- Meets CompactPCI application requirements
- "Eye of the needle" compliant pen press-fit design
- Insulation material: Glass Filled Polyester (PBT)
- Current rating: 1A at +70°C
- Temperature rating: -55°C to +125°C
- Contact material: Copper alloy
- Plating: 30μ" Gold

CP2 Series

For quantities of 200 and up, call for c

PC/104, PRESS-FIT

Specifications:

- Housing: High temperature, glass filled nylon, black
- Screwlocks: Steel, clear chromate over zinc
- Contacts: Phosphor Bronze, 0.000381 (0.000015) min. gold on mating receptacle end, 0.000130 (0.000005) min. gold on remainder, all over 0.001270 (0.00005) nickel (stack-through), 0.000381 (0.000015) min. gold on mating receptacle end, 0.00254 (0.0001) bright tin-lead on remainder, all over 0.001270 (0.00005) nickel (non-stackthrough).

Features:

- Press -Fit design
- Unique self-stacking bus
- Flat-Rock insertable
- Unitized PC/104 connector assembly
- Integral board spacers with captive hardware
- Fully compliant for PC/104 & PC/104-*Plus* standards
- Compact form-factor 3.6 inches

Benefits:

- Eliminates hand soldering
- Eliminates two piece (60 & 40 pin) configuration
- Eases and improves assembly efficiency while minimizing stocked hardware

For quantities of 100 and up, call for quote.

PC/104-*PLUS*, PRESS-FIT

Specifications:

- Housing: High temperature, glass filled nylon, black
- Contacts: Phosphor Bronze, 0.000381 (0.000015) min. gold on mating receptacle end, 0.000130 (0.000005) min. gold on remainder, all over 0.001270 (0.00005) nickel (stack-through), 0.000381 (0.000015) min. gold on mating receptacle end, 0.00254 (0.0001) bright tin-lead on remainder, all over 0.001270 (0.00005) nickel (non-stackthrough).
- Screwlocks: Steel, clear chromate over zinc

Features:

- Use of high speed PCI bus in embedded applications
- Press-Fit design
- Integral board spacers with captive hardware

Benefits:

- Fast data transfer over a PCI bus
- Low cost due to PC/104's unique self-stacking bus
- High reliability due to PC/104's inherent ruggedness
- Eliminates hand soldering
- Eases and improves assembly efficiency while minimizing stocked hardware

For quantities of 100 and up, call for quote.

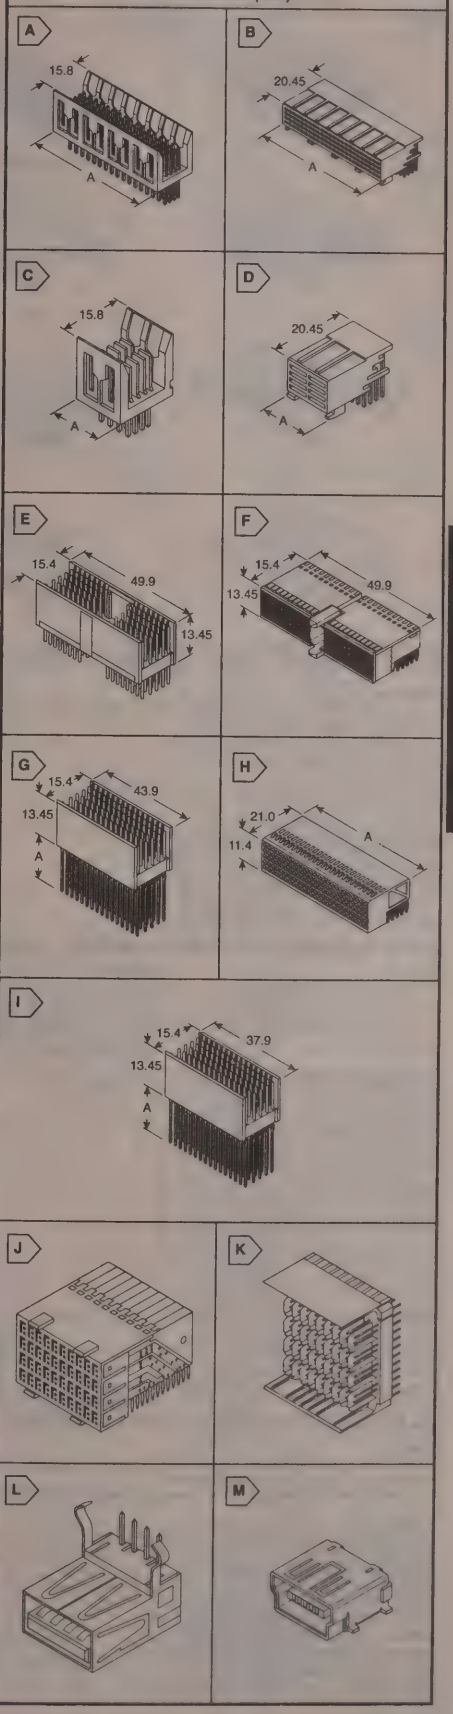
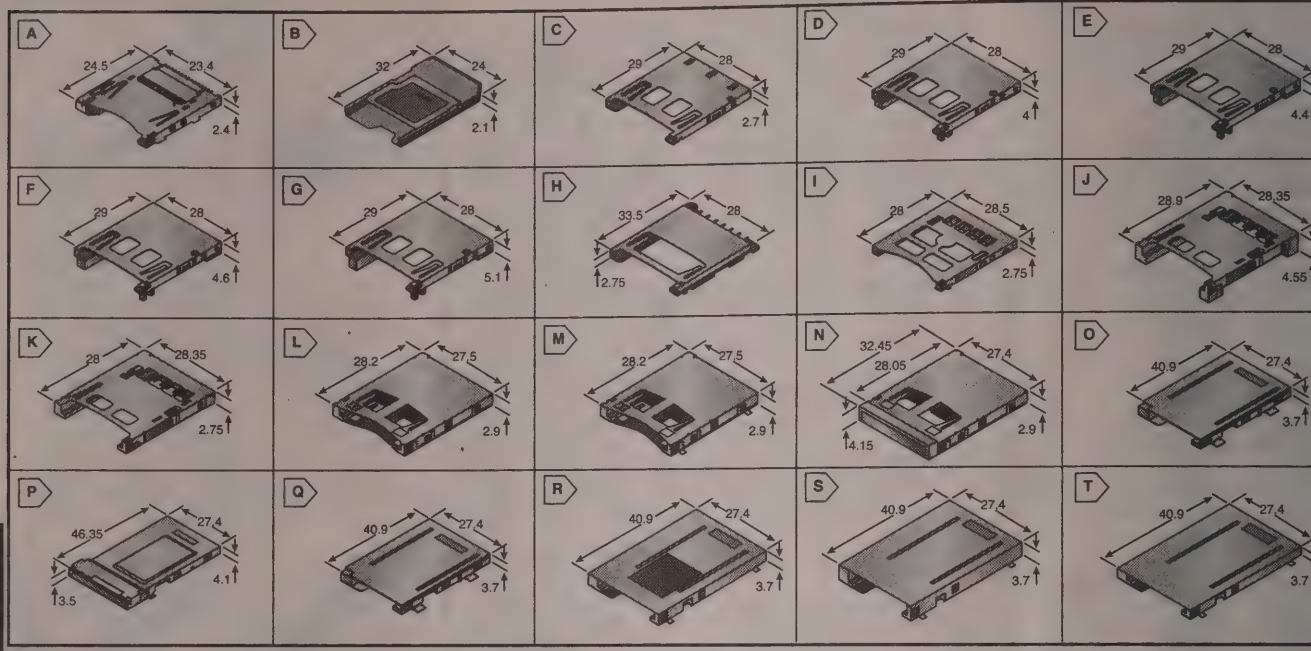
Dimensions (mm)



DIMENSIONS: mm



ALPS miniSD™ CARD CONNECTORS AND ADAPTER

Features:
- The miniSD™ Saves 40% of pcb area and 60% of volume required by SD cards
- Highly shock-resistant robust guard lock.
- Adapter has metal frame within plastic body
- Internal media detection switch
- Half-lock structure keeps media from popping out on ejection
- Adapter allows a miniSD™ card to be used in an SD connector
- miniSD is a trademark of San Disk

Specifications:
- Mating/unmating cycles: 10,000 cycles
- Operating temperature range: Connector: -25 to +70 deg. C
- Adapter: -25 to 85 deg. C
- Connector has push-push type media ejection
- Adapter has header type media ejection
- Both connector and adapter are supplied in bulk
- Connector is also available on tape and reel.

Applications:
- Mobile Phones
- Digital Cameras
- PDA's
- Personal Computers

For quantities of 500 and up, call for

ALPS SD MEMORY / MULTI-MEDIA CARD CONNECTORS

Features:
- Compact style and low profile
- Surface mount type
- Push-push type media ejection
- Standard/reverse mount

Specifications:
- Operating temperaturerange: -25°C to +60°C
- Withstanding voltage: 500VAC
- Insulation resistance: 1000 MW minimum
- Contact resistance: 100 mW maximum
- Mating/Unmating cycles: 10,000 cycles

Applications:
- Cellular Phones
- Digital Cameras
- PDA's
- Personal Computers
- Home audio/ video equipment

ALPS MEMORY STICK CARD CONNECTORS

Features:
- Long (10mm) stroke and clearly defined click for positive card insertion
- Increased reliability with anti-ESD construction.
- 4 solder lug terminals are a part of the enclosure for secure mounting to the PC board.
- Memory Stick is a trademark of Sony

Specifications:
- Operating temperaturerange: -20°C to +60°C
- Withstanding voltage: 500VAC
- Insulation resistance: 1000 MW minimum
- Push-push media ejection
- Mating/Unmating cycles: 12,000 cycles
- Bulk packaging

Applications:
- Notebook PCs
- Desktop PCs
- PDA's
- Home audio/ video equipment

For quantities of 500 and up, call for

ALPS Memory Card and Camera Module Connectors

ALPS

PS RS-MMC PUSH-PUSH TYPE CONNECTORS

ures:
ers one of the smallest mounting areas and one
he longest media ejection distances (4mm) in the industry
h impact resistance
ow solderable

Specifications:
- Operating temperature: -25°C~+60°C
- Withstand voltage: 500VAC/1 min.
- Insulation resistance: 1000 MΩ
- Mating/Unmating cycles: 10,000 cycles

Applications:
- PDAs
- Digital Cameras
- Cellular Phones

is a registered trademark of Infineon Technology AG, and is licensed to the MMCA

For quantities of 200 and up, call for quote.

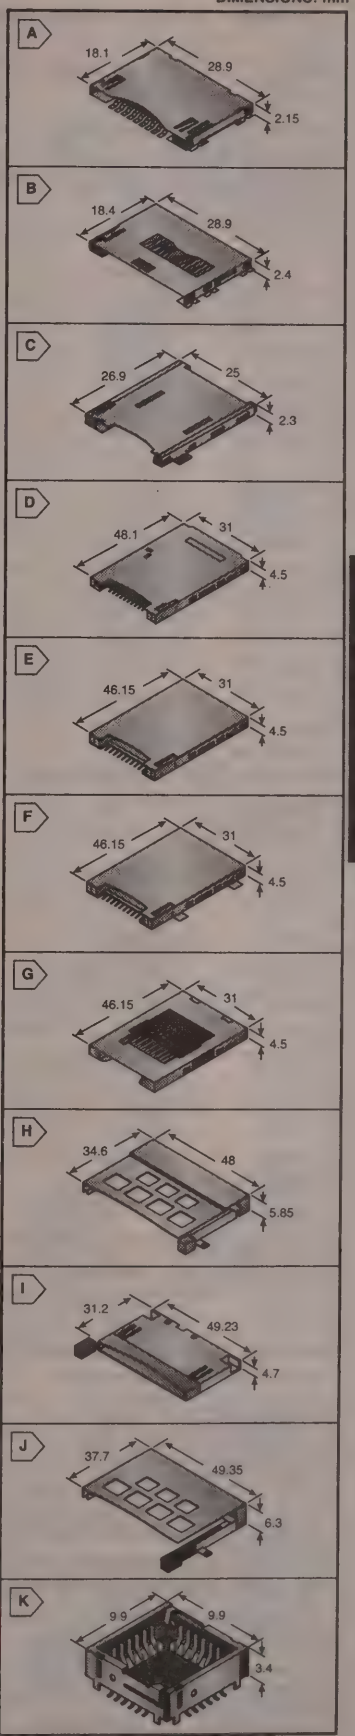
DIMENSIONS: mm



.100" PAK 100 CARD EDGE CONNECTORS

- Reinforced card-edge resists mouth bowing for consistent contact performance
- Metal cover clips provide superior cover retention
- Bifurcated contacts provide reliable contact with PC boards
- Insulation Material: Glass filled polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact Material: Copper alloy
- Contact Plating: 30µ" Gold, Type II, Grade C
- Wire Accommodation: 26 and 28 AWG solid or stranded
- Cable Conductor Pitch: .050" (1.27mm)
- Current Rating: 1 A
- Insulation Resistance: >1 x 10^9 at 500 VDC
- Withstanding Voltage: 1000 Vrms at sea level
- Temperature Rating: -55°C to +105°C

For quantities of 500 and up, call for quote.

AVX / ELCO 2mm Hard Metric, PCI and DIN 41612 Connectors

CI EXPRESS

atures:
ails are offset to form 4 rows on a 2.00mm pitch, thus making wave soldering easier
Connectors come with locating bosses to help align the connector to PCB (motherboard)
laised ridge at the topside of the connector, which can be used to lock/retain graphic card
olded polarization key prevents improper insertion of PBC
Connectors have slots to accept "add in" cards with thickness of 1.58mm (0.062")

Specifications:
- Contact Rating: 1.1 Ampere, maximum
- Contact Resistance: 30 milliohm, maximum
- Contact Material: Phosphor Bronze
- Insulator Material: 30% Glass Filled Nylon
- Insulation Resistance: 100 Megaohms 50, 50V AC
- Lead Free

N 41612 CONNECTORS

tures:
sic Grid: 0.100 (2.54) x 0.100 (2.54) – 0.100 (2.54) x 0.200 (5.08)
rrent Rating: 3A @ 20° Max. on connectors up to 96 contacts, per UL approval, over 96 contacts must be derated to 1.0A Max VDE, CSA, and other European standards.
ulation Resistance: 5000 megohms min. at 500 VDC

IPIN™ - Press fit contact guarantees equal force over entire contact length, Design prevents "eye of the needle" cracking/damage to PCB board
plication for PC board thickness ≥ 1.6mm
0% press-fit shank

n Temperature Termination:
olded in SMC polymers • Suitable for infrared/reflow/vapor phase soldering processes up to 250° C
ith keying system † Male with 1.6mm board retention clip without keying system

For quantities of 250 and up, call for quote.

FCI AIRMAX VS® (VIRTUAL SHIELDS) HIGH-SPEED BACKPLANE CONNECTOR SYSTEM

High -speed backplane connector system demonstrated to support differential signaling for data rates up to 25 Gb/s. Connector contacts can be allocated to Differential Pair Signals, Single Ended Signals, or Power. The connector's shieldless design provides options for wider column spacing to permit more traces to be routed on a single board layer to help reduce PCB layer count and cost.

Specifications:

- Termination Style: Press-fit
- Contact Base Material: Copper alloy
- Contact Plating: Au over Ni
- Tail Plating: SnPb over Ni
- Housing Material: Hi-temp thermo plastic

For quantities of 100 and up, call for c

FCI COMPACTPCI®

Specifications:

- Product Type: Signal
- Temperature Range: -55°C to +125°C
- Current Rating: 1.5A @ 20°C, 1.0A @ 70°C
- Voltage Rating: 750 Vrms
- Contact Resistance: 20m Ω max
- Insulation Resistance: 10M Ω min
- Insertion Force: 0.75 N min per contact pair
- Withdrawal Force: 0.15 N min per contact pair
- Hertz Stress: 200 Kpsi min
- Misalignmnet: Lognitudinal ±2.0 mm, Transversal ± 2.5 mm
- Inclination: ±2.0°

For quantities of 100 and up, call for c

METRAL 2MM MODULAR INTERCONNECT SYSTEM

x low and high speed signal modules. Mix signal and power modules. Designed in accordance with IEC 61076-4-104.
ontact plating meets Telcordia Central office.

pecifications:

Contact plating: 30µ" gold
Tail plating: .80µm (30 pin) gold, IEC class 2 gold
Housing material: Glass-filled LCP
Temperature: 55°C to +105°C
nsulation resistance: 1000MΩ
Withstanding voltage: 1000Vrms
Current rating: 1.0A
Tail length:
Header: 4.30mm (.169")
Receptacle: 2.73mm (.107")

FCI MILLIPACS® HARD METRIC 2MM HEADERS

dular System with 5+2 Row High Density Connectors

atures:

Designed in accordance with IEC917 and IEC 61076-101 as well as Compact PCI®
Extended functionalities: Staggered contacts, shielding, keying, guiding, power, and coax inserts and shrouds
For all applications requiring high density connections such as switches, base stations, embedded computers, medical testing, and PLC's
Types A & B 50mm headers
Types C 25mm end-position headers
Types A & C offer "MP" multipurpose center for polarization, preguiding, and coding
PCB Mounting - Press Fit

Specifications:

- Housing material: High temperature thermoplastic (UL94 V-0)
- Contact base material: Phosphor bronze
- Operating temperature: -55°C to + 125°C
- Signal contact current rating: 1.5A @ 20°C; 1A @ 70°C
- Signal contact test voltage (fully loaded): 750 Vrms
- Signal contact, contact resistance: 20mΩ max.
- Signal contact insulation resistance: 10,000MΩ min.

For quantities of 100 and up, call for quote.

DIN 41612 SIGNAL CONNECTORS - 2 AMP

- IEC 60 630-2
- Pitch: 2.54 mm
- Current rating: 2 A
- 1 A for Insulation Displacement version
- 40 A Contacts in Type M version
- Contact Plating: Performance Level 2 plating (acc to DIN41612, part 5)
- UL and CSA Approved
- Contact resistance: 15 mΩ for wire wrap connections
  20 mΩ for including crimp connections
- Temperature Range: -55°C - +125°C
- Termination zone tinned
- Moldings: Thermo plastic resin, glass fiber filled - UL 94V-0
- Contacts: Copper Alloy

For quantities of 100 or more, call for quo

Specifications:
- Insulator Material: Thermoplastic Polyester, UL 94V-O
- Contact Material: Copper, Nickel, Tin Alloy CA-725 or Phosphor Bronze Alloy CA-510
- Contact Plating: Gold on mating area, tin-lead on contact tails, nickel underplate.
- Colors: Series 305,306, 341, and 346 are green. Series 357 and 395 are black.
- Insulation Resistance: 5000 megohms @ 500 VDC
- Dielectric Withstanding Voltage: 1500 VAC RMS at sea level
- Current Rating: 3 Amps.
- Contact Resistance: 6 milliohms maximum.

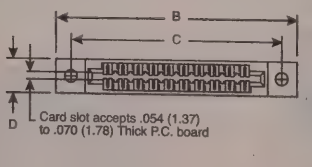
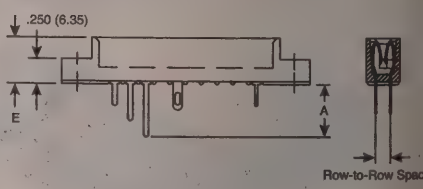
Solder Eyelets

Specifications:
- Insulator Material: Thermoplastic Polyester, UL 94V-O
- Contact Material: Copper, Nickel, Tin Alloy CA-725 or Phosphor Bronze Alloy CA-510
- Contact Plating: Gold on mating area, tin-lead on contact tails, nickel underplate.
- Colors: Series 305,306 and 307 are green.
- Insulation Resistance: 5000 megohms @ 500 VDC
- Dielectric Withstanding Voltage: 1500 VAC RMS at sea level
- Current Rating: 3 Amps.
- Contact Resistance: 6 milliohms maximum.





For quantities of 250 and up, call for qu

ACK AND PANEL CONNECTORS

tures:

- L Recognized
- ug and Receptacle in 20, 38, 56, 90 and 120 contact sizes
- ghly reliable Edacon Hermaphroditic
- ontact Design with four contact mating surfaces
- ontact termination options include:
- rimp, P.C. Tail, Wire Hole, and Wire Wrap
- ating and unmating simplified with actuating screws
- ptional metal covers with side entry available for all connector sizes
- rsatile metal cover design permits assembly of disassembly
- ter cabling is complete plus cable entry style flexibility.

ecifications:

- sulator Material: Series 100 and 200: Green Diallyl Phthalate
  Series 300 and 400: Gray Polycarbonate
- ontact Material: Phosphor Bronze Alloy CA-510
- ontact Plating: Gold over Nickel
- over Material: Die-cast Zinc, finished with grey enamel paint
- urrent Rating: 8.5 Amps
- ontact Resistance: 10 Milliohms maximum
- electric Withstanding Voltage: 2000VAC rms at sea level
- sulation Resistance: 5000 Megohms minimum
- perating Temperature: -65 to +125 degrees C
- sertion and Withdrawal Force: 2 to 16 oz.(0.56 to 4.45 N) per contact pos.

AMP Power Series Connectors

tyco Electronics

AMP Power Series Connectors provide a durable, quick connect/disconnect means to transmit "power" levels of current and voltage (15-275 A, 600 V AC/DC). This product family is primarily comprised of single-pole and 2-pole (battery) connector housings, crimp snap-in contacts, and accessories. Housings are offered in various colors. Two-pole housings have different polarization configurations with the exception of black housings, each color identifies a different keying configuration. In general, only like color housings will mate.

Specifications:

- Voltage Rating: 600V AC and DC
- Color-coded Housings, UL94V-0
- Hermaphroditic housings reduce inventory
- Modular, single pole housings are stackable in four directions
- Polarity (+ and -) molded into 2-pole housings
- Mechanical keys help prevent two different color-coded housings from mating
- Stainless steel retaining springs secure contacts in housings

Applications:

- AC/DC power supplies and charging systems
- Rechargeable batteries
- Material handling equipment (forklift trucks)
- Electric vehicles (golf carts, sweepers, wheelchairs)
- Office furniture/Panels
- Amateur Emergency Radios
- Industrial Equipment

SERIES 15/30/45 CONNECTORS

Single-Pole

- 40A with 10AWG wire (Series 45)
- 30A with 12AWG wire (Series 30)
- 20A with 16AWG wire (Series 15)

For quantities of 500 and up, call for quote.

AMP Power Lock Connectors

tyco Electronics

Power Lock Connectors have hermaphroditic housing and contact designs. The hermaphroditic housings are also modular in design and lit the clustering of connectors of the same series. Housings are made of impact resistant thermoplastic with stainless steel locking springs ontact stability. High current handling capability: 31 or 53 amperes maximum depending on application.

JONES PLUGS / SOCKETS SERIES 300

Features:

- Solder lug terminals with .093" x .062" wiring holes
- Two-contact "Jones" connector is round, all others are rectangular
- For use in cable-to-panel and cable-to-cable applications
- Designed for light and medium duty
- Polarized to prevent wrong-way insertion

Specifications:

- Insulation material: molded monoblock, general purpose phenolic, black UL94V-1
- Contact material: plug - brass, socket - phosphor bronze
- Contact plating: cadmium
- Operating temperature: up to +105°C
- Hood material: UL 94V-0
- Withstanding voltage: 730VAC$_{RMS}$
- Current rating: 10A
- Contact resistance: 16mΩ max.

*Two-contact "Jones" round connector, Dimension "A" is the diameter.

HARTING Heavy Duty Han® Power Connectors

AVY DUTY HAN® POWER CONNECTORS

l 10 to 100 amps

connectors are multi-pin connectors that utilize hoods and ngs for protection from dust, liquids, and physical damage. All have UL and CSA electrical approvals and NEMA and IP type onmental ratings as well as many international approvals.

s carry the male and female contacts and feature protective g ground, polarization to prevent incorrect connections, and hangeability of male and female inserts in either hoods or ngs. Inserts can also be used in rack and panel applications ut hoods and housings.

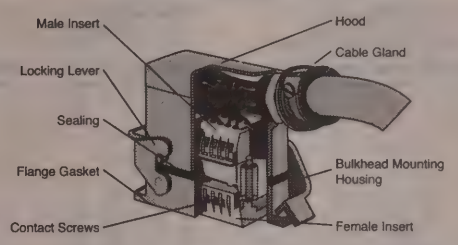
s connect to the cable and housings generally mount to the cabinet chine. All hoods and housings meet NEMA Type 4 and equivalent ational standard IEC 529 (DIN 40050) IP 65 degree of protection, specifies that enclosures are protected.

HARTING Heavy Duty Han® connectors can be used in a wide variety of applications in many industries including:

Robotics	Semiconductor
Transportation	Industrial Automation
Machine tools	Plastics machinery
Conveyors	Power utilities
Chemical plants	and many others.

For a complete connector: choose a kit or pick male and female mating inserts with same size hood and housing. Order crimp contacts and cable glands when necessary.

Han® Connector (Cut Away View)



AN® A/B MATING CONNECTOR KITS

y to assemble complete connector kits
y duty screw terminal inserts
NEMA 4 rated assemblies
/Housing Color: Grey

Each Kit Includes: Female Insert, Male Insert, Hood, Housing, and Mounting Gaskets
Male and Female inserts are interchangeable between hoods and housings.
Hood cable glands are ordered separately based on cable diameter and hood PG size.

For quantities of 10 and up, call for quote.

NGED FRAMES

Specifications
• DIN VDE 0627, DIN VDE 0110, DIN EN 61 984

ounding system according to VDE
dules can only be assembled polarized to guarantee correct orientation
th male and female modules may be mounted in the same hinged frame
nged frames are mountable in standard hoods/housings
gh mechanical reliability of modules in case of vibrations and impact stress

• Rigid die cast zinc frame
• Alphabetical marking of module positions
• No tool necessary to remove modules

For quantities of 50 and up, call for quote.

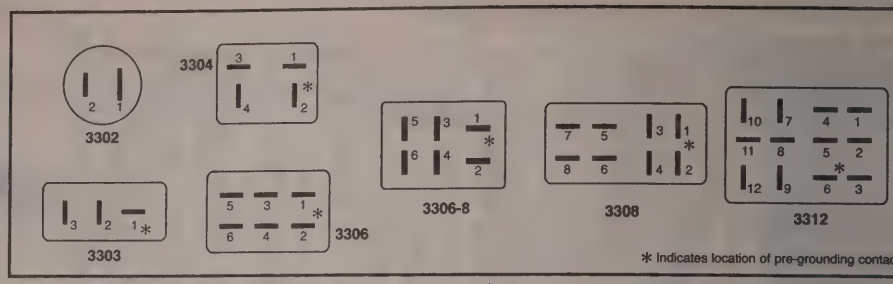
SERIES 3300 CONNECTORS

Series 3300 Connectors are interchangeable with Series 300 types and are designed for panel and cable mounting.

Specifications:
- Current Rating (Individual Contact): 10 Amps
- Voltage Rating: 250 volts
- Materials:
  - Plug: Brass, tin plated
  - Socket: Phosphor bronze tin plated
  - Pre-Grounding Contact: Heavy duty plated brass
  - Base Insulating: High-grade phenolic, black
  - Backshell: Thermoplastic
  - Angle Bracket Finish: Steel, bright nickel electroplate
- Cable Clamp Top Includes: cable clamp, screws, latch and keeper



Plugs-Cable Clamp Top

- Cable Mount

For quantities of 200 and up, call for quote.

SERIES 5400 CONNECTORS

Series 5400 Connectors are interchangeable with Series 2400 or 400 type connectors. They are designed for use in panel and cable mounting applications. Includes steel bright nickel electroplated cable clamp and screws.

Specifications:
- Current Rating (Individual Contact): 15 Amps
- Voltage Rating: 250 volts (UL rated at 250 V, AC or DC max, between adjacent contacts
- Pre-Grounding Contact Rating: Up to 30 Amps at rated voltages
- UL: File No. E34763
- CSA: File No. 22156
- Materials:
  - Plug: Brass, tin plated
  - Socket: Phosphor bronze, tin plated
  - Pre-Grounding Contact: Heavy duty plated brass
  - Base Insulating: High-grade phenolic, black
  - Backshell: Thermoplastic

929 SERIES .100" PIN STRIP HEADERS

Specifications:

- Insulation material: Glass filled polyester (PBT), Black, UL94V-0
- Contact material: Copper alloy
- Tail plating: 100µ" Tin
- Current rating: 2.5A
- Withstanding voltage: 1500Vrms
- Operating Temperature: -40°C to +105°C
- Series 929

Mates with socket series 929 and CHG

.093" Mating Length Contact Pins

For quantities of 1000 and up, call for quote.

9 SERIES .100" PC BOARD MOUNT SOCKETS

kets mate with .100 pin header for board stacking applications.

ecifications:

- uning fork contact design
- older standoffs facilitate production wave soldering
- sulation material: glass-filled polyester (PBT) black UL94V-0
- ontact plating: 10μ" gold or 100μ" tin
- ontact material: Copper alloy
- urrent rating: 1A
- Tail length: .125"
- Withstanding voltage: 1500Vrms
- Temperature rating: -40°C to +105°C
- Series 929
  Mates with Header Series 2300 and 929

For quantities of 5000 and up, call for quote.

929 SERIES .100" MIDGIE SHUNTS

Specifications:

- Unique C-Spring contact insures balanced forces
- Insulation material: glass-filled polyester (PBT) black UL94V-0
- Contact plating: Black: Unplated
  Blue: 10μ" Gold in wipe area
  Gray: 30μ" Gold in wipe area
- Stackable end-to-end and side-to-side
- Current rating: 1A
- Contact Material: Copper alloy
- Withstanding voltage: 1500Vrms
- Temperature rating: -55°C to +100°C

For quantities of 5000 and up, call for quote.

929 SERIES .100" SHUNTS

Specifications:

- Double wipe contact is reliable and failure free
- Insulation material: glass-filled polyester (PBT), UL94V-0
- Current rating: 2A
- Contact plating: Red: 75μ" Tin
  Blue: 10μ" Gold in wipe area
  Gray: 30μ" Gold in wipe area
- Open top contact allows easy probing and testing
- Contact Material: Copper alloy
- Withstanding voltage: 1500Vrms
- Temperature rating: -55°C to +100°C
- Loop hole on top of the contact provides easy removal for testing

For quantities of 5000 and up, call for quote.

CHG SERIES .100" PAK 100 WIREMOUNT SOCKETS

Features:

- For .100" Pitch Notched or Discrete Wire Cable
- One row, side-to-side stackable
- Mates to 3M one row pin strip headers
- Twin slot IDC provides four points of contact
- Temperature rating: -55°C to +105°C
- Plating: 30 μ Gold
- Insulation material:
  Glass Filled Polyester (PBT), UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Current rating: "KEP" 22-24 AWG: 2 A
  "KCP" 26-28 AWG: 1.5 A
- Exclusive L/H 4-wipe contact
- Series CHG
  Mates w/ Header Series 2300 and 929

For quantities of 200 and up, call for quote.

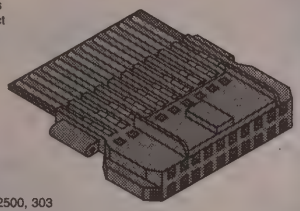
CHG SERIES .100" PAK 100 POLARIZED WIREMOUNT SOCKETS

Specifications:

- For .100" Notched Ribbon or Discrete Wire Cable
- Military/DIN 41612 compatibility
- Two row, polarized body
- Mates to long latch/eject headers and plugs
- Twin slot IDC provides four points of contact
- Exclusive L/H 4-wipe contact
- With Centerbump
- Insulation material: Glass Filled Polyester (PBT), Gray, UL94V-0
- Contact material: Copper alloy
- Current rating: "KEP" 22-24 AWG: 2 A
  "KCP" 26-28 AWG: 1.5 A
- Temperature rating: -55°C to +105°C
- Plating: 30 µ" Gold
- Series CHG



Mates with Header Series: 2300, 929, 3000, 2500, 303
Plug Series: 4600

For quantities of 200 and up, call for qu

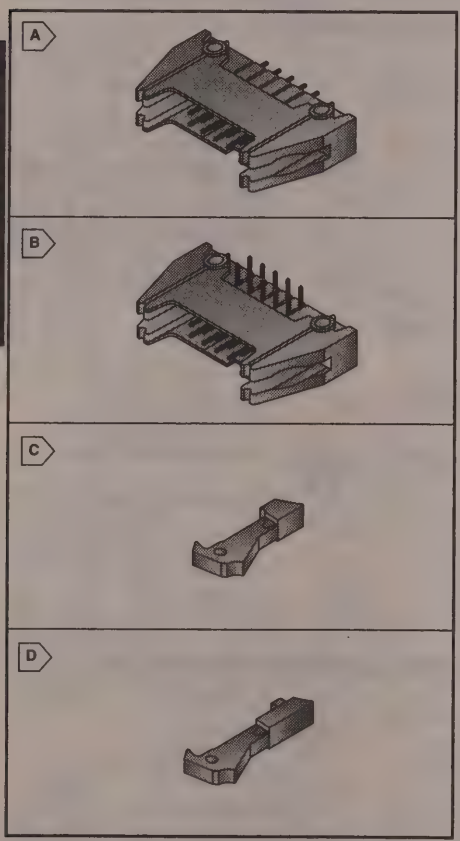
3000 SERIES .100" X .100" LATCH/EJECTOR HEADERS



- Solder Tail Type
- Military (with 3M's 3518 polarizing key) and centerbump polarization
- Standard ejector latches
- Mounting holes for securing header to board
- RoHS compliant
- Optional polarizing posts
- High temperature insulator suitable for "no lead" soldering operations
- Suitable for reflow soldering using "paste in hole" techniques
- Insulation Material: Glass Filled Polyester (PCT)
- Flammability: UL 94V-0
- Color: Black
- Contact material: Copper Alloy
- Contact plating: 30" Gold
- Terminal Finish Indicator: e3 (per JESD97)
- Marking: 3M Logo, Part identifcation Number and Orientation Triangle
- Current Rating: 1A
- Insulation Resistance >1 x 109 at 500Vdc
- Withstanding Voltage: 1000Vrms at Sea Level
- Temperature Rating: -55°C - +105°C
- Process Rating: Maximum 260°C, single pass, (profile per J-STD-020C)
- Moisture Sensitivigy Level: 1 (per J-STD-020C)
- Series 3000

Mates with Socket Series' CHG, 8500, 3000, and 891

4600 SERIES .100" X .100" WIREMOUNT PLUGS IDC SHROUDED HEADERS

Features:

- Shrouded to protect against physical and chemical pin damage
- Accepts flat cable or discrete wire
- Insulation material: Glass filled polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Wire Accommodation: 26 and 28 AWG solid or stranded
- Current rating: 1A
- Temperature rating: -55°C to +105°C
- Plating: 30 µ" Gold
- Open end cover included
- Series 4600 mates with socket series: CHG, 8500, 3000, and 891

For quantities of 200 and up, call for quote.

8500 SERIES .100" X .100" POLARIZED BOARDMOUNT SOCKETS

- Centerbump polarization
- Mates with low profile shrouded headers
- Board retention feature
- Insulation material: Glass filled polyester (PBT), Gray, UL 94V-0
- Contact material: Copper alloy
- Contact plating: 12µ" Gold
- Current rating: 1A
- Withstanding voltage: 1000Vrms
- Temperature rating: -55° C to +105°C
- Series 8500

Mates w/ Header Series: 3000, 2500, & 303
Plug Series: 4600

For quantities of 200 and up, call for quote.

3000 SERIES .100" X .100" WIREMOUNT SOCKET CONNECTORS

- Industry standard IDC socket
- Current rating: 1A
- Positive locking metal "J" clips provide high cover retention
- Withstanding voltage: 1000Vrms
- Accepts flat cable or discrete wire
- Temperature rating: -55° C to +105°C
- Insulation material: Glass filled polyester (PBT), Gray, UL 94V-0
- Contact material: Copper alloy
- Wire accommodation: 26 & 28 AWG solid or standed
- Series 3000
- Plating: 30µ" Gold
- Order strain reliefs separately. (see below)

Mates w/ Header Series: 3000, 2500, & 303
Plug Series: 4600

0 SERIES .050" X .100" TRIPOLARIZED, TCH/EJECTOR HEADERS

cifications:

- tch and eject for rugged high performance applications
- o-row solder tail design saves board space
- ur-wall shroud provides contact protection
- ulation material: High temperature plastic (LCP), Ivory, UL 94V-0
- mperature rating: -55°C to + 105°C
- Plating: 30µ" Gold
- Current rating: 0.5A
- Withstanding voltage: 500 Vrms
- Contact material: Copper alloy

For quantities of 200 and up, call for quote.

00 SERIES .050" X .100" TRIPOLARIZED WIREMOUNT OCKETS

cifications:

- ll-n-dale design provides a high performance IDC termination
- sert-molded copper alloy contacts for superior strenght and reliability
- sulation material: Glass filled polyester (PBT), Gray, UL 94V-0
- mperature rating: -55°C to +105°C
- Metal cover latch
- Plating: 30µ" Gold
- Current rating: 0.5A
- Withstand voltage: 500Vrms

For quantities of 200 and up, call for quote.

4 SERIES .100" X .100" 2 ROW PCB CONNECTORS

cifications:

- eplacement Series for the 39xx-T Series
- sulation material: Glass filled thermoplastic, Black, UL 94V-0
- /ire Accommodation: 28 AWG Stranded
- emperature rating: -55°C to +105°C
- ses less board area than 4-row design
- Contact material: Copper alloy
- Current rating: 1A
- Withstanding voltage: 650 VAC for 1 minute
- Fits standard .100" x .100" header layout
- Preassembled cover for fast termination

For quantities of 200 and up, call for quote.

2MM X 2MM PIN STRIP HEADERS AND BOARDMOUNT SOCKETS

Specifications:

- Industry standard compatible
- High temperature dielectric
- IR, vapor and wave solder compatible
- Current rating: 1.5A
- Withstand voltage: 500 Vdc
- Temperature rating: -55°C to +105°C
- End and side stackable
- Insulation material: Glass filled polyester (PCT)Black, UL 94V-0
- Contact material: Copper alloy
- Plating: 30µ" gold

2.00MM IDC, WIREMOUNT MINI-CLAMP CONNECTORS - 371 AND 373 SERIES

Specifications:
- Flammability: UL94V-0
- Body Color: Black
- Contact Material: Copper Alloy
- Insulation Material: Nylon body, Polycarbonate cover
- Current Rating: 3.0 A
- Voltage Rating: 32 V
- Temperature Rating: -20°C to 85°C

Features:
- Operation by general tool "pliers" reduces tooling cost
- Latch enables rugged field termination

Applications:
- Clinical Labs
- Gaming Machines
- Controller for LED displays
- Homeland Security
- X-Ray Machines
- Communication Networking Equipment

For quantities of 200 and up, call for quote.

2.00MM BOARDMOUNT MINI-CLAMP SOCKET CONNECTORS - 372 SERIES

Specifications:
- Flammability: UL94V-0
- Color: Black
- Contact Material: Copper Alloy
- Insulation Material: Nylon
- Current Rating: 3.0 A
- Temperature Rating: -20°C to 85°C
- Voltage Rating: 32 V

Features:
- Mates to 371 Series Plugs
- Straight Solder Tails
- Kinked contact pins for board retention.

For quantities of 200 and up, call for quote.

.100" 4 POSITION IDC LINK CONNECTORS - 381 AND 382 SERIES

Specifications:
- Unshielded
- Flammability: UL94V-0
- Contact Material: Copper Alloy
- Current Rating: 5.0 A
- Voltage Rating: 160 V
- Temperature Rating: -20°C to 70°C

IDC Wiremount, Hermaphroditic Features:
- Per CC Link Association specification
- Can be used for bussing or terminating
- Latching mechanism for both in-line and to PC board
- Insulation Material: Polyester (PBT) body, Nylon cover

Boardmount Features:
- Mates with 38104 wiremount Link connector
- Board retention for 1.0 and 1.6 mm thick boards
- Insulation Material: Glass filled Polyester (PBT)

For quantities of 200 and up, call for quote.

CUTTING TOOL KIT

MOUSER STOCK NO.	AMP Part No.	Description	Price Each
571-314818-1	314818-1	Cutting Tool kit; includes Pistol Grip Ratchet handle, a locator, a cutting head (with blades and a stored set of 2 extra blades), a hex wrench and case.	419.30

P-LATCH NOVO CONNECTORS

ures:
es with .025" square or round pin, .245" max. post length
for fast, economical mass termination
ng fork contact offers a military approved
gn at an economical cost

Specifications:
- Current rating: 1A per contact max.
- Insulation resistance: 5000MΩ min.
- Termination resistance: 15mΩ max.
- Operating temperature range: -65°C to +105°C

ter / Military Polarized Receptacles

For quantities of 500 and up, call for quote.

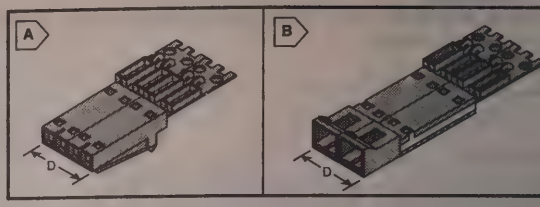
AMPMODU™ MTE Interconnection System

Material and Finish:

- .100" 2.54mm centerlines
- Housing: Black thermoplastic, UL94V-0 rated
- Contacts: Phosphor Bronze, plated as follows:

Plating Code:

A: Duplex plated .000030 (0.00076) gold on contact area, .000050 (0.00127) min. tin-lead in crimp area, with entire contact underplated .000050 (0.00127) nickel.
B: Duplex plated .000015 (0.00038) gold on contact area, .000050 (0.00127) min. tin-lead in crimp area, with entire contact underplated .000050 (0.00127) nickel.
C: .000100 (0.00254) bright tin-lead over .000050 (0.00127) nickel on entire contact.



Insulation displacement contacts accept an insulation diameter of .030 (0.76) min. to .054 (1.37) max. with an insulation wall thickness of .015 (0.38) max. Mating post length for preloaded housings is .200 (5.08) min., .250 (6.35) max.

MTE Receptacle Assemblies - Strip Form, Polarized/Latching, Single-Row, 26-22 AWG Wire

- Mates with Polarized/Latching Headers as well as Polarized/Latching Pin Assemblies.

The AMPMODU MT Interconnection system offers labor and cost savings through mass termination technology, while maintaining the time-proven reliability of the AMPMODU product family. The MT system is comprised of preloaded, double-row receptacle assemblies with snap-on covers and a variety of shielding hardware and accessories. The IDC, features a mating interface that is the same as the conventional AMPMODU crimp, snap-in contact, featuring dual cantilever beams, built-in overstress protection and a completely enclosed box design.

RECEPTACLE ASSEMBLIES, DOUBLE-ROW .100" X .100" CENTERLINE

Housings Preloaded with Standard Pressure Contacts

Material and Finish:
- Housing: Black Thermoplastic, flame retardant
- Contacts: Copper alloy, duplex plated .000030 (0.00076) gold on contact area, .000050 (0.00127) min. tin-lead in crimp area, with entire contact underplated .000050 (0.00127) nickel.
- Cable Insulation Diameter: .050 (1.27) max.
- Mating Post Length: .222-.273 (5.64-6.94) max.
- Stamped Housings: Cavity identification - first cavity (one side); AMP part no. and date code stamped on housing where size permits.

For quantities of 500 and up, call for quote.

26 AWG - Blue
28 AWG - Green

- Strain Relief Covers: UL94V-0 rated, thermoplastic, black
- Housing: UL94V-2 rated, thermoplastic
- Housing Contacts: Phosphor bronze; .000100 [0.00127] min. nickel; mating end: .000100 [0.00254] min. tin-lead
- Headers:
  Housing: UL94V-0 rated, thermoplastic, black
  Contacts: Brass, .000100 [0.00254] min. tin-lead over .000050 [0.00127] min. nickel on solder legs; mating end: .000100 [0.00254] min. tin-lead

D-THRU RECEPTACLE ASSEMBLIES - RIBBON CABLE

or assembly consists of Receptacle Assembly and Strain Relief Cover

For quantities of 50 and up, call for quote.

AMP MTA .100" Series IDC Connectors

Specifications:
- Voltage rating: 250VAC
- Current rating: 4 Amp max.
- Low-level resistance: 5mΩ max. Initial
- Operating temp.: -55°C to +105°C
- Dielectric withstanding Voltage: 750VAC/1Min.
- Insulation resistance: 5000MΩ min. initial

File No. LR7189

File No. E28476

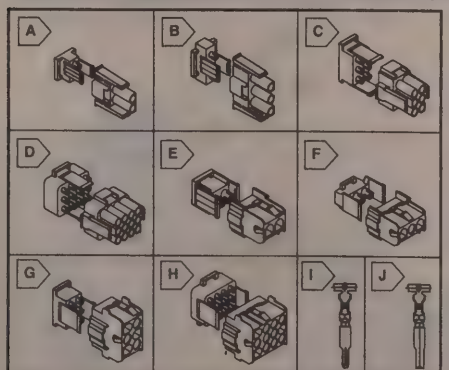
UNIVERSAL MATE-N-LOK II CONNECTORS



AMP MATE-N-LOK II Connectors offer the ultimate reliability in a softshell connector. They are designed for use where repair or replacement would difficult. Available in 2-15 circuit sizes for free hanging or panel mount applications. Connectors consist of a front and rear housing section. Contact are enclosed for shock protection. Terminals use "F" crimp termination.

MP Universal Micro Mate-N-Lok 3.00mm Connector System

tyco Electronics

rm factor for space considerations
d reliability and normal force
or SMT processing
s for proper mating of housings

Features:
- 3mm Pitch
- Dual Beam Contact Design
- Wire-to-Board connector system

Specifications:
- Housing: Nylon, Black, UL94V-0
- Contacts: Brass (Plug); Phosphor Bronze (Receptacle)
- Voltage Rating: 250V
- Current Rating: 5A max.
- Contact Resistance: 20 m max.
- Temperature: -40°C to +105°C

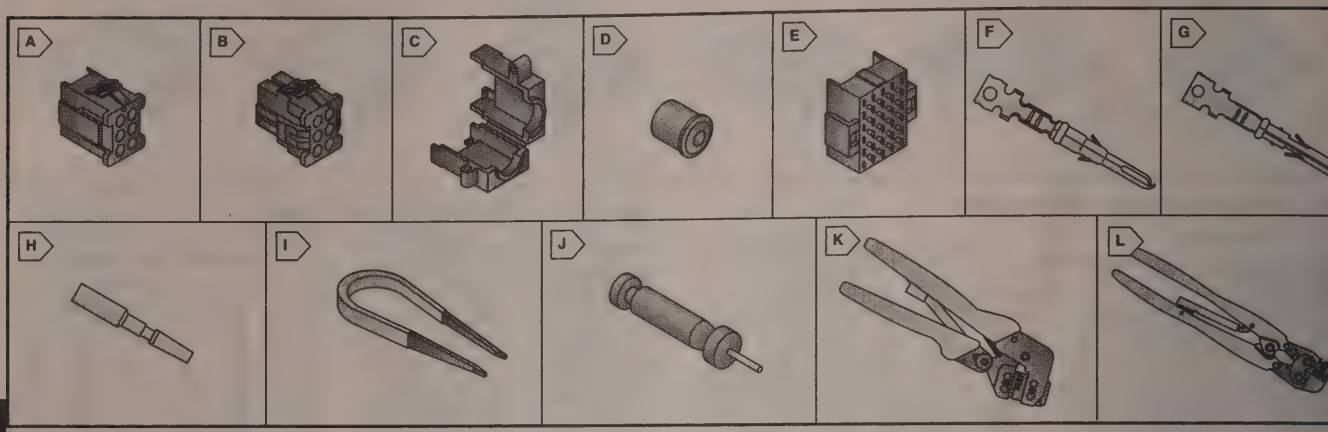
AMP (MR) Miniature Rectangular Connectors

tyco Electronics

The (MR) Series connector family consists of UL94V-0, soft shell nylon housings, contacts, strain reliefs, and PCB headers. Housings lock to prevent accidental disengagement and are designed for free-hanging or panel mount applications. Socket housing utilize an egg crate design, fully enclosing socket contacts reducing shock hazard. High density design is achieved through .165" contact centerline spacing.

Features:
- Positive lock design
- Protected contacts reduce shock hazard
- Polarized for proper mating
- Numbered cavities simplify circuit identification

Specifications:
- .165" contact centerline spacing
- 26-18AWG wire size
- UL94V-0 flammability rating
- UL Recognized, CSA Certified



AMP PIN HOUSINGS (CAP)

- .165" Centerline Spacing
- UL94V-0
- Free Hanging or Panel Mount
- Nylon, Natural Color - Brick Red

(Order contacts separately) **For quantities of 2000 and up, call for quote.**

DIMENSIONS

VERTICAL RECEPTACLES FOR PARALLEL BOARD STACKING

AMP 0.8mm FH surface mount connectors are designed for parallel board stacking applications using subminiature connectors to meet today's electronic industry requirements for high density packaging. It is possible to save more than 50% of the required board space when compared to conventional 1.27 [.050] centerline connectors.

Features:

- Preloaded with unique bellows-type spring contacts for reliable electrical connection with plugs
- Board stacking heights from 5mm [.197] to 16mm [.630] (in 1mm [.039] increments)
- Mates with Plugs-Series 177984, 179029, 179030 and 179031
- Surface mount solder leads permit fast assembly operation

Applications:

- Notebook PCs
- Pen Pads
- Cellular Telephones

Specifications:

- Voltage Rating: 100 VAC
- Current Rating: 0.5 ampere
- Contact Resistance: 30 milliohms max.(initial)
- Dielectric Withstanding Voltage: 500 VAC (1 minute)
- Operating Temperature: -40°C to +85°C (including terminal temp rise)
- Housing: High temperature thermoplastic, natural color, UL94V-0
- Contacts: Beryllium copper duplex plated 0.00020 [.000008] min. gold on contact area, 0.00100 [.000039] min. tin-lead on solder area, with entire contact underplated 0.00130 [.000051] min. nickel
- UL File No. E28476

For quantities of 200 and up, call for q

WIRE-TO-BOARD CONNECTOR SYSTEM

AMP Economy Power connectors are designed for secondary power circuit applications. They consist of wire-to-pc board plug housings (for receptacle contacts) and mating post headers. During mating, the positive locking lever on the outside of the plug housing engages the mating header housing to provide for greater retention.

Features:
- .156" centerline
- Hooded contact designed to accept wire with insulation diameters up to .118"
- Positive locking feature built into header back wall
- Locking mechanism on connector housing maximizes retention
- Polarization tabs help prevent post misalignment and mismating
- Low-profile mating height of .641"

E28476

Specifications:
- Voltage Rating: 250 VAC
- Current Rating: 7.5 amp max. (2 to 12 pos.) 8 amp max. (1 pos)
- Durability: 50 mating and unmating cycles
- Operating Temperature: -25°C to +105°C
- Wire Size Range: 18-22 AWG

LR7189

Plug Housings

Material and Finish:
- Housing: UL 94V-0 rated nylon, natural color

ModICE offers a high quality sealed electro-mechanical interface and is rated IP67 and IP69.
Ideal for use in On/Off highway vehicles, agricultural, construction or material handling equipment and other specialty applications.

Features:

- Rugged connector enclosure system
- Header suited for wave and reflow soldering
- Header modularity allows for various designs (Coax, Power I/O, etc.)
- Heat Sink Option
- Ferrite Filtering Option
- Interfaces with Cinch SHS, industry standard harness connectors
- Simple Assembly
- Headers are preinstalled with contacts
- Measurements: SE: 6.030" (153.2) x 5.300" (134.6)
  LE: 7.450" (189.2) x 6.800" (172.7)

Materials:

- Enclosure: Glass filled polymer
  Glass filled, high temperature, polymer
- Terminals: Brass. Post Tin plated. Seals: Silicone

SHS HARNESS CONNECTORS

To configure harnesses to mate with the headers, please add the total positions of each harness in combination to match the number of positions of the header.
For example :
One 18 position harness, 538-581-01-18-023 and one 30 position harness, 538-581-01-30-028 are to be used to mate with the 48 position I/0 header.
One 30 position harness, 538-581-01-30-028 and one 30 position Alternative Key harness, 536-581-01-30-029 are to be used with the 60 pos I/O header.

For quantities of 10 and up, call for quote.

NOFLEX IDC CONNECTORS

FLEX is the new standard for high density IDC interconnect systems. It offers the proven reliability and the economy of termination while reducing the occupied space to half the size. NANOFLEX reliably connects up to 100 positions g .025" conductor center ribbon cable.

anical Specifications:

ecognized
lator material: glass filled polyester, blue, UL94V-0
tact material: cable mount (NFS & NFT)-beryllium per board mount (NFH, NFHL ,& NFVS)-phosphor bronze
tact plating: cable mount (NFS)-12µ" gold board mount H, NFHL ,& NFVS)-contact area-12µ" gold/tail -100µ" tin/lead
ommended wire size: 30AWG .025" center ribbon cable re applicable)

Electrical Specifications:

- Current rating: 0.5A
- Voltage rating: 500VAC for 1 minute
- Insulator resistance: >1000MΩ
- Contact resistance: 20MΩ (where applicable)

Socket

inates to .025" center cable

DELPHI Connection Systems — HERMAPHRODITIC 0.80MM BOARD-TO-BOARD SMT CONNECTORS

Two rows of contacts on 0.80mm pitch. Hermaphroditic feature allows use of same part on both boards.

- Mounting Style: SMT
- Housing Color: Black
- Contact Plating Area: Gold over Nickel
- Contact Type: Blade-On-Beam
- Solder Process: IR, Vapor Phase, Wave
- Housing Material: LCP, 30%GF, UL 94V-0
- 6.0mm Width

For quantities of 500 and up, call for quote.

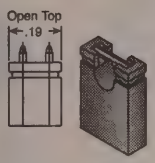
KOBICONN — SHORTING JUMPERS

- Fits all standard .100" space headers
- Low insertion and withdrawal forces
- Nail grip for easy removal
- Phosphor bronze gold flash over nickel
- Open-ended option permits stacking and probe testing
- Operating temperature: -65°C to +150°C



For quantities of 2000 and up, call for quote.

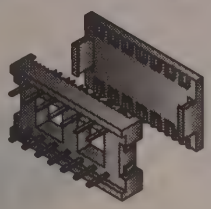
KOBICONN — IDC DIP FLAT CABLE PLUGS

DIP plug connectors are ideal for board-to-board or MPU emulation. Ribbed and grooved for positive cable positioning. They provide a low cost interconnect with excellent contact reliability.



Features:
- IDC mass termination
- Gold plated contacts
- Mates with .050" flat cable

Specifications:
- Current rating: 1A
- Insulation resistance: $10^{10}\,\Omega$
- Breakdown voltage: 500VDC
- IDC wire size: 28 AWG/.050" Spacing

For quantities of 1000 and up, call for quote.

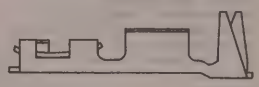
FCI BERGCON® CRIMP-TO-WIRE MINI-PV™ RECEPTACLES

Mate to .019" and .025" round or square pins. Dual-metal contact design provides constant retention force after repeated cycles. These female receptacles have beryllium-copper spring and brass body and offer superior electrical and mechanical characteristics. Standard spring force is recommended for use in Mini-Latch housings 40-72 positions. High spring force for Mini-Latch housings 10-50 positions. Reel versions are available.

* 1 = 30μ" gold over nickel with gold flash
2 = 15μ" gold over nickel with gold flash
3 = 100μ" tin-lead
4 = 40μ" gold over nickel with gold flash



For quantities of 2000 and up, call for quote.

QUICKIE™ IDC VERTICAL 4-WALL SLIMLINE HEADER 2.54 X 2.54 MM (.100" X .100")

Shrouded Headers

Specifications:

- Housing material: Glass-filled thermoplastic polyester
- Housing style: Low-profile
- Board thickness: 3.18mm (0.125")
- Contact area plating: 0.76 µm (30 µin) GXT™ or 0.76 µm (30 µin) gold
- Tail length: 3.81mm (0.150 in)
- Color: Blue
- Round pins
- Insulation resistance: 100,000 MΩ
- Withstanding voltage: 1000 VAC rms
- Current rating: 3A continuous
- Temperature range: -65°C to + 125°C
- Mounting vertical: Thru-mount
- Mating data: All Quickie™ receptacles, select discrete wiring mini-latch housings

For quantities of 200 or more, call for quote.

QUICKIE™ II IDC DUAL-BEAM RECEPTACLES 2.54 X 2.54 MM (.100" X .100")

Round Conductor, Flat Cable IDC Connectors

Specifications:

- Housing material: Glass-filled thermoplastic polyester
- Contact area plating: 0.76 µm (30 µin) Gold
- Color: Blue
- Insulation resistance: 50,000 MΩ
- Withstanding voltage: 1000 VAC rms
- Current rating: 1A continuous
- Temperature range: -65°C to + 105°C
- Contact resistance: 15 mΩ max
- Mating data: Mates with 0.64mm (0.025 in) square or round pin from 4.32mm (0.170in) min to 6.35mm (0.25in) max. A nominal 5.84mm (0.23in) is recommended.
- Dual wire entry
- Double-scalloped cable slot assists accurate positioning of the cable over the contacts

For quantities of 200 or more, call for quote.

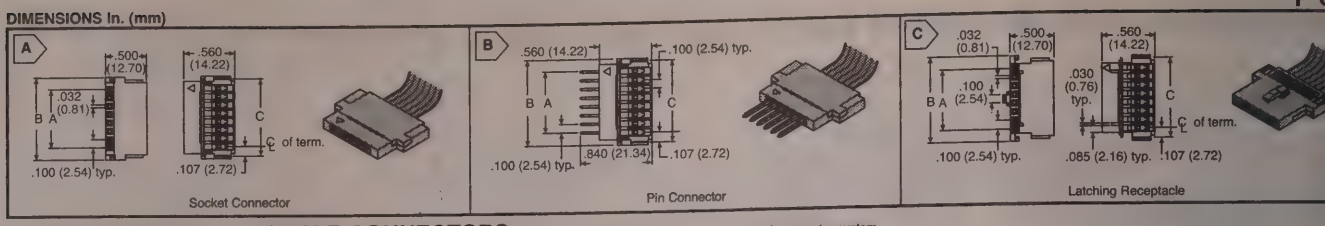
DIMENSIONS In. (mm)



FCI CLINCHER™ FLAT CABLE CONNECTORS

Single row high performance .100" (2.54mm) connector system

Features

- Terminates flat flexible cable or flexible etched circuitry for wire-to-board or board to board applications
- Headers offer passive latching and end polarization
- .30" standoffs aid in PCB cleaning
- Mates with .025" (.635mm) square or round pins on .100" (2.54mm) centers
- Dual metal PV contacts provide excellent electrical and mechanical performance.
- Receptacles are mass terminated without cable stripping
- Receptacles contact is highly reliable
- Mounting: PCB straight
- Pins are made from Drawn wire
- Clinching portion of contact forms gastight crimp to prevent contamination

Specifications:

- Receptacle housing: polypropylenet (UL94V-0)
- Header housing: LCP (UL94V-0)
- Color:
  Receptacle:blue
  Header: black
- Temperature range:
  Receptacle: -65°C to +105°C
  Header: -55°C to +130°C
- Header pins: phosphor-bronze
- Insulation resistance: 5 MΩ
- Contact resistance (receptacle): 15 MΩ
- Receptacle contact: copper alloy
- Current rating (receptacle): 2.0 amps
- Withstanding voltage: 1,000 V AC rms

Socket Connectors (Female)

For quantities of 200 and up, call for q

FCI

RGSTAK® 0.8MM HIGH DENSITY, BOARD-STACKING CONNECTORS

or applications such as Mobile Phones, PDA's, Pagers, Digital Cameras, Servers, and Office Equipment.
sted do not have vacuum pickup cap.

ifications:
sing Material: LCP
tact Base Material: Copper alloy
tact Area Plating: 8µ" (.20µm) gold
tact Underplating: 50µ" (1.27µm) nickel
perature Range: -40°C to + 85°C
lation Resistance: 500MΩ min. (initial), 100MΩ min. (after test)
tact Resistance: 30MΩ max. (initial), 50MΩ max. (after test)
ent Rating: 0.5A
age Rating: 100VAC

Features:
- Parallel board-to-board interconnects
- Surface mount
- Blade-on-beam contacts allow "peeling" and prevent "stubbing"
- Polarization peg

For quantities of 200 or more, call for quote.

EXPRESS™ 1.00MM PITCH VERTICAL CARD EDGE CONNECTORS

press™ is a trademark of PCI-SIG.

10018783 suitable for reflow soldering
plications in desktops and servers using PCI Express™ technology.

fications:
ing Color & Material: Black, high temperature
, glass-filled, UL94V-0
act Material: Copper alloy
r Area Plating: 2.54µm (100µ") tin over 1.27µm (50µ") nickel
bility (mating cycles): 50
ation Resistance: 1000MΩ
standing Voltage: 300VAC
nt Rating: 1.1amps for 7 specified power contacts and 7
set ground contacts
act Resistance: 30mΩ max. (initial) with 10mΩ max. change
exposure testing
perature Range: -40°C to +85°C

Features:
- Used to enable the implementation of high-speed, serial PCI Express™ architecture
- Each serial link supports 2.5 Gps (per direction)
- Through-mount tail length options for use on 1.58mm (.062") or 2.36mm (.093") thick motherboards

For quantities of 200 or more, call for quote.

CONAN™ 1.00MM (.039") HIGH DENSITY MEZZANINE STACKING CONNECTORS

Features:

- Low-profile, surface-mount connectors for parallel board stacking
- 0.38um PdNi with gold flash finish in contact area; contacts on1mm (.039") spacing
- Robust high retention connection performs well in mobile applications
- Current rating: 1 amp per contact
- Options for 4.5mm and 5.0mm stack heights are also available
- Tube-packaged options are listed; tape-on-reel packaging is also available

Vertical Receptacles with Orientation Posts

For quantities of 200 and up, call for quote.

DUBOX™ .100" VERTICAL PCB MOUNTED RECEPTACLE ASSEMBLIES LOW PROFILE, THRU-MOUNT

Features:

- Top entry PC board mount receptacles can be stacked side-by-side on .100" centerlines
- Preloaded dual cantilever beam phosphor bronze contacts plated with 30µ" gold in contact area
- 100µ" tin-lead in solder area and 50µ" nickel underplated overall
- Solder tail length: .115"
- Molded housings: Rated UL 94V-O, feature beveled "lead-in" ramps to prevent pin-stubbing
- Mate with .025" square pins

For quantities of 500 and up, call for quote.

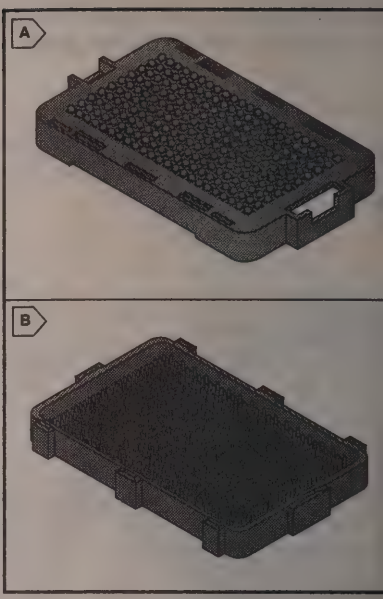
MEG-ARRAY® HIGH-SPEED BOARD STACKING CONNECTORS

Connectors sizes span 100 to 400 contact positions at stack heights from 4mm to 14mm at data rates up to 10 Gb/s. Add plug and receptacle contributions shown in table to determine the resultant mated height. Connectors utilize Ball Grid Array (BGA) technology for compatibility with SMT reflow soldering process.

Specifications:

- Housing Material: LCP
- Contact Material: Copper Alloy
- Durability (Mating Cycles): 50
- Current Rating: 0.45A per contact at 30°C rise



For quantities of 200 and up, call for quote.

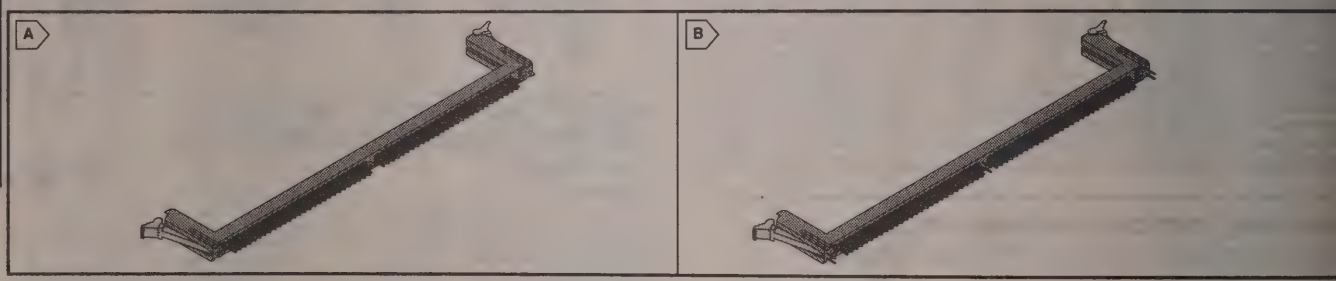
* Au over Ni with special contact geometry to meet requirements of Teleordia GR-1217.

MEMORY SOCKETS FOR DDR2 MEMORY MODULES

Vertical sockets accept DDR2 (Double Data Rate 2) memory module assemblies per JEDEC MO-237 to allow convenient memory expansion in desktop PC's, servers, and communication equipment.



Features:

- 240 Positions
- Centerline Spacing: 1.00mm (0.039 in.)
- Orientation: Vertical
- Voltage: 1.8V
- RoHS Compatible

Specifications:

- Plating:
  - Contact: 15µ" Gold
  - Solderfail: 100µ" Tin
  - Underplate: 50µ" Nickel
- Housing Material: Thermoplastic (UL94 V-0)
- Contact Base Metal: Copper Alloy
- Current Rating: 0.5 Amps @ 30°C rise
- Durability (Mating Cycles): 25 Mating cycles per EIA 364

For quantities of 200 and up, call for qu

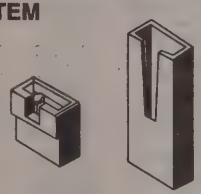
LOW-PROFILE SHUNT JUMPER SYSTEM

Economical, stackable jumper systems are applicable for bussing, programming and switch replacement. Standard two-position for .100" centers. Low-profile shunt stands .200" above PC board; high-body shunt stands .360" above PC board. Dual-beam, phosphor-bronze contacts, and black glass-filled thermoplastic polyester housing, rated UL94V-0. Shunts mate with .025" square and round pins.



For quantities of 2000 and up, call for quote.

BERGCON® SYSTEM MINI JUMP SHUNTS

- 1 Row: 2 Positions
- Reliable cost-effective alternatives to switches for on-board programming
- PV contacts have beryllium-copper springs to provide high retention and normal forces for excellent electric performance after repeated cycle
- Stackable on 2.54mm (0.100") centers
- Closed top protects fingertips during application, but can be opened for inspection and testing
- Mates with .025" square or round pins

Specifications:

- Housing: Thermoplastic polyester UL94V-0, Blue
- Contact: Body Material: Brass; Spring Material: Beryllium-copper
- Current rating: 3 A max per contact
- Temperature rating: -55°C to +120°C

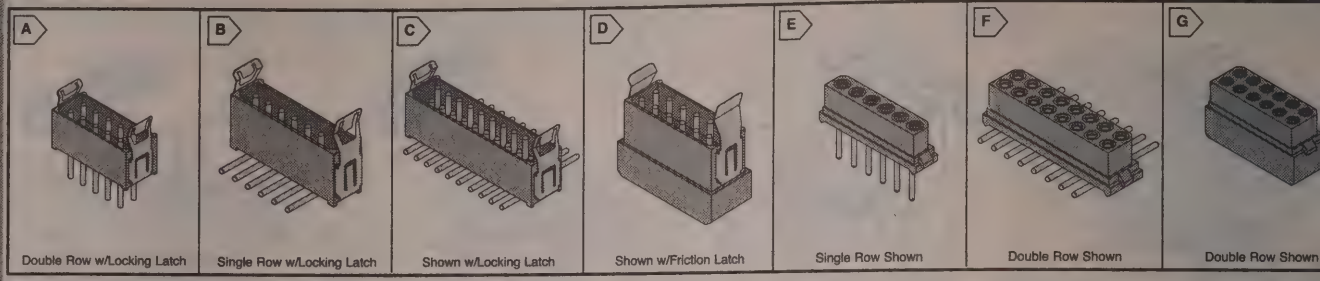
HARWIN 2mm High Reliability Datamate Connectors

HARWI

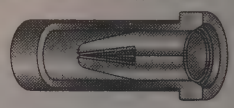


Double Row w/Locking Latch | Single Row w/Locking Latch | Shown w/Locking Latch | Shown w/Friction Latch | Single Row Shown | Double Row Shown | Double Row Shown

2MM HIGH RELIABILITY DATAMATE CONNECTORS

Features:
- All male connectors mate with all female connectors on this page.
- Professional connector system at commercial prices
- Ideal for COTS applications
- Proven history in Mil/Aero applications
- Environmental Classification -55°C / 125°C / 56 days at 95% RH
- Complies with BS9525-F0033/Mil C 55302/CECC 75101-008
- Proven performance in high vibration applications
- Mouldings: Glass-filled thermoplastic UL94V-0
- Female Contacts: Brass shell, with 4 finger beryllium copper contact
- Male Contacts: Phosphor bronze
- Contact resistance: 20 milliohms max.
- Insulation resistance: 100 Megohms min at 500V d.c.
- Durability: 500 operations

Four Finger Beryllium Copper Contact



Current rating 3.0 amps per contact

Male PC Tail Connectors - Vertical

Features:
- Gold/Tin Plating
- Fully shrouded contacts
- Polarized mouldings

For quantities of 100 and up, call for quote.

HARWIN 2mm High Reliability Datamate Connectors

HARWiN

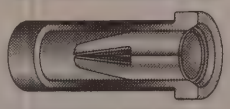
M HIGH RELIABILITY DATAMATE JACKSCREW CONNECTORS

ures:

- fessional connector system at commercial prices
- al for COTS applications
- ven history in Mil/Aero applications
- ironmental Classification: -55°C / 125°C / 56 days at 95%RH
- nplies with BS9525-F0033/Mil C 55302/CECC 75101-008
- uldings: Glass-filled thermoplastic UL94V-0

- Proven performance in high vibration applications
- Female contacts: Brass shell with 4 finger beryllium copper contact
- Male contacts: Phosphor bronze
- Contact resistance: 20mΩ max.
- Insulation resistance: 100MΩ min. at 500VDC
- Durability: 500 operations

Four Finger Beryllium Copper Contact



Current rating: 3.0 amps per contact

e PC Tail Jackscrew Connectors

- y shrouded contacts
- arized mouldings
- Jackscrews are assembled
- 3mm PC Tail length
- Double row
- Mate with female PC Tail and Crimp connectors below
- Gold/Tin plating

For quantities of 100 and up, call for quote.

JAE FF02 SERIES 0.30MM SMT FPC CONNECTORS

- Low profile 1.2mm above board
- Highly reliable mating structure
- FPC type: 0.3mm pitch, 0.12mm thickness with reinforcement
- RoHS Compliance per JAE documentation

For quantities of 500 and up, call for quote.

JAE FB1 SERIES 0.30MM SMT FPC ZIF CONNECTORS

- Single side bottom contact with FPC
- FPC is detached easily by a single hand
- Low profile 1.2mm above board
- RoHS Compliance per JAE documentation
- FPC type: 0.3mm pitch, 0.15mm thickness with reinforcement

For quantities of 500 and up, call for quote.

JAE IL-FHJ SERIES 0.30MM SMT FPC ZIF CONNECTORS

- Makes contact with FPC on the lower face
- Rotary slider can be operated by one hand
- Low profile 2.0mm above board
- RoHS Compliance per JAE documentation
- FPC type: 0.3mm pitch, 0.2mm thickness with reinforcement

For quantities of 500 and up, call for quote.

JAE WR SERIES 0.50MM LOW PROFILE SMT PCB CONNECTORS

- For connection between parallel boards spaced 4 to 9mm
- Ribbon type contacts ensure reliable electrical continuity, resisting twisting force of coupling
- RoHS Compliance per JAE documentation
- Current Rating: 0.3Amps
- Operating Temperature: -40° to +85°C

For quantities of 500 and up, call for quote.

IL-312 SERIES 0.50MM LOW PROFILE SMT PCB CONNECTORS

onnection between parallel boards spaced 2.5 to 3.5mm
heat resistant insulators
cts: Copper Alloy
nt Rating: 0.3Amps

- RoHS Compliance per JAE documentation
- Operating Temperature: -40° to +85°C
- For use in applications that require boards to be stacked

For quantities of 500 and up, call for quote.

JAE FI-X SERIES 1.0MM PCB TO CABLE CONNECTORS FOR FPC

- Improved ground condition which is directly related to EMI characteristics
- Compatible with high-speed differential transmission and high-level impedance matching (90 to 100 ohms)
- RoHS Compliance per JAE documentation
- Bottom type structure provides 1.5mm (.059") connector height and 1mm (.039") height above the PCB
- Current Rating: AC/DC 1 Amp per contact

For quantities of 500 and up, call for quote.

JAE IL-Z SERIES 1.25MM SMT PCB TO CABLE CRIMP CONNECTORS

- Low Profile, 3.45mm above board
- Pin headers suited for automatic packaging
- Crimp to wire sockets
- Operating Temperature: -40° to +70°C
- RoHS Compliance per JAE documentation
- Current Rating: 1 A
- AWG Range: 28-30
- Crimp contacts sold separately

For quantities of 500 and up, call for quote.

JAE DG1 SERIES INTERFACE CONNECTOR CONFORMING TO INFINIBAND STANDARD

- Conform to *IBTA Cooper Cable Standard 4x,12x
- Enables high-speed transmission of 5Gbps or more
- RoHS Compliance per JAE documentation
- RoHS Compliance per JAE documentation
- Receptacle can be mated to panel using one-touch clip, eliminating need for any other tool
- Receptacle with wide nozzle attachment area enables automatic mounting

* IBTA/InfiniBand Trade Association

For quantities of 500 and up, call for quote.

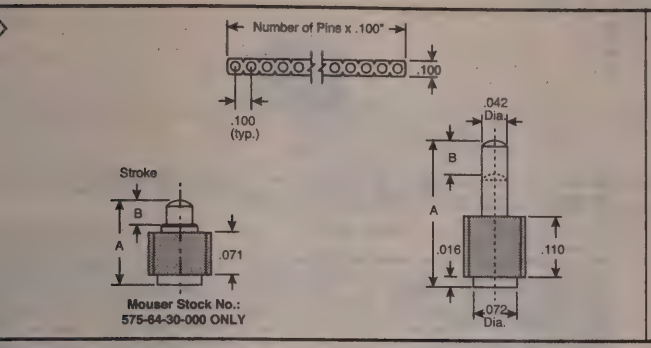
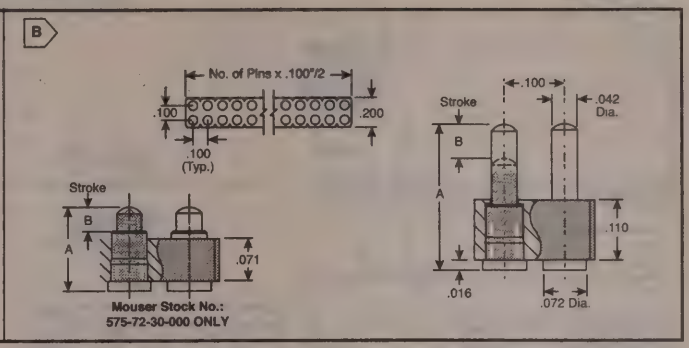
MOUSER ELECTRONICS a ttl company (800) 346-6873





0" SPRING LOADED SURFACE MOUNT CONNECTORS

DIMENSIONS IN.

ures:

- ular contacts for use on .100" grid, available in lengths from .137" to .295",
- lable in single and double row contact strips
- cision machined piston/base and gold plated components assure a 100,000 min. cycle life
- ons have a long stroke relative to the low profile of the assembly
- Low resistance, high current contacts are rated at 2 amps continuous, 3 amps peak
- High temperature thermoplastic insulators are suitable for surface mount processes
- A typical application would be as the base unit (battery/charger) interface for portable equipment such as mobile phones/radios

rials:

tact Piston & Base: Machined copper alloy plated 20µ" gold
ng: Beryllium copper plated 10µ" gold
lator: High temp. thermoplastic rated UL94 V-0

Mechanical Specifications:

- Spring Force @ initial height (A) 25 grams
- Spring Force @ mid stroke (B/2) 60 grams
- Spring Force @ full stroke (B) 95 grams

Electrical Specifications:

- Voltage Rating: 100Vrms/150Vdc
- Current Rating: 2A (continuous), 3A (peak) per contact
- Contact Resistance: 20mΩ max.
- Insulation Resistance: 10,000MΩ max.
- Dielectric Strength: 700Vrms min.
- Capacitance: 1pF max.

gle Row - Series 811

For quantities of 1,000 and up, call for quote.

DIMENSIONS mm (IN.)

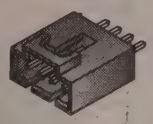
MOLEX 2.54mm (.100") SL™ and C-Grid® Headers

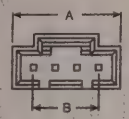
.100" (2.54mm) SL™ PCB HEADERS - SHROUDED

Single Row, Vertical

Specifications:
- Housing: Black glass filled PCT, UL 94V-0
- Contact: Phosphor bronze, .025" square
- Operating Temperature: -40 to +105°C
- Voltage: 250V
- Current: 3.0A
- .120" Pocket

Features:
- Locking crown secures positive latch to header
- Standoffs minimize flux retention
- Polarization slots guide front ribs of mating connector to prevent pin damage
- Mates with series 70066
- Surface mount compatible
- Wire to board





LR19980 E29179

For quantities of 2000 and up, call for quote.

Single Row, Vertical, with Plastic TRI-PEG

Features:
- Locking crown secures positive latch to header
- Standoffs minimize flux retention
- Polarization slots guide front ribs of mating connector to prevent pin damage
- Mates with series 70066
- PCB locks hold header in place until permanently soldered
- Surface mount compatible

Specifications:
- Housing: Black glass filled PCT, UL 94V-0
- Contact: Phosphor bronze, .025" square
- Operating temperature: -40 to +150°C
- Voltage: 250V
- Current: 3.0A
- .120" Pocket

.100" (2.54mm) C-Grid® VERTICAL, BREAKAWAY HEADERS - DUAL ROW

Specifications:
- Housing: Glass-filled polyester, UL 94V-0
- Contact: Phosphor bronze
- Operating temperature: -40 to +105°C

Features:
- Stackable side-to-side and end-to-end (on unbroken edges)
- Easy breakaway to smaller sizes
- Drawn .025" square wire provides 4-sided smooth surface for quality interface
- Mates with SL crimp and IDT housings

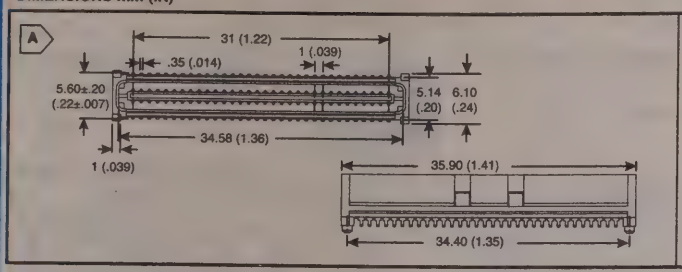
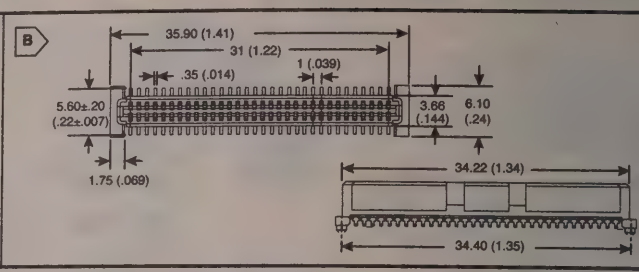
MOLEX Mezzanine Connectors

DIMENSIONS mm (IN)





1.0MM (0.039") MEZZANINE IEEE 1386 CONNECTORS BOARD-TO-BOARD, SURFACE MOUNT, VERTICAL

Molex's fully shrouded leaf-style design minimizes the chance of damaging plug contacts, and the receptacle contacts feature a low mating force, reducing PC board stress. Gold-over-Nickel contact plating enhances long-term reliability and UL 94V-0 LCP housings withstand SMT reflow processes. Excellent tolerance absorption allows the connector to be used in combinations of 1-4 mated pairs for up to 256 circuits.

Specifications:
- Voltage: 100V
- Current: 1.0A
- Contact Resistance: 30mΩ min.
- Dielectric Withstanding Voltage: 250V
- Insulation Resistance: 1000 Mø min.

Features:
- Housing: Glass-filled LCP, UL 94V-0
- Contact: Phosphor Bronze
- Plating: 30µ" Gold min.
- Operating Temperature: -55°C to +85°C
- Lead Free

Applications:
- Network Interface Cards for NIC-HBA
- SCSI Host Bus and Adapter Cards for NIC-HBA
- Board-to-Board Mezzanine Connectors for Switch-Router
- Mezzanine Card Connectors for Server
- Mezzanine Card Connectors for Disk Array

PLATEAU HS MEZZ™ CONNECTOR SYSTEM

Molex utilizes its proprietary Plateau Technology™ (plated gold housing) to provide a high-speed, high-density mezzanine connector system for differential and single-ended signal applications. The gold-plated plastic shields each differential pair from neighboring pairs, lowering crosstalk and improving signal clarity. Different stack heights and circuit sizes provide flexibility in design and grounding the conductive housing eliminates the need for individual ground pin designations within the connector. Engineered for high-speed signaling, Plateau HS Mezz™ has incredible signal integrity performance for today's designs as well as next gereration systems.

Specifications:
- Operating Voltage: 30VDC
- Current: 1.5A max. per circuit
- Operating Temperature: -55°C to +85°C
- Durability: 25 cycles

Features:
- Advanced gold-plated plastic housings with integrated shielding system
- Contacts on 1.20mm (.047") centerline pitch arranged in isolated differential pairs on 3.50mm (.138") pitch
- Two points of contact on each signal
- Molded and plated housing pegs
- Supports high-speed differential signaling in excess of 10Gbps with 100±10Ω impedance at 50 psec

Applications:
- Switches and hubs
- Routers
- Servers and blade servers
- Workstations
- Storage devices

MOLEX LFH™ and EBBI™ Connectors

LFH™ (LOW FORCE HELIX) CONNECTORS

The Low Force Helix (LFH) contact was designed for high-pin count signal applications where there is a need for reliability and performance. Designed for both cable-to-board and board-to-board applications, the system's low insertion forces make it ideal for situations where multiple single lines need to be terminated or packaged in a limited space.

Features:
- Matrix 50 contact layout is four rows on 1.27 by 1.27mm (.050 by .050") spacing
- Redundant contact points for long-term reliability
- High cycle life via controlled plating and contact surfaces
- Good electrical performance for high-speed applications

Applications:
- Mainframe Computers
- Mass storage
- Portable POS units
- Network Interface Cards
- Routers
- Switches

Specifications:
- Current Rating: 1.0A max
- Voltage: 40V max
- Withstanding Voltage: 500V AC
- Contact Resistance: 20 milliohms max
- Insulation Resistance: 100 Megohms min

EBBI™ 50D CONNECTORS

The Molex EBBI 50D series meets the market demand for low-cost, unshielded, high density, leaf-style connectors. Several configurations are available including vertical, right angle, and blind-mating to provide valuable design flexibility and expandability. Leaf-style terminals are arranged in two rows on .050" spacing within a polarized "D"-shaped housing for rugged mechanical protection. Housings are made of high-temperature, UL 94V-0 thermoplastic. Terminals are plated with 30 microinches min. gold in the mating area for long term reliability and durability. The IDT cable receptacle terminates to both .025" flat ribbon or laminated discrete-wire cable. A built-in polarizing key prevents mismating to the PCB card edge. The cable-gripping cover prevents cable pull-out and eliminates the need for an extra retention cover.

Specifications:
- Current Rating: 1.0A at 20° maximum temperature rise
- Voltage: 30V AC max
- Ambient Temperature: -40°C to 105°C
- Housing Material: Thermoplastic
- Flammability: UL94V-0
- Contact: Copper (Cu) Alloy
- Under Plating: Nickel (Ni)
- Durability: 500 cycles

ERLOCK™ 2.0mm (.079") PITCH SINGLE-ROW ONNECTORS WIRE-TO-BOARD

nally developed for PC monitor applications, this 2.0mm pitch system can also be for other applications that require space savings and secure locking features.

tures:
- w-profile compact design
- sitive locking ribs
- larizing guide wall
- w-insertion force terminal
- x-style contact design
- lly-shrouded header
- 0mm Pitch

Applications:
- PC Monitor
- TV
- VCR
- Printer
- Instrumentation
- Air Conditioner
- Vending Machine

Specifications:
- Voltage: 125V
- Current: 2.0A max.
- Contact Resistance: 20mΩ max.
- Dielectric Withstanding Voltage: 500V
- Insulation Resistance: 1000 MΩ min.
- Housings: Polyamide, UL 94V-0
- Operating Temperature: -40°C to +105°C
- AWG: 24-30

usings

ating Height: 7.2mm
ating Width: 5.8mm

MI-FIT JR.™ CONNECTORS

-wire and wire-to-board versions. The mated length of the wire-to-wire version is less than 1 3/8" while the wire-to-board version is less than 15/16". Despite it's small size it can handle the I/O currents of most standard equipment. re high density, high current power connectors.

ifications:
n: 4.2mm(.165")
ent: up to 9A
- Contact resistance: 10mΩ
- Voltage: 600V
- Housing: 6/6 nylon
- Temperature: -40 to +105°C

Features:
- Positive housing locks
- Fully isolated terminals
- Intermateable with Mini-Fit BMI, SMC, CPI
- Contacts sold separately

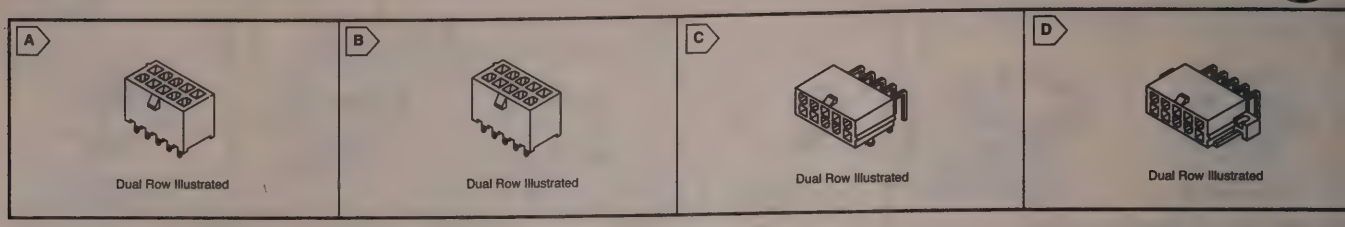
MOLEX Mini-Fit Jr.™ & Mini-Fit CPI™ Connectors



MINI-FIT JR.™ CONNECTORS

Wire-to-wire and wire-to-board versions. The mated length of the wire-to-wire version is less than 1 3/8" while the wire-to-board version is less than 15/16". Despite it's small size it can handle the I/O currents of most standard equipment. They are high density, high current power connectors.

Specifications:
- Pitch: 4.2mm(.165")
- Current: up to 9A
- Contact resistance: 10mΩ
- Voltage: 600V
- Housing: 6/6 nylon
- Temperature: -40 to +105°C

Features:
- Positive housing locks
- Fully isolated terminals
- Intermateable with Mini-Fit BMI, SMC, CPI
- Contacts sold separately

PCB Headers (Cont.)

- Contact Included

For quantities of 500 and up, call for quote.

MINI-FIT CPI™ COMPLIANT PIN INTERFACE HEADERS

Specifications:
- Pitch: 4.2mm (.165")
- Current: up to 8.0A max.
- Contact Resistance: 10mΩ max.
- Voltage: 600V
- Housing: 4/6 Nylon
- Temperature: -40°C to +105°C

Features:
- Press-fit pin requiring no soldering
- Blind mating vertical header
- Designed for multiple board thicknesses of .094" and greater
- Mates with 42385, 42474 and 5557 Series Receptacles

MINI-FIT, SR.™ CONNECTORS - 10.00MM (.393") PITCH

Features:
- High Current
- Fully polarized
- Positive Locks
- Low engagement force
- Wire-to-wire, wire-to-board
- Single Row

Specifications:
- Plating: Tin/Lead over Nickel
- Contact: Copper Alloy
- Receptacles/Plugs: Polyester, UL94V-0
- Headers: Glass-filled, 4/6 Nylon, UL94V-0
- Voltage: 600V
- Temperature: -40 to +105°C

For quantities of 1000 and up, call for quote.

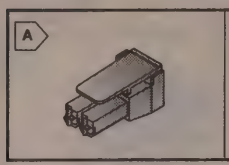
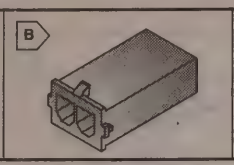
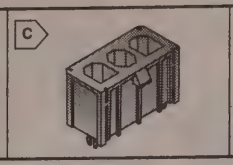
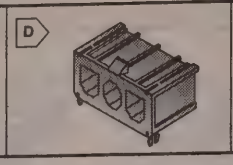
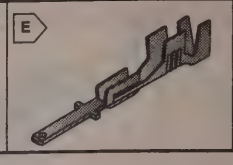
MOLEX 7.50mm Sabre™ & 5.08mm Disk Drive Connectors











7.50MM PITCH SABRE CONNECTORS-SINGLE ROW

The Sabre system is a robust power connector supplying up to 18 amperes for high current applications. Designed and patented by Molex engineers, Sabre standardizes manufacturing footprints by offering both wire-to-wire and wire-to-board configurations. The terminal is designed with a Terminal Position Assurance (TPA) feature that virtually eliminates terminal backout. Activation of the TPA feature is optional. The positive locking latch on the receptacle housing prevents accidental disconnection.

Receptacles

- Polarized housing assures proper mating
- Terminals are fully isolated in housing
- Housing: Nylon, UL94V-0
- Mates with: 43160 series header and 43680 series plug
- Temperature:-40° to +75°C
- Voltage: 1000V
- Current: 18.0A

For quantities of 1000 and up, call for quote.

Terminals

- Virtually eliminates terminal backout
- No secondary plastic parts needed
- Four points of electrical contact
- Accommodates single or double wire crimps
- Contact: Brass
- 43375: female
- 43178: male
- Voltage: 1000V
- Current: 18.0A max.
- Plating: Tin
- Female terminal mates with: 43160 series headers, 43680 series plug housing and 43178 series terminals
- Male terminal mates with: 43375 series terminal and 44441 series receptacle housing

For quantities of 1000 and up, call for quot

X150L™ CIRCUIT PLUG

the application of optional circuit plugs, the MX150L™ system supports the ability to implement sealed blank cavities in both plug and receptacle
ngs. The circuit plugs occupy and fully seal the unused cavity and can be extracted and replaced with a standard male blade or female receptacle
nal. This feature provides the ability to plan for possible future circuit additions while maintaining the sealing integrity of the mated pair.

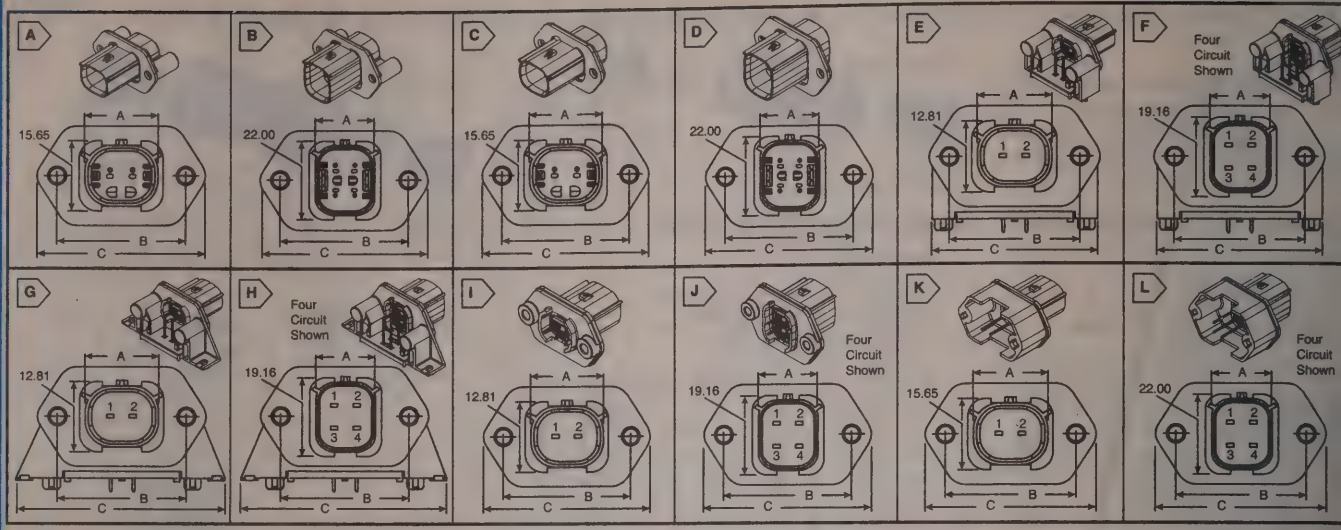
MOLEX MX150L Sealed Connector System

molex



The MX150L™ system from Molex is a rugged, environmentally-sealed connector system that supports both low-level signal applications as well as power applications up to 18.0A

DIMENSIONS: mm

Features:
- Pre-assembled connector housings, seals, TPA components and mat-seal cap shipped in one piece provide applied labor and cost savings
- Simple crimp, poke and plug application eliminates need to crimp individual wire seals
- Integral Terminal Position Assurance (TPA) assures that crimped terminal leads are properly locked into connector
- Easy terminal extraction and insertion provides quick, low cost field repairs using a common screwdriver, needle nose pliers and terminal extraction tool
- Environmentally sealed to IP67

Specifications:
- 5.84mm (.230") Pitch
- Housing: SPS Glass-filled Crystalline Polymer
- Operating Temperature: -40°C to +125°C
- Dielectric Withstanding Voltage: 1500V AC min.
- Insulation Resistance: 1000 Megohms
- Voltage: 600V

PANEL MOUNT PLUGS SINGLE AND DUAL ROW

- 2 Circuit Single Row

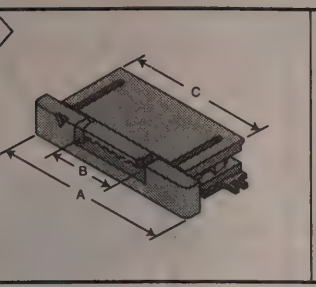
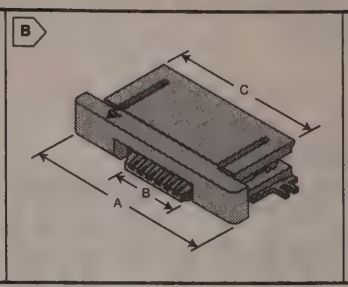
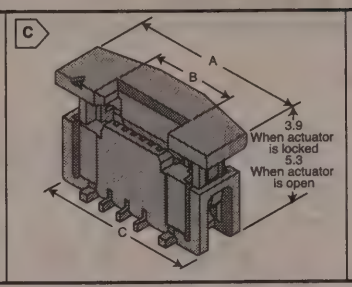
MOLEX FFC/FPC Connectors
(0.50mm)

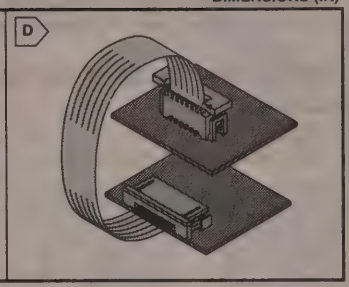
molex

DIMENSIONS (IN)









0MM (.020") PITCH FFC/FPC CONNECTORS

.30mm (.012") thick FFC/FPC.
solder tabs provide PCB hold-down and strain relief for SMT tails.
Zero Insertion Force

cifications:

tage: 50V
rrent: 0.5A
lectric Withstanding Voltage:
0V AC/1 min.

- Housing: 4/6 Nylon, UL 94V-0
- Actuator: PPS, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Phosphor Bronze, Tin plating
- Operating Temperature: -20 to +85°C

ht Angle, SMT, ZIF - Top Contact Style

For quantities of 500 or more, call for quote.

LOW PROFILE FFC CONNECTORS

Specifications:
- Housing: LCP Liquid Crystal Polymer
- Mated Height: 1.20mm (.047")
- Mated Width: 3.40mm (.134")

Features:
- Pre-hold cable feature keeps FPC in place while actuator is being closed
- Sturdy actuator allows for easy cable insertion
- Metal solder tabs provide PCB hold-down and strain relief for SMT tails

Right Angle, SMT, ZIF - Top Contact Style

For quantities of 500 or more, call for quote.

Specifications:
- Housing: LCP Liquid Crystal Polymer
- Mated Height: 1.20mm (.047")
- Mated Width: 3.40mm (.134")

Features:
- Pre-hold cable feature keeps FPC in place while actuator is being closed
- Sturdy actuator allows for easy cable insertion
- Metal solder tabs provide PCB hold-down and strain relief for SMT tails

Right Angle, SMT, ZIF - Bottom Contact Style

For quantities of 500 or more, call for quote.

MOLEX FFC/FPC Connectors
(1.00mm)

molex

DIMENSIONS In mm and (IN

1.00MM (.039") PITCH FFC/FPC CONNECTORS

For 0.30mm thick FFC/FPC. Metal solder tabs provide PCB hold-down and strain relief for SMT tails. ZIF: Zero Insertion Force.

Right Angle, SMT, ZIF - Top Contact Styie

Specifications:
- Voltage: 125V
- Current: 1.0A
- Dielectric Withstanding Voltage: 500V AC/1 min.
- Housing: 4/6 Nylon, UL 94V-0
- Actuator: PPS, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Copper Alloy, Tin plating
- Operating Temperature: -20 to +85°C

For quantities of 500 or more, call for quote.

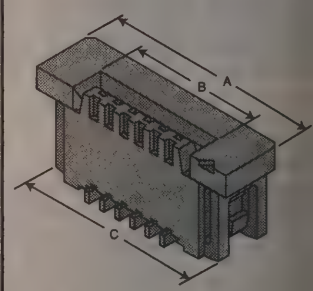
C



PREMO-FLEX™ FLAT FLEX CABLE JUMPERS

These jumpers are used to connect 2 PC boards and terminate to either ZIF or Non-ZIF FFC Connectors. Mates with any 1.00mm (.039") Pitch FFC/FPC Connector.

Specifications:
- Voltage: 30V
- Current: 1.2A
- Cable width: (No. of circuits + 1) x 1.00mm
- Exposed conductor length:4mm with 8mm reinforcement
- Temperature: -40 to +80°C
- Contacts on same side
- Conductor thickness: 0.10mm (.004")
- Conductor width: 0.70mm (.028")

For quantities of 500 or more, call for quote.

MOUSER ELECTRONICS a tti company

(800) 346-6873

OMRON FPC Connectors

OMRON ELECTRONIC COMPONENTS

MRON XF2B SERIES: SMT ROTARY BLOCK 0.3MM PITCH FPC CONNECTORS

tures:
ttom wall eliminates exposure of terminals
w on-board profile of 0.9mm
uble-sided contact - no need to distinguish
tween upper and lower FPC contacts during assembly.
der supplied in open position
PC held in a four-shrouded housing that prevents
placement as the slider is operated

Specifications:
- Rated current: 0.2A AC/DC
- Rated voltage: 50V AC/DC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating
- Applicable FPC thickness, t=0.2mm
- Reflow solderable, supplied on tape and reel

Applications:
- Personal computers
- Mobile phones
- PDAs
- Pagers
- Digital cameras
- LCDs

For quantities of 3000 and up, call for quote.

MRON XF2L SERIES SMT ZIF 0.50MM PITCH SLIDE-LOCK FPC CONNECTORS

tures:
nall footprint reduces space on board
p and bottom contact styles have identical dimensions, utilize the same PCB layout
efficiency
lor-coded slide identifies top and bottom contact versions to prevent mix-ups during
oduction (Bottom contact style - brown; Top contact style - black)

Specifications:
- Rated current: 0.5A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs
- Digital cameras
- LCDs

For quantities of 6000 and up, call for quote.

MRON XF2M SERIES SMT 0.5 MM PITCH ROTARY BACKLOCK FPC CONNECTORS

tures:
es 27% less mounting area than XF2H
uble-sided (upper and lower) contact structure enables component reductions
ort body depth of 5.9 mm with slider closed
flow solderable, supplied on tape and reel

Specifications:
- Rated current: 0.5A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs
- Digital cameras

For quantities of 3000 and up, call for quote.

MRON XF2N SERIES 0.5 MM PITCH
OW-PROFILE ROTARY BACKLOCK FPC CONNECTORS

tures:
reater freedom of board design with 0.9mm profile and bottom wall
uble-sided (upper and lower) contact structure enables component reductions
acklock mechanism makes FPC mounting significantly easier

Specifications:
- Rated current: 0.3A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs
- Digital cameras

For quantities of 6000 and up, call for quote.

MRON XF2R SERIES 0.5 MM PITCH
OW-PROFILE ROTARY BACKLOCK FPC CONNECTORS

tures:
PC insertion sensation greatly improved with 1.1mm FPC guide section
uble-sided (upper and lower) contact structure enables component reductions
ffective interface length for terminals increased to 1.4mm to ensure stability in
pplications with a lot of movement

Specifications:
- Rated current: 0.3A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs
- Digital cameras

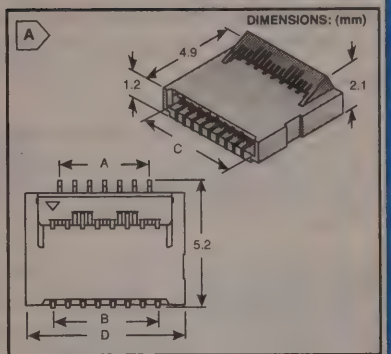
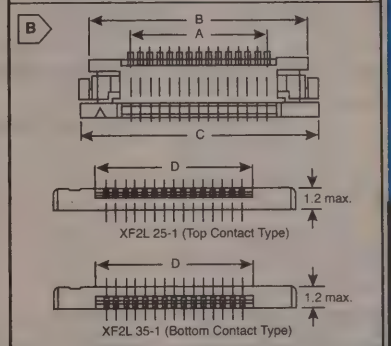
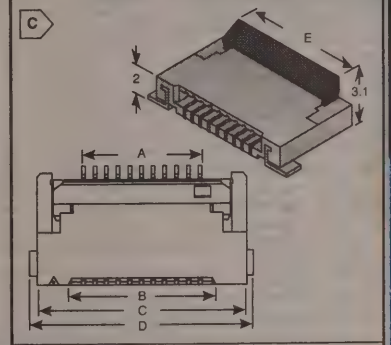
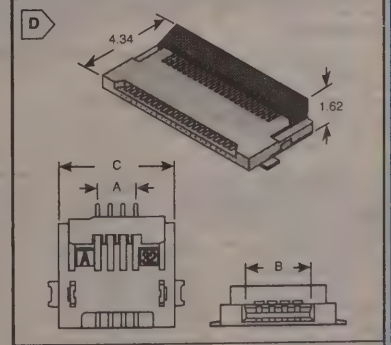
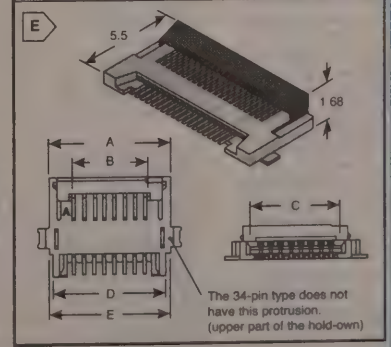
DIMENSIONS: (mm)











SBE SERIES SIP SOCKET CONTACT STRIPS - SCREW MACHINE, SINGLE ROW

DIMENSIONS: IN

Four-finger beryllium copper contacts provide low, stable contact resistance and accept short IC leads. High retention pin sockets prevent "IC walk-out" during high vibration. Pin socket design prevents solder wicking and flux entrapment.

Specifications:

- Side and end stackable
- Notched body snaps to custom sizes
- Insulation Material: High temperature black polyester glass filled
- Flammability: UL94V-0
- Contact Shell Material: Half Hard Brass
- Contact Clip Material: Beryllium Copper
- Insertion Force:12 ounces max. per contact using .017" dia. pin
- Withdrawal Force: 1/5 ounces min. per contact using .017" dia. pin
- Color: Black
- Acceptable Pin Sizes: Diameter- .016" -.021" (0.41mm - 0.53mm), Length- .110" - .150" (2.79mm - 3.81mm)
- Current Rating: 1.0 A
- Contact Resistance: 20mΩ max.
- Dielectric Withstanding Voltage: 500VAC for 1 minute
- Insulation Resistance: 5,000MΩ min. at 500VDC
- Withstanding Voltage: 650VAC for 1 minute
- Capacitance: 1 pF max.
- Temperature Rating: -65°C to +125°C

PLCC SERIES CHIP CARRIER SOCKETS

DIMENSIONS: IN

Specifications:

- High temperature insulator compatible with IR reflow and wave soldering
- Low Profile .200" maximum height
- Designed for automatic assembly
- Open frame allows visual inspection of solder joints
- Insulation Material: Glass Filled PPS
- Flammability: UL94V-0
- Color: Black, Brown
- Contact Material: Phosphor Bronze
- Contact Resistance: 20mΩ
- Insulation Resistance: 10^3MΩ minimum
- Capacitance: 1 pF
- Temperature Rating: -55°C to +105°C

ICO SERIES DIP SOCKETS - STAMPED AND FORMED, DUAL-WIPE

Specifications:

- Dual leaf, high compression contact provides gas-tight termination
- Contact Material: Phosphor Bronze
- Side and end stackable
- Anti-overstress design prevents contact spring damage
- Insulation Material: Polyester Glass Filled
- Flammability: UL94V-0
- Color: Black
- Plating: 80µ" Tin Lead
- Insertion Force: 340 grams max. per contact
- Withdrawal Force: 14.5 grams min. per contact
- S8A Parts have an Auto Insert Straight Lead
- S8 Parts have a Self Locking Barb
- Acceptable Pin Sizes: Diameter- .008" - .015" (0.2mm - 0.35mm), Length- .100" - .130" (2.54mm - 3.30mm)
- Mounting Information: Hole Diameter- .038" - .042" (0.97mm - 1.07mm), Location- IC leads and socket leads are coincident
- Current Rating: 1 A
- Insulation Resistance: 5,000MΩ min. at 500VDC
- Withstanding Voltage: 100VAC for 1 minute
- Temperature Rating: -25°C to +85°C

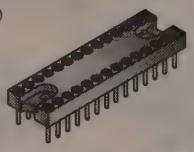
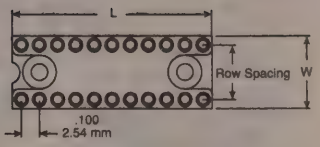
- Acceptable Pin Sizes: Diameter: .016" - .021" (0.41 mm - 0.53 mm)
  Length: .110" - .150" (2.79 mm - 3.81 mm)
- Contact Resistance: 20 mΩ max
- Dielectric Withstanding Voltage: 500 VAC for 1 minute
- Insulation Resistance: 5000 MΩ min at 500 VDC
- Withstanding Voltage: 650 VAC for 1 minute
- Capacitance: 1 pF max
- Temperature Rating: -65°C to +125°C





For quantities of 200 and up, call for quote.

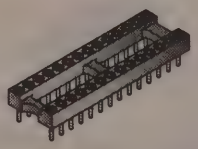
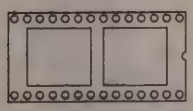
E SERIES DIP SOCKETS - SCREW MACHINE, OPEN BODY

-finger beryllium copper contacts provide low, stable contact resistance and accept short IC leads
retention pin sockets prevent "IC walk-out" during heavy vibration
ocket design prevents solder wicking and flux entrapment

de and end stackable
sulation Material: Black Polyester Glass Filled
ammability: UL94V-0
olor: Black
ntact Shell Material: Half Hard Brass
ntact Clip Material: Beryllium Copper
sertion Force: 12 ounces max per contact
thdrawal Force: 1.5 ounces min. per contact using .017" dia. pin
rrent Rating: 1.0 A

- Acceptable Pin Sizes: Diameter: .016" - .021" (0.41 mm - 0.53 mm)
  Length: .110" - .150" (2.79 mm - 3.81 mm)
- Contact Resistance: 20 mΩ max
- Dielectric Withstanding Voltage: 500 VAC for 1 minute
- Insulation Resistance: 5000 MΩ min at 500 VDC
- Withstanding Voltage: 650 VAC for 1 minute
- Capacitance: 1 pF max
- Temperature Rating: -65°C to +125°C





For quantities of 200 and up, call for quote.

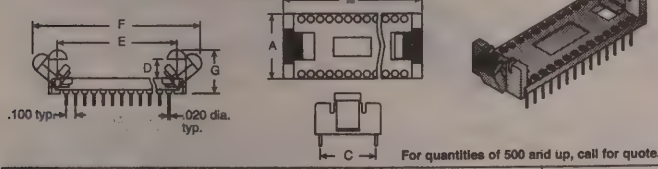
ARIES ELECTRONICS, INC.

LOCK/EJECT DIP SOCKETS

EJECT-A-DIP® is a rugged, solderable socket with a unique ejector/latch for fast in-field board maintenance. It locks in the connector or device, making it ideal for high vibration environments. When used as an ejector, it removes DIP packages without pin damage.

Specifications:

- Pin body plating: tin glass-filled polyester (PBT)
- Contact plating: 10μ" gold
- Contact current rating: 3A
- Body: UL 94V-0



For quantities of 500 and up, call for quote.

OPEN FRAME MACHINE PIN COLLET SOCKETS

Specifications:

- Body: blue UL 94V-0 glass-filled polyester thermoplastic (PBT)
- Pins: 200μ" tin over 100μ" nickel plated brass
- Contacts: 10μ" gold over 50μ" nickel plated beryllium copper

Features:

- Open frame allows for more efficient utilization of board space and better cooling
- Compatible with automatic insertion equipment

For quantities of 1000 and up, call for quote.

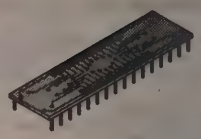
SOIC AND SOJ TO DIP ADAPTERS

Specifications:

- Board material: .062" FR-4
- Pins: brass alloy with tin over nickel plating

Features:

- Cost effective, permits upgrading to SOJ or SOIC—without changing PCB layout
- Available on .300", .400", and .600" centers



For quantities of 1000 and up, call for quo

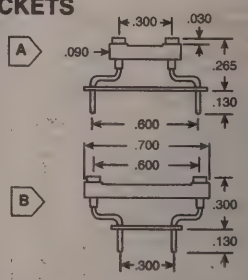
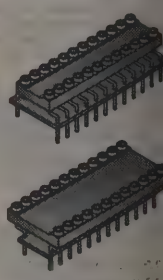
DIP ADAPTER SOCKETS

These adapter sockets allow the use of .300" center devices when the PCB is drilled on .600" centers and vice-versa, giving the flexibility of using .600" or .300" center devices in the same application.

Specifications:

- Pin body plating: tin
- 4-fingered collet contact: beryllium copper
- Contact plating: 30μ" gold
- Contact current rating: 3A
- Socket body: black UL 94-HB glass-filled nylon





For quantities of 500 and up, call for quo

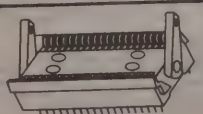
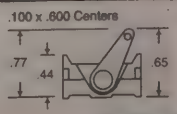
lied by lever arms. A tapered entry guides
to mating position with contacts.





.100" DIP FORK HEADERS AND COVERS

Features:

- Forked contacts accepts up to .025" Dia. leads
- Body cavity design provides additional clearance for components
- Protective covers snap on to headers

Specifications:

- Header body and covers: Red UL 94-HB Glass-filled Nylon
- Contact Rating: 2 Amps
- Operating Temperature: 221°F [105°C] Tin Plating 257°F [125°C] Gold Plating
- PCB Hole Size: .035 Dia.

UNIVERSAL ZIF TEST SOCKETS

Aries universal test sockets accept DIP devices with row-to-row pin spacing of .300" to .600". They are direct replacements for other test sockets currently on the market.

Features:

- Accepts DIP devices on .300" to .600" centers
- May be soldered directly to board or plugged into any compatible socket
- Choice of gold or tin plated contacts

Specifications:

- Body: UL94V-0 glass-filled thermoplastic
- Contacts: beryllium copper w/gold or tin over nickel
- Current rating: 1A
- Life cycles: 25,000 to 50,000 insertions

For quantities of 500 and up, call for quote.

LO-PRO ZIF IC SOCKETS

These low profile ZIF IC sockets permit 24, 28, or 40 pin DIP devices to be inserted without bending or damaging the leads. No force is required to insert or remove the component from the socket.

Specifications:

- Body: UL94V-0 glass-filled polyester thermo-plastic
- Contacts: beryllium copper with tin over nickel plating
- Current rating: 2A
- Contacts: tin plated

Features:

- CAM action compresses double sided contacts for gas tight seal
- Test point openings allow access to all pins

For quantities 500 and up, call for quote.

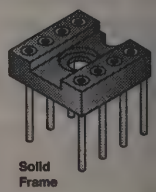
DIP SOCKETS

With Machined Contacts, Solid Frame

Tapered entry with four-finger machined inner contact and machined outer sleeve. Contact features closed end construction eliminating any solder or flux wicking problems. Meets most severe military requirements for high shock and vibration.

Precision Machined Four-Finger Inner Contact



Solid Frame

- Low profile
- XY stackable
- UL rated 94V-0, thermoplastic polyester insulator
- PC Mounting

For quantities of 1000 and up, call for quote

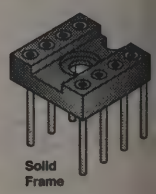
ECONOMY IC SOCKETS

Economy series DIP IC sockets with stamped and rolled contacts. Contacts have tapered entry ensuring proper targeting for automatic and manual IC loading. Sockets also feature four fingered beryllium copper inner contacts.

Stamped and Rolled Four-Finger Inner Contact



Solid Frame

- Gold contact, tin sleeve
- PC Mounting

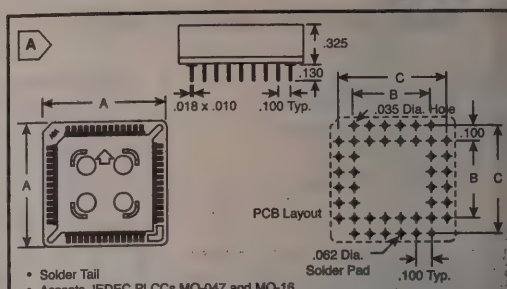
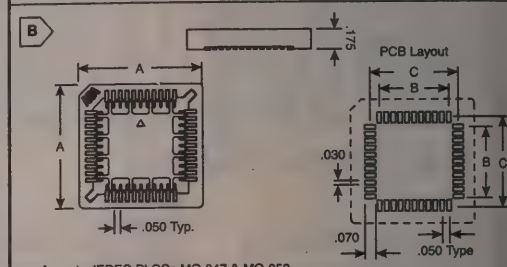
STANDARD PLCC SOCKETS

Specifications:
- Contacts: Phosphor Bronze with tin/lead finish
- Insulator: PPS Polyphenylene Sulfide, Rated UL94V-0
- Current rating: Thru-hole type 1A, SMD type 1A
- Operating Temp: -55 to +105 C
- Contact Pressure: 150 grams min.
- Capacitance: 1pF max.



- Solder Tail
- Accepts JEDEC PLCCs MO-047 and MO-16
- Standoffs provide clearance for heat dissipation and cleaning.



- Accepts JEDEC PLCCs MO-047 & MO-052
- Low profile
- Standoffs provide clearance for heat dissipation and cleaning.

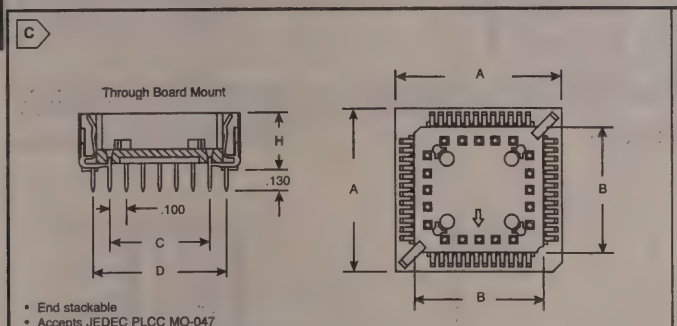
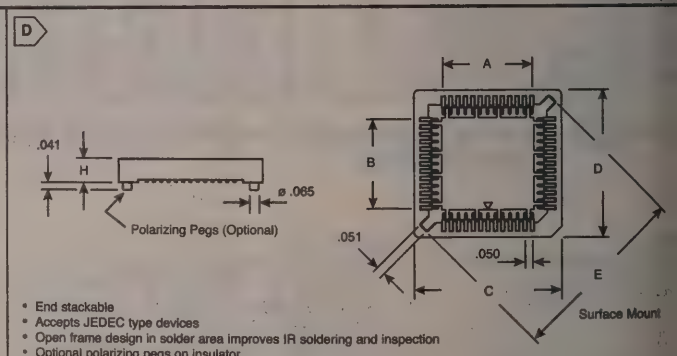
COMPACT PLCC SOCKETS

Specifications:
- Contacts: Plated copper alloy overall nickel underplating, tin/lead finish
- Insulator: Glass filled thermoplastic, self-extinguishing rated, UL94V-0, color black
- Current rating: Thru-hole type 2A, SMD type 1A
- Operating Temp: -55 to +125 C
- Contact Pressure: 150 grams min.
- Capacitance: 2pF max.

DIMENSIONS (IN



- End stackable
- Accepts JEDEC PLCC MO-047
- Body has polarizing features for both substrate and socket insertion
- High reliable contacts



- End stackable
- Accepts JEDEC type devices
- Open frame design in solder area improves IR soldering and inspection
- Optional polarizing pegs on insulator

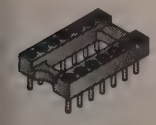
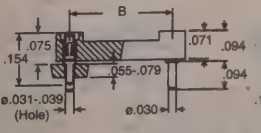
TRA LOW PROFILE IC SOCKETS

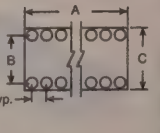
H SCREW MACHINED SLEEVES

t height is .095" above the printed circuit board. It has all the features of the standard low profile series ng open frame design, for maximum heat dissipation and easier cleaning. 4 finger stamped beryllium copper contact, press fitted into a precision machined brass receptacle sleeve.

DIMENSIONS (IN.)







ve: 200µ" tin • Contact: 30µ" gold

For quantities of 1,000 and up, call for quote.

3-LEVEL WIRE WRAP IC SOCKETS

WITH SCREW MACHINED SLEEVES

Socket has .515" terminal lengths for 3 level, solderless, wire wrapping. Terminals are locked into the insulator body to withstand the torques of wrapping tool. Open frame design for easier PCB cleaning and maximum heat dissipation. Features a 4 finger inner contact of beryllium copper, press fit into a precision machined brass receptacle sleeve.

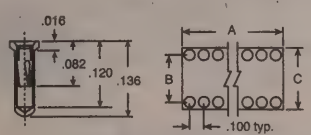
Carrier Type, Miniature

Convenient way to load loose receptacles on PC board. Offers maximum ventilation and better visibility for inspection.

DIMENSIONS (IN.)



• Sleeve: 200μ" tin • Contact: 30μ" gold

For quantities of 1,000 and up, call for quote.

MOUSER ELECTRONICS a tti company (800) 346-6873

MILL-MAX PC Receptacles and PC Pins

TERCONNECT COMPONENTS

-MAX pin receptacles are machined, component lead sockets primarily used for the plugging and unplugging of components on pc boards. Printed t pins are machined, individual pins used for various plug-in applications and board to board interconnection.

Receptacles

cifications:

ell: machined brass, 200µ" tin over nickel
ntact: multi-finger, beryllium copper, 30µ" gold over nickel

For quantities of 1,000 and up, call for quote.

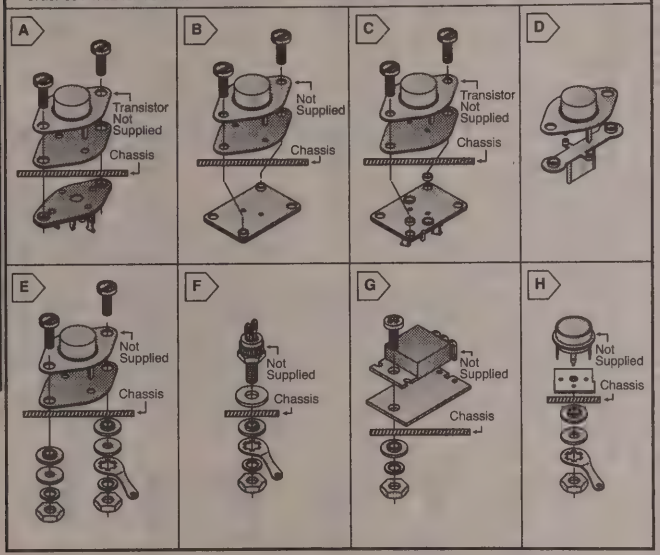
KEYSTONE MOUNTING KITS

Socket mounting kits for TO-3

These pre-packed universal mounting kits provide all the necessary hardware and insulators required to securely mount transistors to the chassis.

Features:
- Labor saving
- Easier mounting to chassis
- Better thermal efficiency
- Avoids soldering directly to the transistor
- Easier to service

Order 534-4732 for TO-3 kit **Order 534-4734 for TO-3 kit** **Molded Nylon: 534-4616**



Transistor Mounting Kit With Socket

For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	10	100
534-4732	A	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 1 Stock No.534-4602 transistor socket	1.70	1.42	1.29
534-4733	B	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 1 Stock No.534-4608 transistor socket	1.55	1.41	1.20
534-4734	C	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 4 nylon bushings, 1 Stock No.534-4606 transistor socket	1.86	1.55	1.41
534-4616	D	Nylon power transistor mount only for TO-3	.18	.09	.08

Transistor Mounting Kit Without Socket

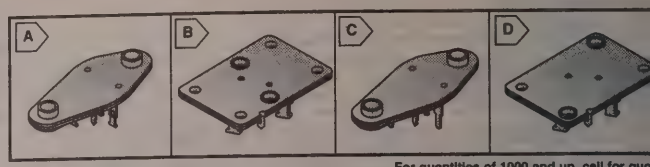
For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	10	100
534-4725	E	Kit for TO-3 case includes 2 #6-32 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 1 solder terminal, 2 lockwashers, and 2 #6-32 nuts	1.13	.94	.89
534-4726	E	Kit for TO-66 case includes 2 #6-32 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 1 solder terminal, 2 lockwashers, and 2 #6-32 nuts	1.20	1.12	1.05
534-4728	F	Kit for Plastic case includes 2 #4-40 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 2 lockwashers, 2 solder terminals, and 2 #4-40 nut	1.20	1.12	1.05
534-4729	F	Kit for DO-4, TO-59, TO-60 and TO-62 cases includes 1 mica insulator, 1 shoulder washer, 1 solder terminal, 1 lockwasher, and 1 #10-32 nut	1.13	.94	.89
534-4730	F	Kit for DO-5, TO-48 and TO-61 cases includes 1 mica insulator, 1 shoulder washer, 1 solder terminal, 1 lockwasher, and 1 1/4-28 nut	1.13	.94	.89
534-4724	G	Kit for TO-220 case includes 1 #4-40 screw, 1 mica insulator, 1 shoulder washer, 1 lockwasher, and 1 #4-40 nut	1.13	.94	.89
534-4727	H	Kit for TO-36 case includes 1 mica insulator, 1 shoulder washer, 1 metal washer, 1 solder terminal, 1 #10-32 nut	1.20	1.12	1.05

KEYSTONE TO-3 POWER TRANSISTOR SOCKETS

- Space savings
- Labor saving
- Easier servicing
- Simpler mounting

Fig. A: These sockets are held underneath the chassis and the transistor is inserted into the socket, holding the assembly in position.
Fig. B: Pre-assembling the socket to the chassis by eyelets or rivets permits the installation of the transistor at a later stage in the assembly.
Fig. C: Easily assembled on PC board, stops on PC terminals provide sufficient spacing for proper assembly of transistor to socket.



For quantities of 1000 and up, call for quo

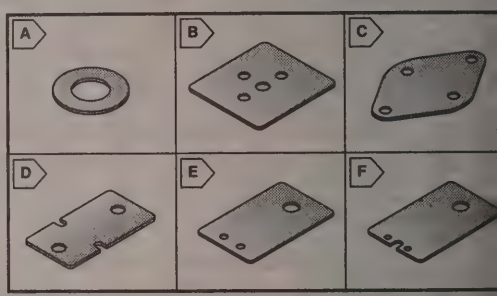
KEYSTONE TRANSISTOR MICA INSULATORS

- Rapid heat dissipation
- High dielectric strength
- Non-toxic
- Low cost
- Precision stamped .003" thick mica



For quantities of 1000 and up, call for quo

AMP SOLISTRAND, UNINSULATED TERMINALS

- Tin-plated copper
- Temperature rating: 170°C
- Meet or exceed the requirements of MIL-T-7928, Type I, Class 1 & 2

For quantities of 5,000 and up, call for quote.

Designed to terminate solid and stranded wire and irregular shaped conductors while retaining performance characteristics of single purpose terminals and splices.

PIDG NYLON (PRE-INSULATED DIAMOND GRIP) TERMINALS

Designed for complete and uniform reliability in the most difficult circuit environments. These nylon terminals feature a tin plated copper body with a specially designed copper sleeve fitted over the terminal barrel to provide maximum circumferential insulation support to the wire.

Features:
- High dielectric strength
- Temperature rating: 105°C
- Meet or exceed requirements of MIL-T-7928, Type II, Class 1 & 2
- Funnel ramp entry
- Copper support sleeve for insulation

OBICONN Test Points, Terminal Strips, & Terminal Blocks

KOBICONN

BICONN TEST POINTS GLASS BEAD INSULATOR

CB test point and terminals feature a large loop for easy probe attachment or to
te the clipping on of other components.

are ideal for components which need frequent replacement and are also suitable for
hot components above the surface of the PCB.

s bead in a choice of eight colors for identification purposes ensures a snug fit on
ard. White, yellow, black, brown, blue, pink, red
reen are available. Other colors available upon request.

nique shape of the test point will not damage through-plated holes during assembly
events any movement prior to soldering.

Also ideal as terminals.
- Three sizes
- Choice of eight colors

Closed-End Splices, Nylon-Insulated

Two piece construction. A translucent nylon-molded insulation is adhered to the metal connector insert. The connector's insert is annealed, Tin-plated, seamless, pure electrolytic, tough pitch copper. Individual design and performance requirements dictate the use of copper inserts. These connectors are all rated for a maximum of 600V.

For quantities of 10,000 and up, call for quote.

PERMA-SEAL TERMINALS

Perma-Seal terminals and splices provide a rugged, environmentally sealed connection for wire sizes 8 to 22 AWG that will insulate, seal and protect joints from physical abuse and abrasion, water, salt and other corrosive compounds. The inner wall of the heat-shrinkable Perma-Seal sleeve is lined with a special hot-melt adhesive that is inert at room temperature permitting wires to be inserted easily into the splices and terminals.

- All-weather, heat-sealable terminals and splices

For quantities of 10,000 and up, call for quote.

FULLY INSULATED QUICK DISCONNECTS

Fully Insulated Insulkrimp Female Quick Disconnects (Standard Flare)

Features:
- Designed for dense packaging requirements.
- Terminal's funnel entrance is designed for increased crimping rates by speeding wire delivery into the crimp.
- A wire stop stamped into the crimp barrel prevents insertion of over-stripped wires.
- Color coded translucent insulator allows easy identification of terminal size and wire gauge.

For quantities of 10,000 and up, call for quote.

Fully Insulated Avikrimp Quick Disconnects (Standard Flare)

Avikrimp version gives you the extra advantage of the secure metal support sleeve. These parts fulfill the double crimp (support) requirements of VDE and other DIN specifications. They are the premier line when full insulation and strain relief are required.

For quantities of 10,000 and up, call for quote.

FULLY INSULATED COUPLERS

These fully insulated couplers are precision engineered, allowing the female terminal to fit precisely into the corresponding male housing, allowing a fully insulated in-line splice. This splice may be connected and disconnected without damage to the nylon insulation.

For quantities of 10,000 and up, call for quote.

WIRE PIN TERMINALS

Wire Pin Terminals offer quick and easy connections in applications where set screws or clamps are used to make electrical contact with the wire. Wire pins simplify the insertion of stranded wire into European style terminal blocks and other components, by preventing wire strand foldback, assuring a proper electrical contact and a stronger connection than just wire alone.

- Material: Pure Electrolytic Copper

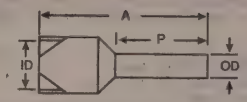
PANDUIT Insulated/Uninsulated Ferrules

SULATED FERRULES, SINGLE WIRE END SLEEVE

se of wire insertion eliminates loose strands of wire
unwanted contacts when installing or removing the wire
capsulated crimp eliminates stray wire breakage
eat for limited space applications

- Wire strands will not fray or spread
- Maximizes a reliable electrical connection



For quantities of 1000 and up, call for quote.

NEMA 900 Series Terminal Blocks

NEMA 900 Series is available in .375" centerline, in flat (direct mount) or dovetail (channel mount), tubular clamp, tubular screw, strap screw or quick connect configurations. Corrosion-resistant versions are also available. NEMA 900 Series snap fit with the Medium Duty 500, 600 and 700 Series, as well as with the Heavy Duty, Intermediate Heavy Duty and Fuse and Switch blocks.

Specifications:
- High temperature plastic, UL 94V-0
- .375" Pitch
- Gray markable surface eliminates the need for a painted marking surface
- Housings: Polyester, UL 94V-0 rated, color: gray
- Operating Temperature: 150°C, max.
- Suggested Screw torque: 8, 10 or 12 in-lb
- Snap-Fit sectional design
- Medium Duty

TUBULAR SCREW TERMINAL BLOCKS

Specifications:
- Voltage Rating: 600V
- Current Rating: 50 amp
- Wire Range: 8-22 AWG
- Suggested Screw torque: 8 in-lb

† Corrosion Resistant

For quantities of 200 and up, call for quote.

EXIPLUG® HYBRID PLUGGABLE BLOCKS

tive FlexiPlug® blocks make your product easy to wire. Immediately plug into existing equipment or use in new designs ter installations.

trician-friendly plug goes into existing equipment's european-type header
aller can use common larger 1/4" flat blade or #2 phillips screwdriver
local code practice of ring-lug, spade terminals, stranded or solid wire
"(5.08mm) pitch fits common industry-standard scalloped header on the PC board

- UL, CSA, and TUV approved for 15A. 300V
- UL-94VO flame-rated
- 12 to 26 AWG
- Color: Black

For quantities of 500 and up, call for quote.

BUCHANAN Barrier Terminal Blocks

.325" PITCH, DUAL BARRIER, SINGLE ROW

- #6-32 screws on .325" centers
- UL94V-0
- Housing Material: Thermoplastic Polyamide
- Printed Circuit Pin
- 14-22 AWG
- 20A rating
- Color: Black

For quantities of 200 and up, call for quote.

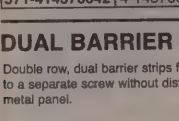
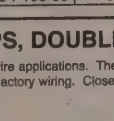
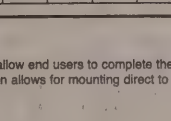
DUAL BARRIER STRIPS, DOUBLE-ROW

Double row, dual barrier strips for wire-to-wire applications. These parts also allow end users to complete the wiring to a separate screw without disturbing the factory wiring. Closed bottom design allows for mounting direct to sheet metal panel.

Specifications:
- Insulator body: UL 94V-0 Thermoplastic, Black
- Terminal: Brass, Tin Plated
- Screw: #6-32 Steel, Nickel Plated
- Molded to Length







.374 Dual Barrier Strips, Double Row with Binding Head Screws

Electrical:
- Current rating: 20A, 300VAC
- Wire range: 12-22 AWG
- Withstanding voltage: 2000 VAC min.
- Temperature: -40°C to +105°C

For quantities of 200 and up, call for quote.

5.0MM FLUSH MOUNT PLUG-IN CONNECTORS WITH CAGE CLAMP

SERIES B51C4

Physical Properties:
- Housing Material: Polyamide, Type 6/6
- Flammability: UL94V-0
- Color: Black

Electrical Properties
- Maximum Current: 15A
- Operating Voltage: 300V
- Wire Range: 12-30AWG

For quantities of 100 and up, call for quote.

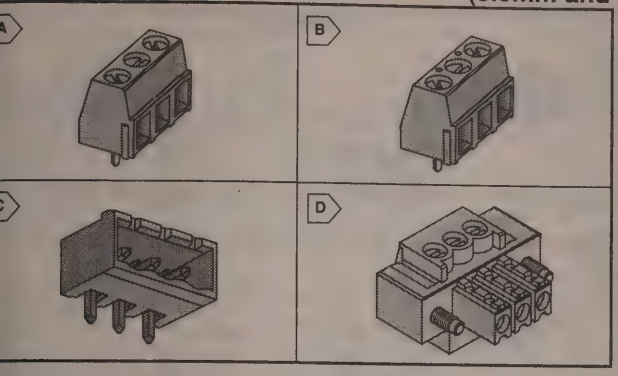
BUCHANAN Terminal Blocks & Modules

(5.0mm and 5.08mm)

tyco Electronics



LUGS, STACKING WITH INTERLOCK - ONE PIECE

Rating: 300V, 13.5 A
ire Size: 16-30 AWG, 10 A for field wiring
oard Mount
de Wire Entry

- Color: Green
- Low profile

For quantities of 200 and up, call for quote.

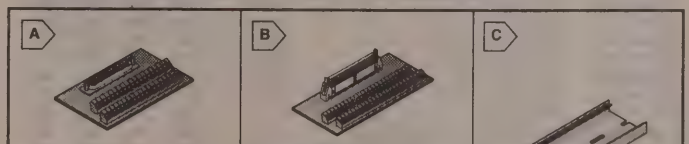
INTERFACE MODULES AND ACCESSORIES

These Modules convert industry specific connectors to field wiring and are designed to supply custom solutions.

Features:

- Mounts on SNAPTRACK Channel which can be panel mounted or snapped to a DIN rail.
- Terminal Block screws supplied in ready-to-wire position to save installation time.



Specifications:

- Housing Material: Thermoplastic polyester
- Terminals: Copper alloy, selective gold over nickel
- Shell Material: Bright tin plated, female screw locks installed

Specifications:

- Header: Brass, gold over nickel
- Connector: Copper alloy; gold over nickel
- Wire Range: 26-30 AWG solid, 28 AWG stranded
- Maximum Range: 1 Ampere

Specifications for Figure A&B Terminal Block:

- Flammability: UL94V-0
- Color: Black
- Housing Material: Thermoplastic polyester
- Wire Range: 12-22 AWG wire range
- Max. Operating Temp: 120°C
- Screws: #3-48, steel zinc plated
- Terminals: Bright acid-tin over copper alloy

For quantities of 50 and up, call for quote.

BARRIER BLOCKS AND MARKER STRIPS

Series 140 (.375)

Specifications:
- Voltage rating: 250VAC$_{RMS}$
- Current rating: 15A max.
- Withstanding voltage without marker strip: 1100VAC$_{RMS}$ max.
- Withstanding voltage with marker strip: 2000VAC$_{RMS}$ max.
- Maximum watts per terminal: 3750

Mechanical Specifications:
- Maximum wire size: #16AWG
- Recommended tightening torque: 9lb. -in.

For quantities of 200 and up, call for quote.

MOLEX Interface Modules

molex

e modules are Din-Rail mounted, PCB-based interconnect devices that provide an expedient and simplistic means to transition between system I/O l equipment. Modules incorporate terminal blocks and other high-density electronic connectors and are provided with pre-drilled component holes for the addition of other electronic components, if necessary. Typical modifications include the addition of resistors, capacitors, diodes or LED's for al functionality.

es:
- cage clamp terminal blocks
- packing density of compact modules
- ng/marking
- illed component holes
- installed cost
- screte wire connections

Applications:
- Machine Builders
- Process Control Equipment/Systems
- Industrial Control Equipment
- Material Handling Equipment
- Transportation
- Construction Equipment

Terminal Block Specifications:
- Wire Size: 26 - 12 AWG
- Current: 15A max.
- Voltage: 300V max.
- Housing Material: PA Polyamide (Nylon) 6/6
- Flammability: UL 94V-0
- Contact: Phosphor Bronze (CuSn)
- Plating Contact: Tin (Sn)

n Cable Connector:
- e: 120V
- t: 1.0A
- tric Withstanding Voltage: 1000V RMS
- tion Resistance: 1000 Megohms min.

D-Sub Connector:
- Voltage: 125V
- Current: 2.50A
- Dielectric Withstanding Voltage: 500V RMS
- Insulation Resistance: 1000 Megohms min.

WIRE-TO-WIRE TERMINAL BLOCKS

Robust and durable they are ultrasonically welded into the thermoplastic insulator. The terminal can not be twisted or rotated even under excessive force.Closed bottom design allows for the terminal to be mounted directly on a sheet metal panel or placed over a panel cutout.

Features:

- Wire to Wire
- 15 to 20 Amps
- Insulator: Thermoplastic, UL94V-0, black
- Terminals: Brass, nickel plated
- Screw: #6-32, phil/slot, steel, zinc chromate plated
- Screw Terminal Style
- 150 to 300 Volts

.375" Double Row, Low Profile - Thermoplastic

For quantities of 200 and up, call for quote.

.563" Double Row - Phenolic

Features:

- This series is for wire-to-wire terminations for 50 Amps @ 300 Volts and 150 C.
- Robust and durable #8-32 screw insures reliability and allows for 10 AWG wire without wire clamps.
- High temperature phenolic insulator out performs thermoplastic compounds.
- Closed bottom construction allows the product series to be PCB, bulkhead or panel mount.
- Insulator: General purpose phenolic
- Terminal: Brass, nickel plated
- Screw: #8-32, phil/slot, steel, zinc chromate plated
- Screw Terminal Style - Closed Bottom

For quantities of 200 and up, call for quote.

WIRE-TO-WIRE TERMINAL BLOCKS (CONT.)

.688" Double Row - Phenolic

The series 28 phenolic terminal strip is our highest power double row rated 80 Amps @ 300 Volts and 150°C. The standard #10-32 screw is designed for years of rugged use. The product is compatible with 10 AWG bare up to 6 AWG lugged wires.

- Screw: #10-32, phil/slot, brass, nickel plated
- Terminal: brass, nickel plated
- 50 Amps @ 300 Volts
- High temperature phenolic insulator

WIRE-TO-PCB TERMINAL BLOCKS - .375" PCB

Features:

- Ultrasonically welded into the thermoplastic insulator, eliminating terminal twisting & associated solder joint failure.
- PC Terminal Style
- Screw: #6-32, phil/slot, steel, zinc chromate plate
- 15 to 20 Amps
- 150 to 300 Volts

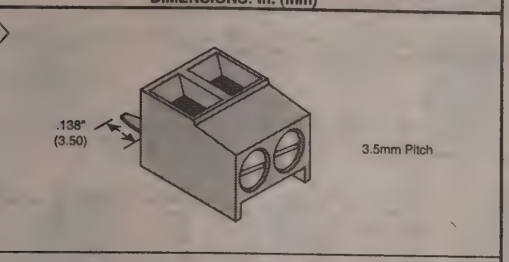
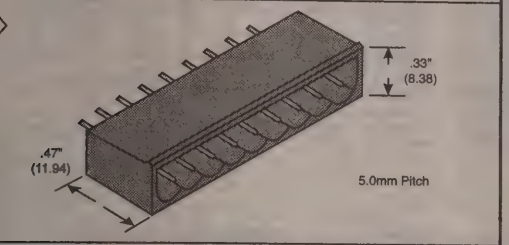
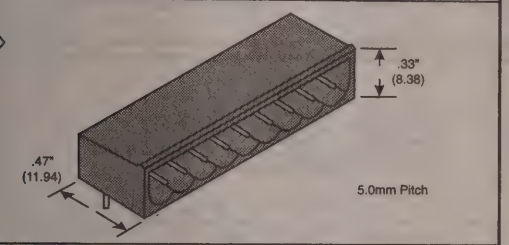
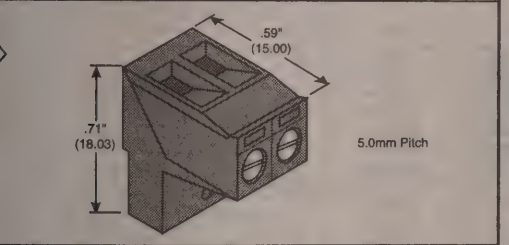
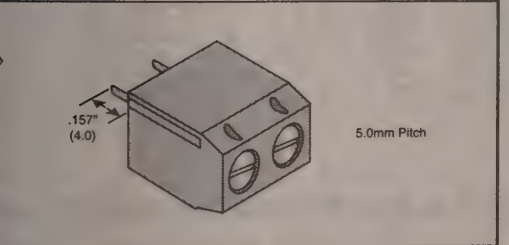
DIMENSIONS: In. (mm)

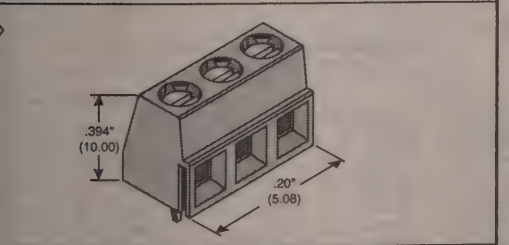


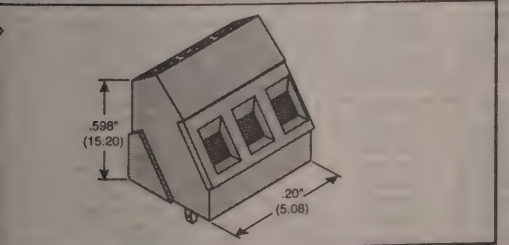












EUROSTYLE 3.5MM FIXED PCB TERMINAL BLOCKS

This series, rising cage pressure clamp terminal block features high pitch density, low profile and small footprint making the product useful in tight applications. Smallest terminal block, it has a dovetail construction, allowing several blocks to be assembled into a larger size.

Features:

- Insulator: Polyamide, UL94V-0, black
- Terminal: Brass, tin plated
- Clamp: Brass, nickel plated
- Screws: M2 bronze, nickel plated
- Operating Temp: -30° to +85°C
- Wire Range: 16 to 28 AWG
- Voltage: 300 V
- Rating: UL and CSA-Class B: 12A @ 300V
- Screw rising cage clamp
- Current: 17.5A Max.

For quantities of 200 and up, call for quote.

EUROSTYLE 5.0MM PLUGGABLE PCB HEADERS

Features:

- Insulator: Nylon 6.6, UL94V-0, black
- Header pins: Brass, tin plated
- Intermateable with competitive 5.0mm pluggable terminal blocks
- Rating: UL and CSA-Class B: 15Amps@300V UL: Class C: 10Amps@ 300V
- Closed ends

For quantities of 200 and up, call for quote.

EUROSTYLE 5.0MM PLUGGABLE PCB TERMINAL BLOCKS

These terminal blocks for PC boards are a two piece plug and header system that are polarized with the industry standard scalloped design. They offer the convenience of pluggability and superior reliability of rising cage pressure clamps for securing wires.

Features:

- Insulator: Polyamide, UL94V-0, black
- Pressure clamp: Brass, nickel plated
- Contacts: Phosphor bronze, tin plated
- Rising cage clamp
- Mounted Height: 15mm
- Header pins: Brass, tin plated
- Screws: 2.5mm, steel, zinc chromate plated
- Wire Range: 12 to 26 AWG
- Wire entry angle: 180°
- Rating: UL and CSA, Class B: 15Amps@300V, 12 AWG UL: Class C: 10Amps@ 300V, 12 AWG

For quantities of 200 and up, call for quote.

EUROSTYLE 5.0MM ECONOMY SCREW TERMINAL BLOCKS

This series, screw terminal block features a modular, snap together design. The low profile and small footprint make the product useful in tight applications.

Features:

- Insulator: Polyamide, UL94V-0, gray
- Terminal: Brass, tin plated
- Wire Protector: Phosphor bronze, tin plated
- Screws: Steel, zinc chromate plated
- Operating Temp: -55° to +85°C
- Wire Range: 14 to 24 AWG
- Rating: UL Class B: 15Amps@250V Class C: 10Amps@ 300V CSA: 15Amps@ 300V

For quantities of 200 and up, call for quote.

EUROSTYLE 5.08MM LOW PROFILE PCB TERMINAL BLOCKS

NEW PRODUCT

Features:

- Insulator: Polyamide, UL94V-0, black
- Terminal: Copper Alloy, tin plated
- Wire Range: 14 to 30 AWG
- Screws: 3mm Copper Alloy
- Operating Temp: 110°C
- Voltage: 250V
- Maximum Current: 13.5A

For quantities of 200 and up, call for quote.

MOLEX Eurostyle Terminal Blocks (5.08mm)

EUROSTYLE 5.08MM SINGLE-PIECE (FIXED) BLOCKS

This series is a single piece style for permanent mounting to PC boards. They offer the superior reliability of rising cage pressure clamps for securing wires. The product features a closed bottom design to prevent solder wicking.

Features:
- Insulator: Polyamide, UL94V-0, black
- Pressure Clamp: Brass, nickel plated
- Contacts: Phosphor bronze, hot tin dip
- Screws: Steel, zinc chromate plated
- Wire Range: 12 to 26 AWG
- Single piece (fixed)
- Rating: UL Class B: 20Amps@300V
  UL Class C: 10Amps@ 300V
  CSA: 15Amps@ 300V

For quantities of 200 and up, call for q

EUROSTYLE 5.08MM PLUGGABLE PCB TERMINAL BLOCKS

These terminal blocks for PC boards are a two piece plug and header system that are polarized with the industry standard scallope design. They offer the convenience of pluggability and superior reliability of rising cage pressure clamps for securing wires.

Features:
- Insulator: Polyamide, UL94V-0, black
- Pressure clamp: Brass, nickel plated
- Contacts: Phosphor bronze, tin plated
- Header pins: Brass, tin plated
- Pluggable
- Screws: 2.5mm, steel, zinc chromate plated
- Wire Range: 12 to 26 AWG
- Rating: UL and CSA-Class B: 15Amps@300V12AWG
  UL-Class C: 10Amps@ 300V 12AWG

5.0MM PLUGGABLE SCREW TERMINAL BLOCKS WITH WIRE PROTECTION

E60425

- Plug can mount Horizontally or Vertically
- End to end stackable with dove tail design
- Clamping screws have combination screw head
- Insulation Material: Polyamide - UL94/V0
- Terminal Block Color: Green
- Max Voltage: 300V
- Max Current: 10A
- Wire Size: 26-12 AWG

For quantities of 1000 and up, call for quote.

3.5MM SPRING FORCE PCB FIXED TERMINAL BLOCKS

- Color: Green
- 2 Wire entries per circuit
- Insulation Material: Polyamide - UL94/V0
- Stripped wires make contact automatically when inserted
- Max Voltage: 300V
- Max Current: 4A
- Wire Size: 28-20 AWG solid conductor
- UL Approval File # E60425

E60425

For quantities of 500 and up, call for quote.

HR TERMINAL BLOCKS FOR SMT REFLOW SOLDERING

tures:

OMBICON THR (Through Hole Reflow) terminal blocks and headers are
gineered to withstand the heat of the SMT soldering process
iminates the need for time-consuming secondary wave or hand soldering.
rop-in replacement for existing terminal blocks
eat resistant housing is able to withstand 290°C for 10 seconds

- RoHS and WEEE compliant, lead free
- Tape and Reel versions available upon request
- Through hole solder pins for high mechanical stability
- "PIN-in-PASTE" mounting procedure

gh Temperature Fixed PCB Terminal Blocks

tandard 2 and 3 positions available • Interlocking Dovetail sides allows for multiple position creation

For quantities of 100 and up or Tape and Reel, call for quote.

HIGH TEMPERATURE PCB HEADERS FOR THROUGH HOLE REFLOW PROCESSES

Features:
- COMBICON THR (Through Hole Reflow) headers are engineered to withstand the heat of the SMT soldering process
- Eliminates the need for time-consuming secondary wave or hand soldering
- Insulating Material: CC Series Header - (LCP) suitable for use in lead-free solder processes
- Insulating Material: MC Series Header - (PA-F) suitable for use in lead-free solder processes
- Mates with standard plugs
- "PIN-In-PASTE" mounting procedure
- Tape and Reel versions available upon request

5.08mm Headers

For quantities of 100 and up, call for quote.

EVICE TERMINAL BLOCKS FOR DIRECT MOUNTING

se G5 and G10 compact terminal blocks are used for main connections in electric and electronic equipment. They ide touch proof shock protection and have interlocking tongues and grooves. Two screws are provided with each.

For quantities of 500 and up, call for quote.

PHOENIX CONTACT Modular Electronic Housings

PHOENIX CONTACT
INSPIRING INNOVATIO

ME MAX ELECTRONIC HOUSINGS

The ME MAX housings mark the new standard for electronic housings for DIN Rail mounting. With the new Din-Rail mounted bus connector, Phoenix Contact's ME MAX housings are hot swappable allowing upgrades or system maintenance without down time. Despite compact dimensions, the housings offer plenty of space for an individual choice of electronics.

Features:

- Large PCB surface
- Expandable up to 48 connection points
- Housing widths available from 17.5mm to 45mm
- Fixed or pluggable terminal blocks
- Screw or spring terminations
- DIN-Rail grounding feature
- Electronic housing consists of: Housing shells left and right, front plate, transparent cover, metal foot catch and spring
- DIN-Rail bus connector as an option
- Simple exchange of modules without having to break the contact chain
- Optional earth ground contacts
- Gray color
- UL 94V-0 flammability rating

DT DIRECT TERMINAL LEG SPRING CONNECTION

Simply insert solid conductors directly into the terminal block. This is the hallmark of the direct insertion system. A screw driver is only required for releasing the conductor. The direct insertion method is of particular advantage in very restricted wiring spaces.

For quantities of 500 and up, call for quote.

QT QUICKON TERMINAL FAST CONNECTION

Connect the conductor without having to strip it first. The quick connection system permits a drastic reduction of anything up to 60% in wiring time. The conductor connection is simple, reliable and fast, requiring only the aid of a standard screw driver.

For quantities of 500 and up, call for quote.

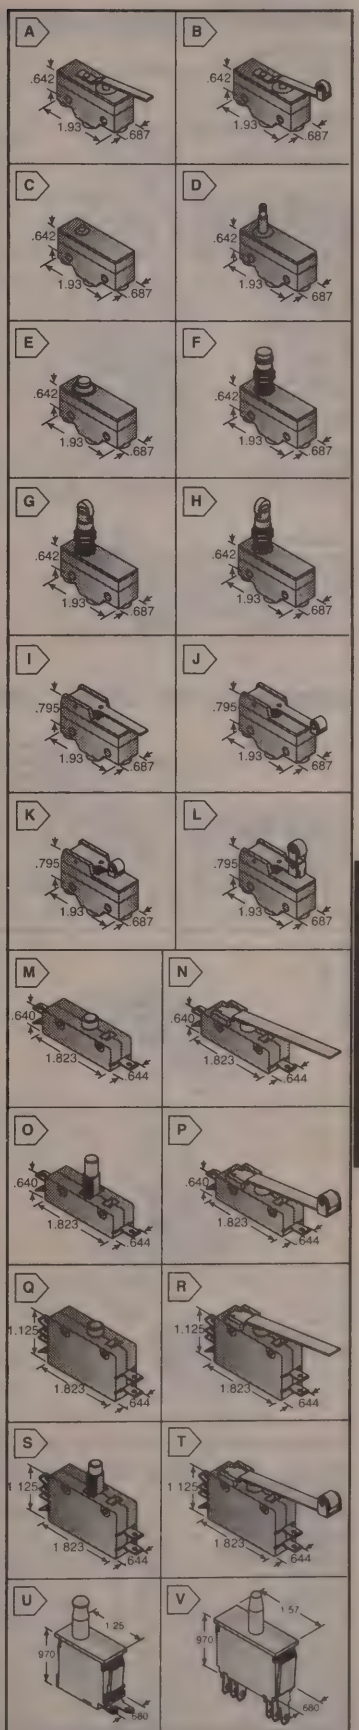
Cherry Snap Action Switches

GP SERIES: HEAVY DUTY SNAP ACTION SWITCHES

Features:
- Ultra-small travel differential
- Mechanical life tested to 1 million cycles
- Current switching to 15 amps
- Wide variety of actuators
- Screw or solder terminals standard
- Low operate forces available

Two versions are available, Replace (_) with: 1 U.S. version mounting holes, 0.140 or 0 Metric version mounting holes, 4.4

DIMENSIONS (IN.)



For quantities greater than listed, call for quote.

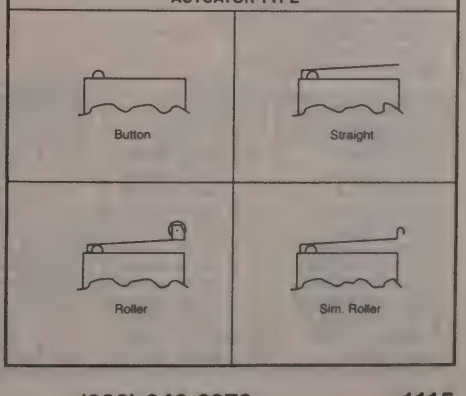
ACTUATOR TYPE



MICRO SWITCH a Honeywell Division SX SUBMINIATURE BASIC PRECISION SWITCHES

SX subminiature basic switches are small size precision snap-action switches from MICRO SWITCH. These switches are ideal where savings in space and weight are important.

Features:

- Long-life beryllium-copper spring
- Wear-resistant phenolic base and cover
- Power load switching capability up to 7A
- Silver contacts
- Temperature tolerance: -54°C to +121°C
- UL recognized and CSA certified
- Termination: wire wrap

E12252 LR41372

For quantities greater than listed, call for quote.

MICRO SWITCH a Honeywell Division SM SUBMINIATURE BASIC PRECISION SWITCHES

SM subminiature basic switches are slightly larger than the SX basic switches. These switches combine small size and light weight with ample electrical capacity, precision operation, and long life.

Features:

- Long-life beryllium-copper spring
- Wear-resistant phenolic base and cover
- Power load switching capability up to 11A
- Silver contacts
- Temperature tolerance: -54°C to +85°C
- UL recognized and CSA certified
- Termination: wire wrap, except where
- * noted with an asterisk

E12252 LR41372

Termination: solder

For quantities greater than listed, call for quote.

MICRO SWITCH a Honeywell Division BZ/BA BASIC PRECISION SWITCHES

BZ/BA standard basic switches are precision snap-action mechanisms enclosed in accurately molded plastic cases. These switches are carefully manufactured and thoroughly inspected. They are industry known for their compactness, light weight, accurate repeatability, and long life.

Features:

- Long-life, one-piece beryllium-copper spring
- High grade phenolic cover and case
- Power load switching capability up to 20A
- Motor handling capacity to 2 horsepower @ 250VAC
- UL recognized and CSA certified
- Termination: bottom facing 6-32 screw

OMRON Basic Snap Action Switches

OMRON ELECTRONIC COMPONENTS

J SERIES: ULTRA SUBMINIATURE BASIC SWITCHES

Specifications:
Contact form: SPDT
Contact material: Gold-plated silver
Mounting: Use two M2.3 screws with plain washers or spring washers.

Features:
- Allows large-capacity switching in small package
- Particularly suitable as control switches where there are restrictions on space and weight

For quantities of 500 and up, call for quote.

D3V SERIES: COST-EFFECTIVE SNAP ACTION SWITCHES

Specifications:
Self-cleaning contacts
.187" Quick-Connect terminals
Contact configuration: SPDT momentary action

For quantities of 500 and up, call for quote.

D2T SERIES: COMPACT DPST-NO SNAP ACTION SWITCHES

Specifications:
Electrical ratings: 5A @ 125/250VAC between terminals 1 & 2; 0.1 A at 125VAC between terminals 3 & 4
The circuit switching power load has a snap-action mechanism
The circuit switching low-level load has a slow-action mechanism
Terminals: Solder/#110 QC common terminal

Features:
- Incorporates circuits for power and low-level loads
- As compact as OMRON's V series
- Contact gap of 0.7mm min.
- Panel or screw mounted with ease

For quantities of 500 and up, call for quote.

OMRON A SERIES: HIGH CAPACITY SNAP ACTION SWITCHES

Specifications:
- Screw terminal: -B suffix - M4; -B7-K suffix - #6-32NC
- Mounting hole size: -B suffix - 4.2mm; -B7-K suffix - 3.56mm
- Mount thread size (panel mount versions): -B suffix - M12 x 1mm; -B7-K - 15/32-32NC

Features:
- High-capacity switch capable of handling 20 A loads with inrush currents up to 75 A
- Direct switches such loads as motors, halogen lamps, and solenoids
- Same shape as OMRON Z series (except pin plunger).

For quantities of 500 and up, call for quote.

OMRON Z SERIES: GENERAL PURPOSE BASIC SWITCHES

Specifications:
- Screw terminal: -B suffix - M4; -B7-K suffix - #6-32NC
- Mounting hole size: -B suffix - 4.2mm; -B7-K suffix - 3.56mm
- Mount thread size (panel mount versions): -B suffix - M12 x 1mm; -B7-K - 15/32-32NC

Features:
- High precision in a variety of styles
- Wide margins of operating conditions
- Also available in a drip-proof version

For quantities of 250 and up, call for quote.

Z Series with panel mount cross roller plunger shown

OMRON TZ SERIES: HIGH TEMPERATURE BASIC SWITCHES

Specifications:
- Electrical rating: 1A @ 250VAC
- Contact gap: 0.5mm
- Operating temperature range: -65°C to 400°C (with no icing)
- Inrush current: NC contact - 9A max.; NO contact 4.5A max.
- Cross bar contact material: Platinum alloy

Features:
- Incorporates a ceramic insulator, cobalt-alloy spring, and special-alloy contact to ensure high contact reliability at high ambient temperatures.

Applications:
- Heat treating
- Annealing
- Metal processing ovens and conveyors
- Vacuum chambers
- Injection molding

For quantities of 50 and up, call for quote.

OMRON D2RW SERIES: SEALED REED BASIC SWITCHES

Specifications:
- Terminals: Molded lead wires
- Contact capacity: 10W max.
- Degree of protection: IEC IP67 (circuit block only)
- Contact form: SPST-NO
- Minimum applicable load: 100mA @ 5 VDC

Features:
- Internal reed switch construction enables the conductors block and the mechanical block to be separate.
- Conductor (circuit) block including the internal reed switch is entirely sealed with resin.
- Use of a reed switch maintains high contact reliability with micro load range.

NEW FROM SUPPLIER

ELECTRONIC COMPONENTS

OMRON D2MQ SERIES: ULTRA SUBMINIATURE BASIC SWITCHES

Specifications:
Contact form: SPDT
Mechanical life: 30,000 operations min.
Contact gap: 0.15mm
Use M1.4 mounting screws with screws to mount the switch.

Features:
- Excels in electric characteristics with the snap-action mechanism despite superminiaturized design.
- Gold-plated contacts for micro load switching available in addition to the standard silver-plated contacts.

For quantities of 500 and up, call for quote.

OMRON SS-P SERIES: SUBMINIATURE BASIC SWITCHES

Specifications:
Contact Material: SS-3P - Silver alloy rivet; SS-01P - Gold alloy crossbar
Contact Gap: 0.5mm

Features:
- Insert molded case for enhanced resistance to flux
- Simple construction with single-leaf spring
- SS series compatible mounting

For quantities of 500 and up, call for quote.
